CREMATION SERVICES OF PENNSYLVANIA

OUR PROCESS

It's **simple**, **efficient**, and **affordable**. The online arrangement portal allows for a safe, secure, and cost-effective way to select your loved one's final arrangements. After required family/next-of-kin paperwork is signed (typically electronically), we'll secure the additional legal paperwork from the appropriate authorities. We'll file the death certificate and notify Social Security on your behalf. Once cremation is complete, we'll work with you to schedule a time to return your loved one back into your care. On average, **the process is between 8 and 10 days**. (Expedited cremation options are available, if desired.)
