SLAB SCISSOR LIFT

SMOOTH, RESPONSIVE CONTROLS, powered by LGMG's proprietary software, deliver better handling and reduced bounce and lag.

LEAK CONTAINMENT SYSTEM comes **STANDARD**.

SEALED, BRUSHLESS AC DRIVE MOTORS last the machine's life, reducing maintenance needs and downtime.

HEAVY-GAUGE STEEL CONSTRUCTION offers a more robust machine compared to the lighter-gauge steel used by competitors.

A SIMPLE BRAKE RELEASE KEY SWITCH allows machines to be pushed onto a truck, even with dead batteries, without removing panels or accessing toggle switches.
