

## Outstanding Leader of the Year Site Award

This category celebrates women who make a significant leadership contribution to the building, construction or infrastructure industries in their chosen profession or expertise.

This category is open to all women who have used their influence and position of power to make a difference to others and have over 8 years' experience in this capacity. The nominee is a leader who inspires and motivates their peers - to be more, and to do more.

The nominee is a game-changer and role model who leads by example, with integrity, dedication and commitment. As a mentor, the nominee encourages others to enhance and develop their careers; and leaves the ladder down for other women to follow.

The nominee is involved in organisations and activities outside the workplace to enhance the environment for other women working in the building, construction or infrastructure industries.

This award is for women who predominantly work on site.

### Judging Criteria

1. Explain any initiatives and contributions they make at work or by participating in other industry related associations.
2. Describe the significance of these contributions and the impact they make.
3. Describe how they demonstrate outstanding leadership through unwavering perseverance and dedication.
4. Explain how they encourage personal growth of others in their workplace, industry related organisations or community opportunities.
5. What developments or changes do they want to implement in the industry and how?
6. How do they participate in the wider community, in a leadership capacity? Share any other industry activities or wider community contribution they are actively involved in.
