

Excellence in Site Operational Management

Site or Field Award

This category celebrates the accomplishments of women contributing in a crucial role in ensuring the success of the workplace on site, on the road, out in the field, or in a technical supporting role.

Nominees safely plan and lead work teams to ensure all resources (people, plant and equipment) are available to successfully execute their role in the project. This includes planning and scheduling, leading multiple operational teams, subcontractor management, supplier management, and involvement of the site safety management.

An effective communicator with both internal and external stakeholders including design and construction teams, and regulatory authorities, these women provide leadership and guidance to the team for a safe and efficient workplace environment.

This category is open to all women who work in site operations such as; Site supervisor/manager, leading hand, site engineer, foreperson, field/case manager, production manager, stakeholder manager, STMS management, land surveyors, inspectors, technical advisors.

Using their exceptional operational talents, how else do they participate in the industry that goes above and beyond the requirements of their workplace or wider community.

These women dedicate the majority of their working week to site or field-based responsibilities on site, on the road away from the main office (maybe based in a site office).

Excellence in Site Operational Management

Site or Field Award

This category celebrates the accomplishments of women contributing in a crucial role in ensuring the success of the workplace on site, on the road, out in the field, or in a technical supporting role.

Judging Criteria

1. Describe the nominee's role and level of responsibility, and how they deliver excellence.
2. Provide examples of how they are effective communicators working collaboratively with both internal and external stakeholders, including design and construction teams, and regulatory authorities.
3. Describe an innovation and/or methodology they have developed to significantly enhance the workplace/management system or project success.
4. Describe how their role and contribution impacts on the overall success of their workplace or project.
5. Share any other activities they are involved in with other women in the industry and outside the workplace and wider community.
