A security incident is a confirmed breach, potential breach or 'near-miss breach of one of the school's information policies.

3. Carry out an effective process appropriate to the severity of the incident
4. Carry out an effective process appropriate to the severity of the incident

What if I need to do something against the policy?

If you believe you have a valid business reason for an exception to these policy points, having read and understood the reasons why they are in place, please raise a formal request by contacting the Head Teacher.

If you believe the policy does not meet your business needs, you may raise this with your Information Champion who, if they agree with your suggestion, may propose a policy change.
