Our mission is to provide exceptional and meaningful service to families in their time of need. Through professionalism and integrity, we honour every life with dignity while delivering the highest standard of funeral care at a price that remains accessible to the families we are privileged to serve.

A Legacy of Community

Legacy Funeral and Cremation Services Inc. is independently family owned and operated by Matt and Cindy Drury. Our family is part of a long line of generations who have lived, worked and supported the communities of Simcoe County. We are proud to continue that legacy through the care and service we provide to the families we serve.

“The greatest legacy one can pass on to one’s children and grandchildren is a legacy of character and faith” ~ Billy Graham ~

Comprehensive and Flexible Service

Legacy Funeral and Cremation Services is a progressive, forward-thinking provider offering a full range of funeral and cremation options under one roof. From Alkaline hydrolysis and cremation-only services to traditional funerals, entombment, body bequeathal, and repatriation, every service can be tailored to reflect the wishes, beliefs, and traditions of each family.

A Different Kind of Funeral Facility

Legacy Funeral and Cremation Services is unlike many traditional funeral providers in our area. Our bright, modern facility is designed to be welcoming and comfortable for families and guests. The building is fully accessible on one level and thoughtfully designed to create a calm and supportive environment. While many services and celebrations can be held at our facility, we are not limited to our building. We are pleased to assist families in arranging services at other venues and locations both within and outside Simcoe County.

Personalized Care and Guidance

Our intention is to give every family the personal attention and support they deserve. As a family-owned Funeral Home with deep roots in the community, we are committed to providing compassionate guidance and professional care at every step. Being family owned also allows us to be flexible and responsive to the needs of the families we serve. We take pride in helping families create meaningful services that reflect the life, personality, and story of their loved one.

Honest, Transparent Pricing

We believe families deserve clear and transparent information when making funeral arrangements. Legacy Funeral and Cremation Services is proud to be a value-added provider. **This means *We do not charge additional fees for services such as after-hours transfers, removal of pacemaker, identification of deceased, additional Proof of Death Certificates, estate settlement papers and so on.** (Legacy Lite Cremation is the only exception).

Green Burials

A green burial is an earth friendly burial practice that aims to return the deceased remains to the earth as quickly and naturally as possible with as little impact on the environment. Natural green burials generally do not include embalming, or concrete outer containers for a casket to be placed into. Green burial caskets and shrouds are made from natural materials that are easily biodegradable.

A service may be held at a location of your choosing either before or after the burial. The service could be held at a church, a funeral home, family home or even outdoors at the cemetery or in a park setting. When natural burials take place generally there is no embalming so the burial preferably will be held within a few days following the death. In circumstances where a longer time period is necessary the deceased should be kept in a climate-controlled facility until burial which is available through Legacy Funeral and Cremation Services Inc.

Options Available for Cremation

After Cremation, you have several options for the cremated remains. The most common options include keeping the cremated remains in an urn, keeping them at home, interring them in a cemetery, placing them into a niche, or scattering them at a favorite location. Some options may be more appropriate than others. For Example, scattering is a strong symbolic gesture but leaves no permanent memorial for future generations.

Scattering

Holding Cremated Remains

Under 30 days—N/C

Legacy Funeral and Cremation Services Inc. will hold the cremated remains for a maximum of 30 days at no cost, following that a refundable deposit will be required for the holding of any cremated remains for longer periods.

Cremated Remains Refundable Deposit

Over 30 days—\$ 350

Legacy Funeral and Cremation Services Inc. may at its discretion, charge a refundable deposit for cremated remains. If unclaimed after one year Legacy Funeral and Cremation Services Inc. may inter in common ground at a cemetery of our choice or scatter the remains as per Ontario Law.

Legal & Family Considerations

In Ontario, scattering cremated remains is generally permitted on your own property or on crown land, but it's a good idea to check with the specific cemetery or property owner for any rules or regulations. It is always helpful to involve family members in the decision-making process to ensure everyone feels comfortable and respected with the decisions.
