

Figure Skating Club of Park City Fall 2026 Club ice & Programming

Club ice Programming:

Monday Twirl Class 5-5:30pm - Our "TWIRL" class is a weekly spin class which is a great opportunity for our skaters to spin, spin, spin! This class is appropriate for skaters who have at least solid back scratch spin.

Monday Aspire* - Aspire members **MUST** participate in this program. This program is a bridge from Learn to Skate classes to the club with a lower cost and a lower commitment level. The program fee includes a 30-minute on-ice group class and a 30-minute off-ice group class. Skaters with solid forward and backward crossovers through Aspire free skate levels are invited to participate (yes, full club members can also participate in this program!).

**If Aspire members do not want to or cannot participate in this program on Mondays, they will need to become a full club member. All show participation for both the holiday and spring shows will take place during the Monday program time.*

Monday Aspire Off-ice only- This option to participate in the Aspire Off-ice only class is appropriate for full club members who may choose to participate in the Twirl class but want to do the off-ice class with the Aspire program afterwards.

Wednesday Hops class 3:15-3:45pm - This class will focus on jump technique and is appropriate for all of our club members at the Basic 6 level through Senior. We will have multiple groups and several coaches.

Wednesday Emerging Skater (formerly called Low FS) - 4:45-5:50pm - With both a 30-minute on-ice class and a 30-minute off-ice class, skaters will progress their skills to the next level. Skaters Aspire 1 through Preliminary competition free skate levels are invited to participate.

Friday 2-3pm High Session - This session is limited to 16 skaters who compete at the Championship Preliminary Free Skate levels or higher. Juvenile Solo dance skaters are also invited.
