EDUCATION CASE STUDY

### WATERSHED DEVELOPMENT

CLIENT: WARDLE ACADEMY

PROJECT VALUE: £1,000,000

COMPLETION: 2025

A true example of how creative collaboration can reshape educational environments for the better.

The WaterSHED project transformed an outdated sports hall into a bright, eco-friendly learning and dining space at the heart of Wardle Academy.

Funded through Watergrove Trust reserves and Local Authority support, the 12-month scheme delivered a modern facility designed for flexibility, well-being, and long-term sustainability.

BDP led the architectural design, with Construction Q providing QS services and Project Management throughout. The team oversaw cost control, programme management, and coordination across all stakeholders to ensure smooth delivery on a live school site.

The new space now supports a wide range of teaching and dining activities, bringing improved flow, natural light, and high-quality finishes that uplift the student experience. Its innovative design and environmental credentials earned national recognition, including the **Architects' Journal AJ Architecture Award 2022**.
