

Psychiatrists in Adult Disability

This is not a comprehensive list of adult disability psychiatrists, just ones that I know of or have been recommended to me. They are listed in alphabetical order by suburb. Psychiatrists often have specialised areas of work and you are recommended to check with them that they provide the service that you are looking for before booking. I recommend that you also discuss with your GP, who may know of psychiatrists local to you. I cannot be sure that everyone on this list is able to accept referrals at the moment, but this is indicated where known.

You can also check on The Royal Australian and New Zealand College of Psychiatrists' website at www.ranzcp.org and click on the "Find a psychiatrist" button, which is about half way down the first page.

Some psychiatrists in adult disability will see people below the age of 18 years, and I have indicated where this is known.

Last updated **September 2025**

Chatswood

Dr Peter Wurth (temporarily closed and not currently taking new patients)
