

HIT BY A DELIVERY VEHICLE?

Do these four things before you leave the scene.

1

CALL 911

Ask for police and medical help. Stay somewhere safe and follow the dispatcher's instructions.

2

GET THE REPORT NUMBER

Write down the responding agency, officer's name, and police report or incident number.

3

COLLECT THE INFORMATION

Get the driver's name, contact information, driver's license, insurance card, license plate, delivery company, and witness information.

4

TAKE A LOT OF PICTURES - THEN TAKE A FEW MORE

Photograph every vehicle, all damage, the full scene, road and weather conditions, signs and signals, company logos, unit numbers, license plates, and your visible injuries.

THEN CALL GREEN LAW. WE'LL HANDLE THE REST.
