Position Overview:

The Shop Mechanic will be responsible for diagnosing, repairing, and maintaining company vehicles, semi-trucks, heavy equipment, and other machinery. This role requires strong technical expertise in diesel engines, hydraulic systems, electrical systems, and fabrication, along with a commitment to safety and efficiency.

Key Responsibilities:

- Diagnose and troubleshoot mechanical issues using diagnostic tools and equipment.
- Perform routine maintenance, including oil changes, lubrication, and filter replacements.
- Inspect equipment to identify worn or damaged parts and recommend repair or replacement.
- Repair hydraulic systems, engines, transmissions, brakes, and electrical systems.
- Prioritize maintenance and repairs based on employee pre-operational inspections.
- Fabricate or modify parts using welding, cutting, and machining techniques when needed.
- Maintain accurate records of work performed, including parts, labor hours, and downtime.
- Follow all company safety protocols and industry regulations to ensure a safe workplace.

Qualifications:

- Proven experience as a mechanic, with strong knowledge of semi-trucks, diesel engines, heavy equipment, hydraulic, and electrical systems.

- Ability to read and interpret technical manuals, schematics, and diagrams.
- Welding, cutting, and machining skills preferred.
- Strong problem-solving and diagnostic skills.

What We Offer:

- Competitive pay based on experience.
- Benefits package – medical, dental, vision, 401k, PTO & Holidays.
- Steady, year-round work with a supportive team.
- Opportunities for skill development and advancement.
