

Cancer Insurance

How would cancer impact your way of life?

Hopefully, you and your family will never face cancer. If you do, a financial safety net can help you and your loved ones focus on what matters most – recovery.

If you were diagnosed with cancer, you could have expenses that medical insurance doesn't cover. In addition to your regular, ongoing bills, you could have indirect treatment and recovery costs, such as child care and home health care services.

Help in times of need

Cancer insurance coverage from Colonial Life & Accident Insurance Company can help protect the lifestyle you've worked so hard to build. It provides benefits you can use to help cover:

- Loss of income
- Out-of-network treatment
- Lodging and meals
- Deductibles and other out-of-pocket expenses

More than 1.9 million new cancer cases are expected to be diagnosed in 2022.¹

One family's journey*

Paul and Kim were preparing for their second child when they learned Paul had cancer. They quickly realized their medical insurance wouldn't cover everything. Thankfully, Kim's job enabled her to purchase a cancer insurance policy covering Paul to help them with expenses.

Doctor's screening

Wellness benefit²

Paul's wellness benefit helped pay for the screening that discovered his cancer.

Second opinion

Travel expenses

When the couple traveled several hundred miles from their home to a top cancer hospital, they used the policy's lodging and transportation benefits to help with expenses.

Surgery

Out-of-pocket costs

The policy's benefits helped with deductibles and related to Paul's surgery and hospital stay.

Treatment

Experimental care

Paul used his plan's benefits to help pay for experimental treatments not covered by his medical insurance.

Recovery

Follow-up evaluations

Paul has been cancer-free for more than four years. His cancer policy provides a benefit for periodic scans.
