RENEGADE CANE RUM

The cane plant, rum's primary raw ingredient, is the natural source of its flavour. Thus the land on which it grows & its microclimate determines its character. Therefore we choose to explore the terroirs of Grenada – one place, one farm, at a time: captured here as fresh, vibrant spirit before cask ageing.

The modern marvel that is the Renegade Rum distillery was designed precisely to extol this individuality, with extended temperature-controlled fermentation for purity, & considered distillation for gravitas. We look to compare & contrast natural flavours, terroir by terroir.
