2026 SUMMER NEWSLETTER

As we all prepare to commemorate our nation's 250th Anniversary of signing the Declaration of Independence in July, it is also important to reflect on our city's own history & our story that continues to be written. This time allows us to take the opportunity at our local level to celebrate our community, our volunteers and the people that make Linden so wonderful to live in and work in. With the excitement of America250, this season carries even greater significance!

We LOVE Linden during every season & all year round, but there is just something about summertime that makes our community shine brighter & feel warmer (not just because of the rise in temperatures!). Everything is in bloom, more people are out & about shopping at & visiting our local businesses, downtown & our parks. People are biking, walking, kayaking fishing & swimming. Summer brings sweet sounds of classic cars, concerts, fun-family events and excitement, also the sound of construction...we prefer to think of it as the sound of progress! There are also the smells of summer, like from your neighbor barbecuing or having a campfire, fresh brewed coffee from our cafes in town & good cookin' from our local restaurants! Not too mention the smell of flowers, thanks to the Beautification Committee! Whether you live here or make Linden a destination just for the day, we invite you to engage in our community, volunteer, come to meetings, enjoy our beautiful recreation areas & senior center, attend events hosted here, visit our local businesses & form a deeper connection with your community! Make a memory here. Experiencing Linden in the summer is a MUST! With that, let's celebrate not only America's spirit, but Linden's spirit as well. Happy America250 & we wish everyone a happy, fun, safe & memorable summer!

LINDEN MILL RECONSTRUCTION PROJECT UPDATE

The early phases of the Linden Mill Project have progressed slowly as contractors worked through the meticulous & highly technical task of repairing the Mill Building's deteriorating foundations (photos below). As that work draws to an end, residents & visitors should begin to see more visible progress as exterior improvements become the focus in the coming weeks. If all goes well, the Mill Building should be completed and open in late fall or early winter.

SUMMER SAVINGS TIDBIT

If you use a lot of water to irrigate the lawn or garden, fill a swimming pool or hot tub, or for home & car maintenance, consider installing a lawn meter! The separate meter, registers outside water usage. Since the water does not enter the sanitary sewer system, you will be billed for water usage only. If you use a lot of water outside the house, this could result in significant cost savings! Contact the Treasurer's Department for more information.
