Balanced nutrition from vitamin A to zinc. Balancer is a low-sugar/starch, nutrient-dense pellet fortified with essential vitamins and minerals. Packed with up to five-times the vitamin and mineral content of most feeds, Balancer is scientifically formulated to supply your horse with essential nutrients.

Packed within a nutrient dense pellet, Balancer has a low feeding rate and is ideal for easy-keepers, ponies and miniature horses. Balancer is the perfect complement to a forage-based diet or added alongside complete feeds when you are not feeding the recommended feeding rate, ensuring your horse gets the nutrients they need for optimal health. Balancer is the ideal feed for spelling horses.

Balancer contains organic minerals such as copper, zinc, manganese and selenium, which have superior absorption and enhanced bioavailability to improve overall health.

Balancer also contains high-quality protein, including added essential amino acids, which are the building blocks of proteins, helping build muscle, including topline muscle. Amino acids, lysine and methionine are added in an ideal balance to promote muscle building, topline development and joint health in your horse.

To aid in digestive health, we've also included our scientifically formulated GastroPak in Balancer. GastroPak contains high-quality, natural ingredients including a gastric buffer made from sustainably sourced plant-based marine minerals and Diamond V XPC postbiotics to support hindgut health. GastroPak helps your horse's gastrointestinal tract defend against issues like gastric ulcers and hindgut acidosis to keep your horse happy, healthy and performing at their best.

Key Benefits

- **Low-feeding rate concentrated pellet designed to complement forage-based diets or to balance other complete feeds when they are fed under the recommended feeding rate.**
- **High-quality protein sources to promote muscle development, including topline muscle.**
- **Fully fortified complete feed with essential vitamins and minerals.**
- **Scientifically formulated GastroPak added for digestive support.**

Feeding Guide (Kg/day)

Bodyweight (kg)	Stage		Feeding Rate (kg/day)
200-350	Weanling 5-12 months		1kg
300-450	Yearling 12 - 24 months		1kg
500	Pregnant mare	Early to mid-gestation	0.75-1kg
500	Pregnant mare	Mid to late gestation	1kg
500	Lactating mare		1kg
500	Breeding stallion		0.5-0.75kg
500	Maintenance - light work		0.5-0.75kg
500	Moderate work		1kg

Our suggested feeding rates are a **guide only**. Please consult us for individual feeding recommendations.

Ingredients selected from:

Lupins, Vegetable Protein Meals, Lucerne, Oat Hulls, Legume Hulls, Canola Oil, GastroPak (Gastric Buffer, Diamond V XPC), Comprehensive Vitamin and Mineral Premix, Lysine, Methionine, Calcium Carbonate, Salt, Magnesium Oxide, Monocalcium Phosphate, Vitamin E, and Biotin.

Typical Nutritional Analysis (per kg fed)

NUTRIENT LEVELS	
Digestible Energy	10MJ
Crude Protein (min)	20%
Crude Fibre (max)	13%
Crude Fat (min)	3.0%
Non-Structural Carbohydrates (max)	14%
Starch (max)	12%
Salt (added)	1%
Lysine	2.0%
Methionine	0.6%

MACROMINERALS	
Calcium	3.8%
Phosphorus	2.0%
Sodium	0.5%
Chloride	0.9%
Magnesium	0.5%
Potassium	0.9%

MICROMINERALS	
Zinc*	450mg
Copper*	162mg
Iron	No Added Iron
Manganese	860mg
Selenium*	2.3mg
Iodine	2.5mg
Chromium	3.0mg

*Includes organic (chelated) minerals

VITAMINS	
Vitamin A	44KIU
Vitamin D	4.4KIU
Vitamin E	1000IU
Vitamin B1	100 mg
Vitamin B2	120mg
Vitamin B3	340mg
Vitamin B5	83mg
Vitamin B9	83mg
Vitamin B12	25ug
Biotin	5mg
