Dairy Starter is an all-in-one pelleted feed optimised to start heifer calves off strong. Dairy Starter is a high protein feed suitable for young growing calves from week one.

Dairy Starter supplies a balanced profile of grains, roughage, protein, vitamins and minerals to supply essential nutrients to growing calves. This complete feed helps to support the early development of young calves, aiding in immune health, growth and rumen development.

Dairy Starter is a highly palatable ration that promotes rumen development in young dairy calves, getting them on track to develop into healthy, productive dairy cows. It also contains natural plant antioxidants to support immune health and aid in combating gut pathogens (such as Salmonella and E. coli) and coccidiosis to improve health and performance.

Contains a rumen buffer to help prevent rumen acidosis (grain poisoning).

AVAILABLE IN:

20kg

500kg

800kg

Bulk

Key Features

- All-in-one, highly palatable pelleted feed to get dairy calves off to a great start.
- Provides balanced nutrients with 20% crude protein and fortified with essential vitamins and minerals to support growth and immune health.
- Optimised to aid in rumen development to improve the calves' nutrient absorption abilities.
- Contains a buffering agent to promote digestive health, help reduce the risk of ruminal acidosis and optimise feed conversion.
- Natural antioxidant support added to combat gut pathogens (such as Salmonella and E. coli) and coccidiosis to improve health and performance.
- Urea, antibiotic and medication free.

Typical Nutritional Analysis (per kg fed)

NUTRIENT LEVELS	
Metabolisable Energy (ME)	12MJ
Crude Protein (min)	20%
Crude Fat (max)	4%
Crude Fibre (max)	11%
Starch (typical)	40%
NDF (typical)	20%
Urea	NIL
Salt (max)	1%
Calcium (min)	0.80%
Phosphorus (min)	0.36%
Magnesium (min)	0.20%

Feeding Directions

- Harwood Grains' Calf Starter is designed for calves from birth to 3 months of age.
- Calves younger than 3 months of age should be fed a calf specific milk replacement and wean off of it once consuming 1kg per head, per day of Dairy Starter.
- Offer free-choice access to fresh and clean water at all times.
- Feeders should be set at throat height to reduce wastage and regularly cleaned to reduce spoilage.
- Place feed and water sources away from each other to keep water clean.

For individual feeding directions, please reach out to us.

Ingredients selected from:

Wheat, Barley, Oats, Oat Hulls, Almond Hulls, Canola Meal, Canola Oil, Lupins, Pollard, Molasses, Lime, Magnesium Oxide, Salt, Natural Antioxidant, Rumen Buffer, and Vitamin and Mineral Premix.
