Green and Gold Layer pellets supplies the ultimate nutrition for all breeds of laying hens. Whether you are feeding your home flock or a commercial flock, Green and Gold Layer Pellets provide all the essential nutrients for optimal hen health and egg production.

With balanced levels of calcium and phosphorus, Green and Gold Layer Pellets helps ensure hens are producing eggs with strong shells and richly coloured yolks.

Using vegetable-based ingredients, Green and Gold Layer Pellets are antibiotic and medication-free.

Key Features

- **Optimised nutrition using premium, natural ingredients for healthy hens and high-quality eggs.**
Perfect balance of protein, vitamins, and minerals for all breeds of chickens.
- **Balanced, high-quality calcium and phosphorus.**
Vital for developing quality eggs with strong shells.
- **100% vegetable-based pellet with no added medications or antibiotics.**
High-quality vegetable proteins and fat sources provide the necessary nutrients to meet requirements.

Typical Nutritional Analysis

NUTRIENT LEVELS	
Crude Protein (min)	16%
Crude Fibre (max)	8%
Crude Fat (min)	2.5%
Calcium (min)	3.8%
Available Phosphorus (min)	0.4%
Salt (max added)	0.2%

Feeding Instructions

- Allow free access to Green and Gold Layer pellets – do not restrict consumption.
- Hens can consume 100-140g per bird, per day.
- Ensure hens have access to cool and clean water at all times.
- Green and Gold should make up the majority (at least 90%) of the hen's diet.
Regulate the intake of greens, scraps and pasture to less than 10% of their total diet.

This feed has been formulated specifically for laying hens and should not be used for other species of animals. For individual feeding directions, please reach out to us.
