Bulk

High-energy finishing pellet (10 Months+) formulated to maximise growth rates and finishing weights prior to sale or processing.

Energy density supports efficient fat cover and carcass finish while maintaining rumen stability. Moderate protein level sustains growth without over supplying protein levels for older lambs.

Includes a rumen buffer, to help reduce acidosis risk, and a urinary acidifier to assist in managing urinary calculi.

Age Guide

Key Benefits

- Elevated energy for finishing performance.
- Optimised starch inclusion for safe energy supply.
- Balanced vitamins and minerals for growth and immune health.
- Suitable for feedlot or supplementary feeding systems.
- Palatable pelleted ration prevents selective feeding.
- Antibiotics and medication-free.

Feeding Directions

- Harwood Grains' Lamb Finisher is designed for lambs 10 months of age and older.
- Lamb Finisher is suitable for feeding in conjunction with unlimited forage or a minimum inclusion of 100g of fibre per head per day.
- Offer free-choice access to fresh and clean water at all times.
- Introduce Lamb Finisher at 0.25kg per 50kg liveweight on day one. Increase by 0.1kg every three days to a maximum of 1kg per 50kg liveweight for sheep.
- Keep feeders clean to reduce risk of spoilage.
- Feeders should be set at throat height to reduce wastage.
- Place feed and water sources away from each other to keep water clean.

Ingredients selected from:

Cereals (and co-products), Legumes (and co-products), Vegetable Protein Meals, Calcium Carbonate, Salt, Molasses, Urea, Magnesium Oxide, Monocalcium Phosphate, Rumen Buffer, Ammonium Chloride (urinary acidifier), and Harwood Grains Sheep Vitamin and Mineral Premix.

Typical Nutritional Analysis (per kg fed)

NUTRIENT LEVELS	
Metabolisable Energy (ME)	12MJ
Crude Protein (min)	14%
Crude Fat (max)	2%
Crude Fibre (max)	10%
Starch (typical)	40%
NDF (typical)	20%
Urea (added)	0.50%
Salt (max)	1%
Calcium (min)	1%
Phosphorus (min)	0.30%
Magnesium (min)	0.30%
