Performer is a pelleted feed specifically formulated to meet the increased nutritional requirements of your performance horse. It is prepared with highly digestible fibres, quality high fat ingredients and a moderate starch level to meet higher energy demands. Performer also includes our scientifically formulated GastroPak to help protect against gastric ulcers and promote digestive health.

Performer contains controlled sugar and starch (NSC) levels (20% maximum) to support the advanced energy needs of performance horses. Performer harnesses the power of 'super fibres', which are highly fermentable fibres that are broken down by the microbes in your horse's gut to produce energy in the form of molecules called Volatile Fatty Acids (VFAs). VFAs can contribute up to 70% of your horse's energy requirements and are slow release, providing a sustained source of energy to keep your horse performing at their best.

It is no secret that performance horses have a very high risk for digestive issues such as gastric ulcers and hindgut acidosis with an estimated 95% of performance horses having gastric ulcers. This is why we have included our scientifically formulated GastroPak in Performer. GastroPak contains high-quality, natural ingredients including a gastric buffer made from sustainably sourced plant-based marine minerals and Diamond V XPC postbiotics to support hindgut health. GastroPak helps your horse's gastrointestinal tract defend against issues like gastric ulcers and hindgut acidosis to keep your horse happy, healthy and performing at their best.

Performer also contains high-quality protein sources and added amino acids. Amino acids are the building blocks of proteins and are essential in your horse's diet. Performer supplies biologically appropriate levels of protein and amino acids to support muscle development, including topline development.

AVAILABLE IN:

20kg

500kg

Key Benefits

- High digestible energy for work.
- Quality protein for muscle development, including topline development.
- Fully fortified complete feed with essential vitamins and minerals to support recovery after exercise.
- Scientifically formulated GastroPak added for digestive support to help reduce risk of gastric ulcers and hindgut acidosis.

Feeding Guide (Kg/day)

Bodyweight (kg)	Light Work	Moderate to Heavy Work
300	1-3kg	3-4kg
400	2-4kg	4-6kg
500	2.5-5kg	5-7kg
600	3-6kg	6-8kg

Our suggested feeding rates are a **guide only**. Please consult us for individual feeding recommendations.

- Your horse should be receiving a minimum of 1% of their body weight with quality forage such as hay, pasture and/or chaff.
- Make changes in your horse's diet gradually over at least a two-week period.
- Be sure to always have fresh and clean water available to your horse.
- Our suggested feeding rates are a guide only. The quantity to feed your horse will depend on their activity level, body condition and the quality of roughage available to them.

Ingredients selected from:

Lupins, Vegetable Protein Meals, Lucerne, Dehulled Oats, Oat Hulls, Legume Hulls, Canola Oil, GastroPak (Gastric Buffer, Diamond V XPC), Comprehensive Vitamin and Mineral Premix, Lysine, Methionine, Calcium Carbonate, Salt, Magnesium Oxide, Monocalcium Phosphate, Vitamin E, and Biotin.

Typical Nutritional Analysis (per kg fed)

NUTRIENT LEVELS	
Digestible Energy	13MJ
Crude Protein (min)	14.5%
Crude Fibre (max)	12%
Crude Fat (min)	4.5%
Non-Structural Carbohydrates (max)	20%
Starch (max)	18%
Sugar (max)	2%
Salt (added)	1%
Lysine	0.8%
Methionine	0.3%
Threonine	0.5%

MACROMINERALS	
Calcium	1.2%
Phosphorus	0.6%
Sodium	0.4%
Chloride	0.5%
Magnesium	0.3%
Potassium	0.7%

MICROMINERALS	
Zinc*	130mg
Copper*	28mg
Iron	95mg
Manganese	130mg
Selenium*	0.35mg
Iodine	0.5mg
Chromium	0.45mg

*Includes organic (chelated) minerals

VITAMINS	
Vitamin A	6.8KIU
Vitamin D	0.66MIU
Vitamin E	250IU
Vitamin B1	15mg
Vitamin B2	18mg
Vitamin B3	50mg
Vitamin B5	12mg
Vitamin B9	3mg
Vitamin B12	4ug
Biotin	300ug
