Stud Ram is formulated to support reproductive performance, semen quality and body condition in rams during the pre-joining and breeding period.

It is also ideal to support rams before shows and sales, helping to maintain optimal condition.

Rams can lose significant body condition during joining, particularly in multi-sire or extended breeding systems. Nutritional management prior to and during joining directly influences reproductive success.

Stud Ram provides a balanced energy-to-protein ratio to support optimal body condition score while trace mineral inclusion — including zinc, selenium and other key reproductive nutrients — supports sperm viability and reproductive efficiency. It also includes rumen-protected fats which provide a concentrated energy source that improves ram performance without affecting rumen metabolism.

Rumen buffers are included to help prevent acidosis.

AVAILABLE IN:

500kg

800kg

Bulk

Key Benefits

- Highly palatable to support rams for sale, show, and joining for optimal body condition, wool growth, and fertility.
- Promotes sperm quality and viability.
- Balanced vitamin and mineral inclusion.
- Buffered to reduce acidosis risk.
- Suitable for commercial and stud operations.
- Urea, medication, and antibiotic free.

Typical Nutritional Analysis (per kg fed)

NUTRIENT LEVELS	
Metabolisable Energy (ME)	12MJ
Crude Protein (min)	15%
Crude Fat (max)	4%
Crude Fibre (max)	15%
Starch (typical)	38%
NDF (typical)	25%
Urea (added)	NIL
Salt (max)	1%
Calcium (min)	1%
Phosphorus (min)	0.40%
Magnesium (min)	0.30%

Feeding Directions

- Introduce Stud Ram at 250g per 50kg liveweight on day one. Increase by 100g every three days to a maximum of 1kg per 50kg liveweight per day for sheep.
- Stud Ram is suitable for feeding in conjunction with unlimited hay, pasture and other forage.
- Offer free choice access to fresh and clean water at all times.
- Keep feeders clean to reduce risk of spoilage.
- Feeders should be set at throat height to reduce wastage.
- Place feed and water sources away from each other to keep water clean.

Ingredients selected from:

Cereals (and co-products), Legumes (and co-products), Vegetable Protein Meals, Calcium Carbonate, Rumen-Protected Fat, Salt, Molasses, Magnesium Oxide, Monocalcium Phosphate, Rumen Buffer, Ammonium Chloride (urinary acidifier), and Harwood Grains Sheep Vitamin and Mineral Premix.
