Giganplast & l'ambiente

Giganplast S.r.l., riconosce nella gestione ambientale una delle priorità aziendali, pertanto ha realizzato un Sistema di Gestione Ambientale basato sulla norma UNI EN 14001.

Giganplast S.r.l. si propone di:

- salvaguardare l'equilibrio ambientale del territorio in cui si trova l'azienda mediante la prevenzione dell'inquinamento nello svolgimento delle proprie attività;
- rendere pubblico, diffondere a tutte le parti interessate e mantenere attiva la Politica Ambientale e l'impegno dell'Azienda nei confronti dell'ambiente;
- individuare azioni di miglioramento volte a ridurre gli impatti ambientali significativi;
- valutare e monitorare tutti gli impatti prodotti sull'ambiente generati dall'azienda nello svolgimento delle proprie attività principali o di supporto.

Per raggiungere tali obiettivi, l'azienda si è impegnata e si impegna a:

- grazie all'utilizzo esclusivo di materiali di prima scelta, riciclare e riutilizzare tutte le materie plastiche rigenerandole e riutilizzandole nella lavorazione delle stesse con una serie di prodotti dedicati;
- prevenire spargimenti accidentali di sostanze liquide nocive e riciclo degli imballaggi cartacei utilizzando realtà operative del settore;

Nel 2004 sono stati sostituiti gli impianti di riscaldamento alimentati a gasolio con impianti ad alimentazione a gas metano.

Il 30 Aprile 2011 sono state smaltite 6000 m² di coperture in eternit sostituendole, parzialmente, con 3000 m² di coperture integrate da pannelli FV per generazione di energia elettrica pari a Kwp 420 con un risparmio di oltre 200.000 kg di CO² immessa in atmosfera. Tutto il personale è invitato a programmare e a svolgere le proprie mansioni tenendo conto degli obiettivi della politica ambientale e nel rispetto delle procedure previste, adottando prassi operative a basso impatto ambientale e riferendo ai responsabili eventuali suggerimenti/richieste relative alla politica ambientale.

Infinitylife: Riduci, Riutilizza, Ricicla

Giganplast, in linea con la certificazione ambientale, non spreca nulla, grazie ad impianti interni trasforma gli scarti di produzione in nuovi prodotti... dal rifiuto ai contenitori per rifiuti!

Certificato dall'Istituto italiano Plastici, il nostro contenitore It 120 si avvale del marchio PSV plastica seconda vita, prodotto utilizzando fino al 50% di materia prima da noi rilavorata (scarti di produzione per cambio colore o materiale, vengono passati al granulatore, si tratta comunque di materiale vergine di prima scelta, macinato con nostri impianti e rilavorato)

200.000 kg
di CO₂ risparmiata
nell'atmosfera

3000 m²
di coperture integrate
da pannelli FV

non buttiamo via niente,
riutilizziamo e ricicliamo

Giganplast & the environment

The environmental management is one of the main priorities for **Giganplast S.r.l.**, therefore we have established an environmental management program based on the UNI EN 14001 regulation.

Giganplast S.r.l. is committed to:

- protect the environmental balance where the company is located, by preventing pollution during the manufacturing of our products;
- maintain, commit and enforce the companies environmental policy always;
- find ways to reduce any potential threats that will significantly impact the balance of the environment;
- control all environmental impacts that are generated by the company during the main and supporting activities.

To achieve these targets, the company has implemented and will furthermore undertake to:

- recycle all plastic materials, thanks to the exclusive use of first choice materials, regenerate them during the processing of a series of special products;
- prevent any harmful liquids entering to the environments eco system as well as recycling paper packaging collaborating with companies operating in the field.

In 2004 the oil fuel heating system was replaced by a natural gas heating system.

In April 2011, 6000 m² of asbestos roofing was removed and replaced by 3000 m² of integrated PV panels, which now generates up to 420 kWp of clean electricity, reducing more than 200.000 kg of CO₂ released into the atmosphere.

Our staff are fully committed, focused and aware to implement their duties on a daily basis to achieve the companies environmental policy plan. By adopting these procedures we will lower any unnecessary impacts to the environment and further illustrates their professionalism to the companies environmental management policy.

Infinitylife: Reduce, Reuse, Recycle

Giganplast, in line with the environmental certification, does not waste anything, thanks to internal systems we transform production waste into new products ... from waste to waste containers!

Certified by the Istituto Italiano Plastici, our 120 lt container has the PSV plastic second life mark, it is produced using up to 50% of raw material reworked by us (production scraps for colour or material change, passed to the granulator, it is however first choice virgin material, ground with our machinery and regenerated)

200.000 kg
less of CO₂ released
into the atmosphere

3000 m²
of integrated PV
panels

we don't throw anything
away, we reuse and recycle

Informazioni generali - General information

- Tutti i nostri prodotti non contengono “bisfenolo A”.
 - Tutti i nostri prodotti destinati a contenere o venire in contatto con alimenti, sono stati sottoposti a test di migrazione da laboratori accreditati.
 - Tutti i nostri prodotti sono fabbricati in Italia.
 - Personalizzazioni a richiesta sono possibili con marchio impresso a caldo su determinati prodotti.
 - Colori a richiesta possono essere prodotti con un quantitativo minimo di 600 pezzi.
- *All our products are BPA free.*
 - *All our foodstuff products are tested for suitability to food contact by accredited laboratories.*
 - *All our products are made in Italy.*
 - *Possibility to personalize certain products with hotfoil printing technique.*
 - *Special colours can be produced for a minimum quantity of 600 pieces.*

Legenda simboli - Symbol index

	Dimensioni [b x p x h]	<i>Dimensions [b x p x h]</i>
	Personalizzabile	<i>Customizable</i>
	Adatto per alimenti	<i>Foodstuff products safe</i>
	Adatto per congelatore	<i>Freezer safe</i>
	Impilabile	<i>Nesting</i>
	Sovrapponibile	<i>Stackable</i>
