A PERSONAL

INTRODUCTION

Welcome to Origin - a long-standing family business dedicated to the curation of exceptional Doors and Windows.

Our lineage lies in engineering, and for over 20-years, we've embodied the artistry and innovation of British manufacturing. Our focus has been on refining our craft, and creating a deep understanding of what truly matters to families and their homes.

We design and manufacture for those who expect more: homeowners with a discerning taste, a passion for detail, and a desire for products that offer lifestyle, security and performance value.

At Origin, we pride ourselves in everything having a meaningful design and purpose and upholding rigorous standards. Every product is precision-engineered in-house, with continuous improvement built into our ethos.

We hope you enjoy discovering our External Doors - and that your installation brings lasting elation for years to come.

CREATING HARMONY

BETWEEN YOUR LIVING SPACES

Seamlessly blend your indoor and outdoor spaces like never before with Origin.

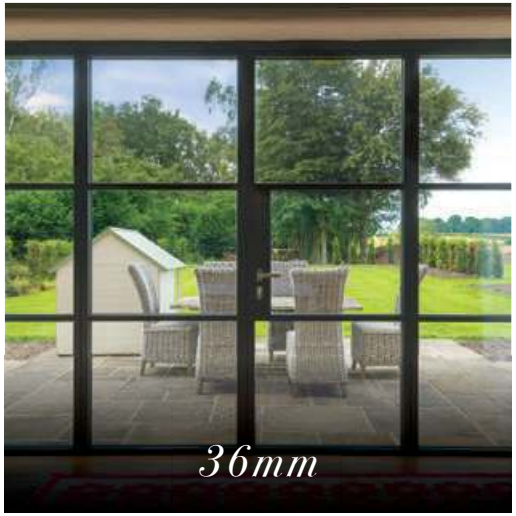

Precision engineered to concertina and neatly stack to one side, our Doors will transform the way you engage, experience and connect to the natural world.

The magic behind this lifestyle elevation is through Origin's cutting-edge aesthetics, outstanding performance and uncompromising quality.

THREE WAYS TO

FRAME YOUR WORLD

Maximises natural light with its ultra-slim sightlines.

Provides a timeless design for complete versatility.

Brings a reassuring presence to a home.

36MM

ENHANCED AESTHETICS, ADVANCED PERFORMANCE

This evolution in design introduces a new level of refinement. It combines ultra-slim profiles with elite levels of engineering to bring your home security, efficiency and beauty.

Slender sightlines deliver a chic, minimalistic finish, whilst advanced thermal technologies make it our most efficient External Door to date - delivering a big impact with a small footprint.

For an even sleeker appearance, Single and French Doors can be specified without the outer frame, minimising the visible profile and maximising your views.

Additional Features:

- Industry-leading U-Values as low as 0.78 W/m^2K
- Vast maximum sizes, suitable for apertures up to 15m
- Available with exclusive hardware designs

System displayed: OB36+
Configuration: French Door with Fixed Flags

System displayed: OB49
Configuration: Bi-fold 6+0
Colour shown: Blue Grey - 7031M

49MM

SLIM, STRONG AND BEAUTIFULLY BALANCED

Bringing you the best of both worlds, this 49mm Door delivers a harmonious aesthetic to your home. Complementary to either modern or traditional properties, it's completely customisable to your style, taste and requirements.

Re-engineered from our award-winning original 72mm Door, it builds upon everything that made the first-generation system so successful. With an enhanced design and slimmer proportions, it establishes a cleaner visual language, increasing openness and drawing more natural light into the home.

Additional Features:

- Smooth, quiet operation with precision-engineered running gear
- Works beautifully in both contemporary and heritage properties
- Backed by Origin's industry-leading guarantee of up to 20-years

72MM

TIMELESS DESIGN, MODERN PERFORMANCE

The first Origin External Door and the design that started it all,
the OB72 redefined what aluminium bi-fold doors could be.

Born when our founders saw the need for better engineering, it established
the principles of precision, quality and reliability that underpin every Origin system.

Crafted from premium-grade aluminium, it delivers a more traditional look
with wider sightlines, and this in turn creates a bold design statement.

Additional Features:

- Combines classic elegance with advanced manufacturing techniques
- Its wider sightlines offer a comforting and heritage feel
- Built to last, with performance you can rely on for years to come

System displayed: OB72
Configuration: Bi-fold 3+0
Colour shown: Jet Black - 9005M

System displayed: OB36+
Configuration: Bi-fold
Colour shown: Chrome Green - 6020M

Every Origin Door and Window is made to measure and completely bespoke to your home.

For some, this may feel overwhelming. So, to help start your design journey, we have curated three distinct styles, each with its own character and architectural influence. These aesthetics help convey the breadth and versatility of what is available.

The styles are not mutually exclusive, as elements from all three can be blended together to create a look that's entirely your own.

SOHO *Style*

Inspired by one of the world's most iconic urban neighbourhoods, Soho brings a bold, industrial attitude to a home. Strong lines and confident detailing give it a modern, design-forward edge that's full of personality.

System displayed: OB36+
Configuration: Corner Bi-fold 6+2
Colour shown: Jet Black - 9005T

System displayed: OB36+
Configuration: Bi-fold 3+0
Colour shown: Dark Silver Metallic - 9007M

GALLERY *Style*

Defined by expansive glazing, minimal sightlines and an abundance of natural light, Gallery is all about openness and simplicity. It's perfect for framing views and creating bright, elevated spaces.

GEORGIAN *Style*

Influenced by tradition, Georgian brings a timeless charm to a property whilst delivering a modern performance. Its artisanal detailing makes it ideal for those seeking warmth and a heritage-inspired character.

System displayed: OB36+
Configuration: French Door
Colour shown: Black Red - 3007M

OPTIMISED

FOR YEAR-ROUND THERMAL EFFICIENCY

Engineered and poised to perform, our External Doors are designed with advanced thermal technologies for exceptional efficiency.

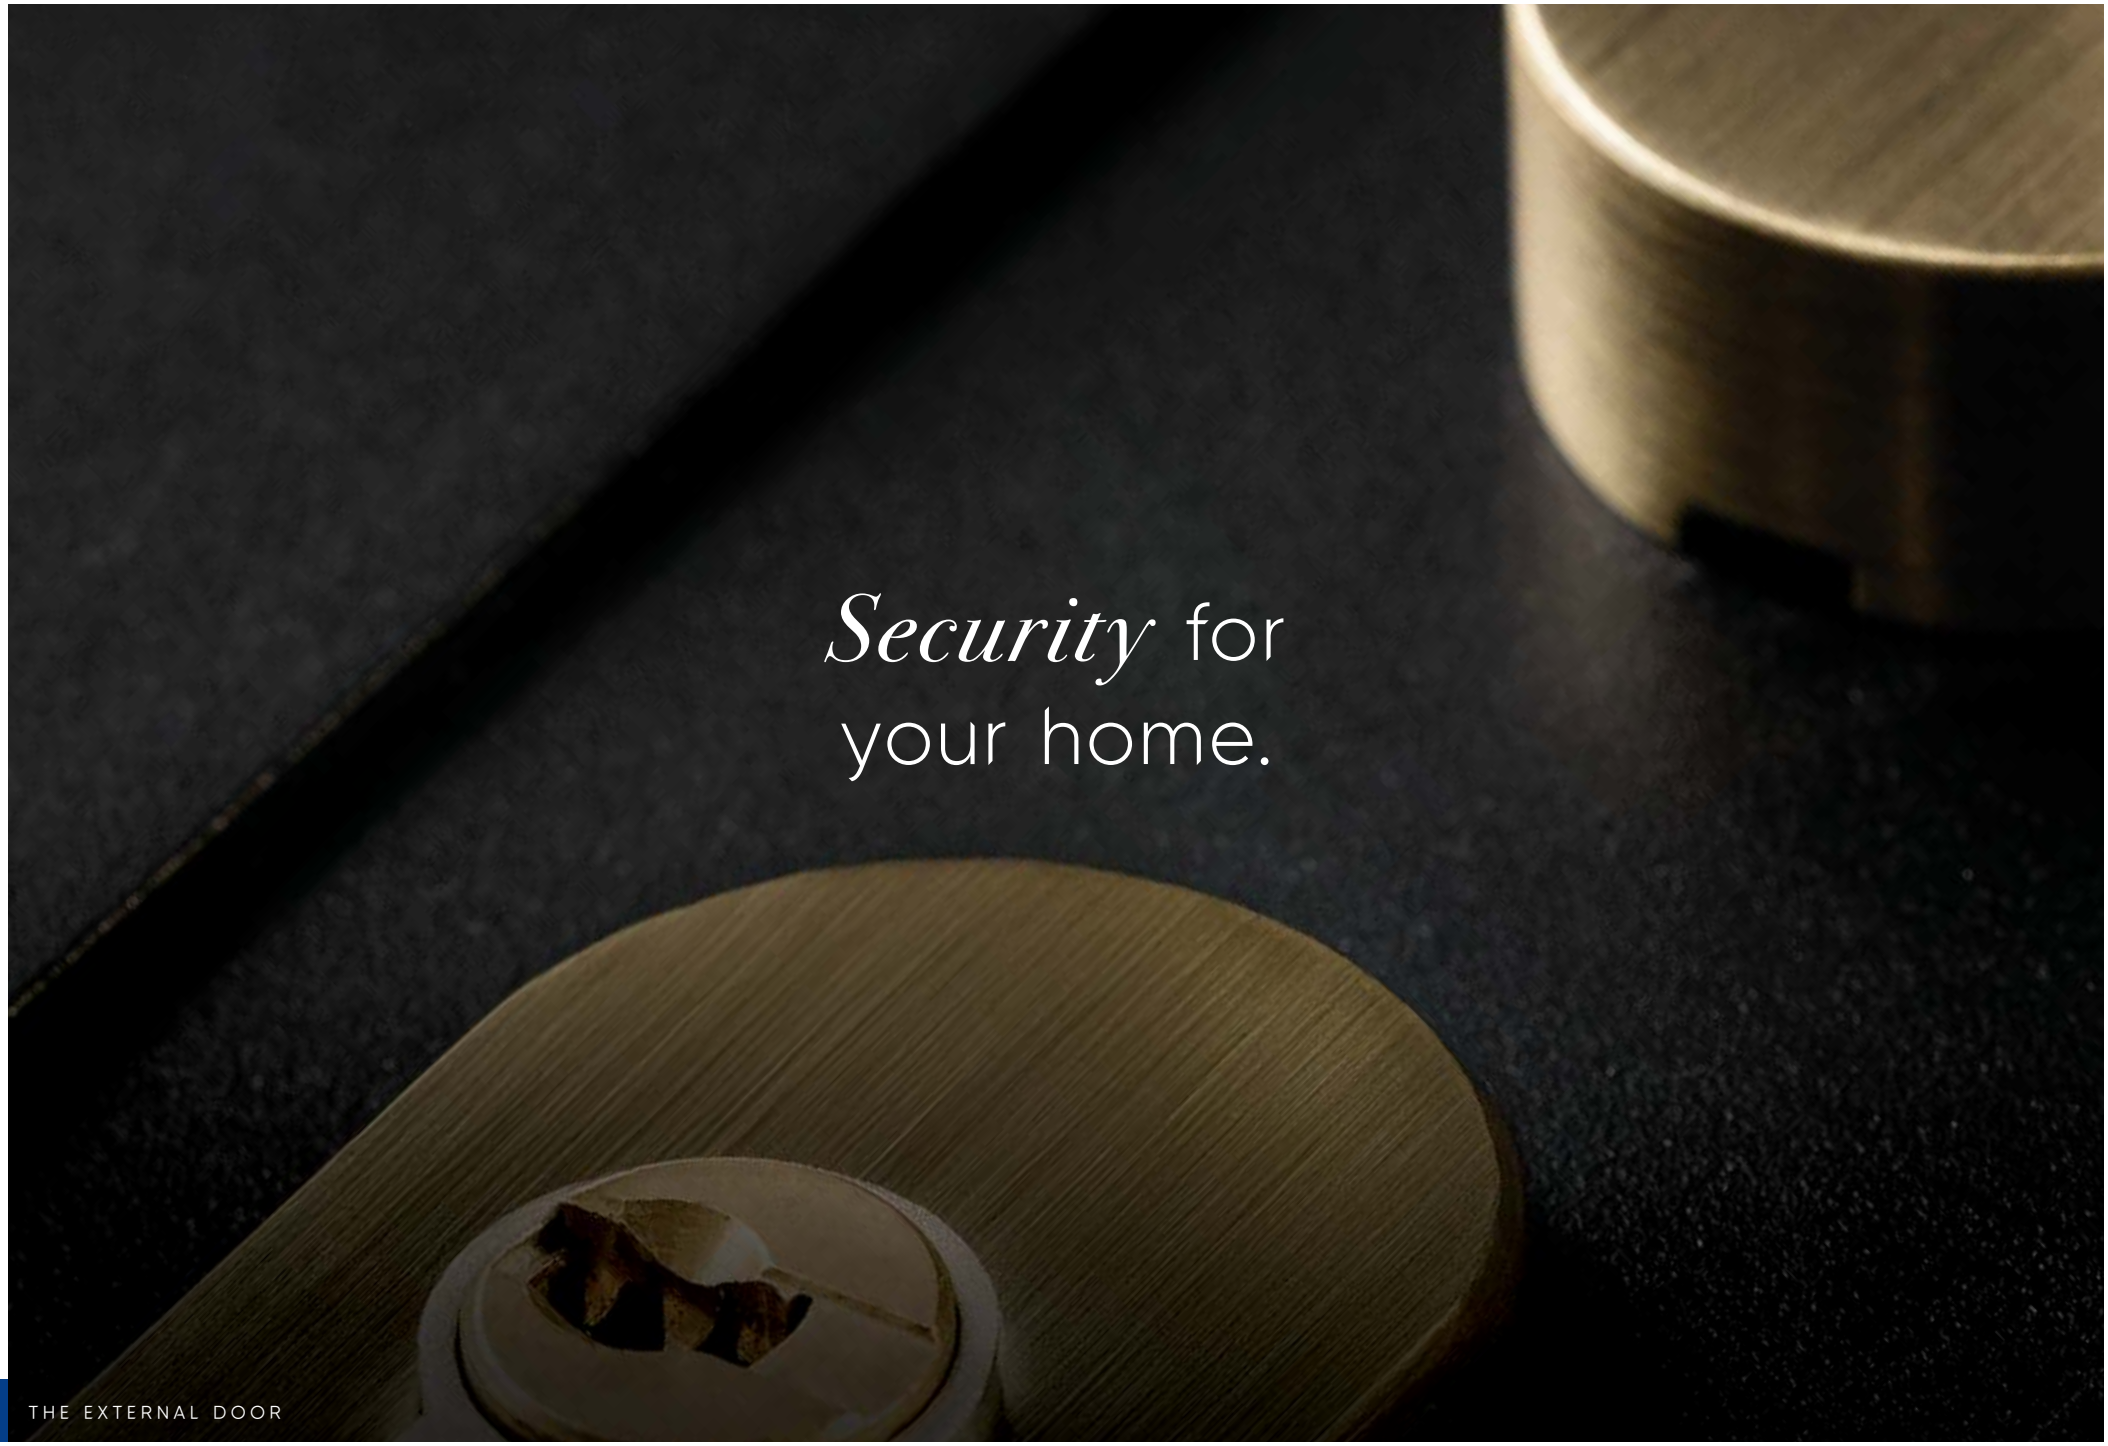

With U-Values from just 0.78 W/m^{2}K, our systems exceed both current and future Building Regulation requirements, helping reduce heat loss, lower energy consumption and maintain a stable indoor temperature across every season.

Reducing emissions, optimising energy consumption and minimising our impact on the environment are core values for us, which is why thermal efficiency plays such a pivotal part in our product design.

Security for
your home.

Security isn't an afterthought at Origin - it's purposely designed and manufactured into every Door and Window.

Our in-house R and D team designs each External Door around robust structural principles. All systems incorporate an advanced multi-point locking mechanism that meets stringent PAS 24 requirements for enhanced security and resistance to forced entry.

Additionally, our 49mm and 72mm sightline variants are accredited by Secured by Design - the official police-backed initiative focused on crime prevention through intelligent product design.

From a safety perspective, our Doors feature finger-safe gaskets to help prevent fingers from accidentally getting trapped during use, optional door restrictors and multiple threshold options to minimise the step between inside and outside spaces.

COLOUR CHOICE

REDEFINED

Every project has its own personality - and with over 150 RAL colours to choose from, Origin gives you the palette to express it.

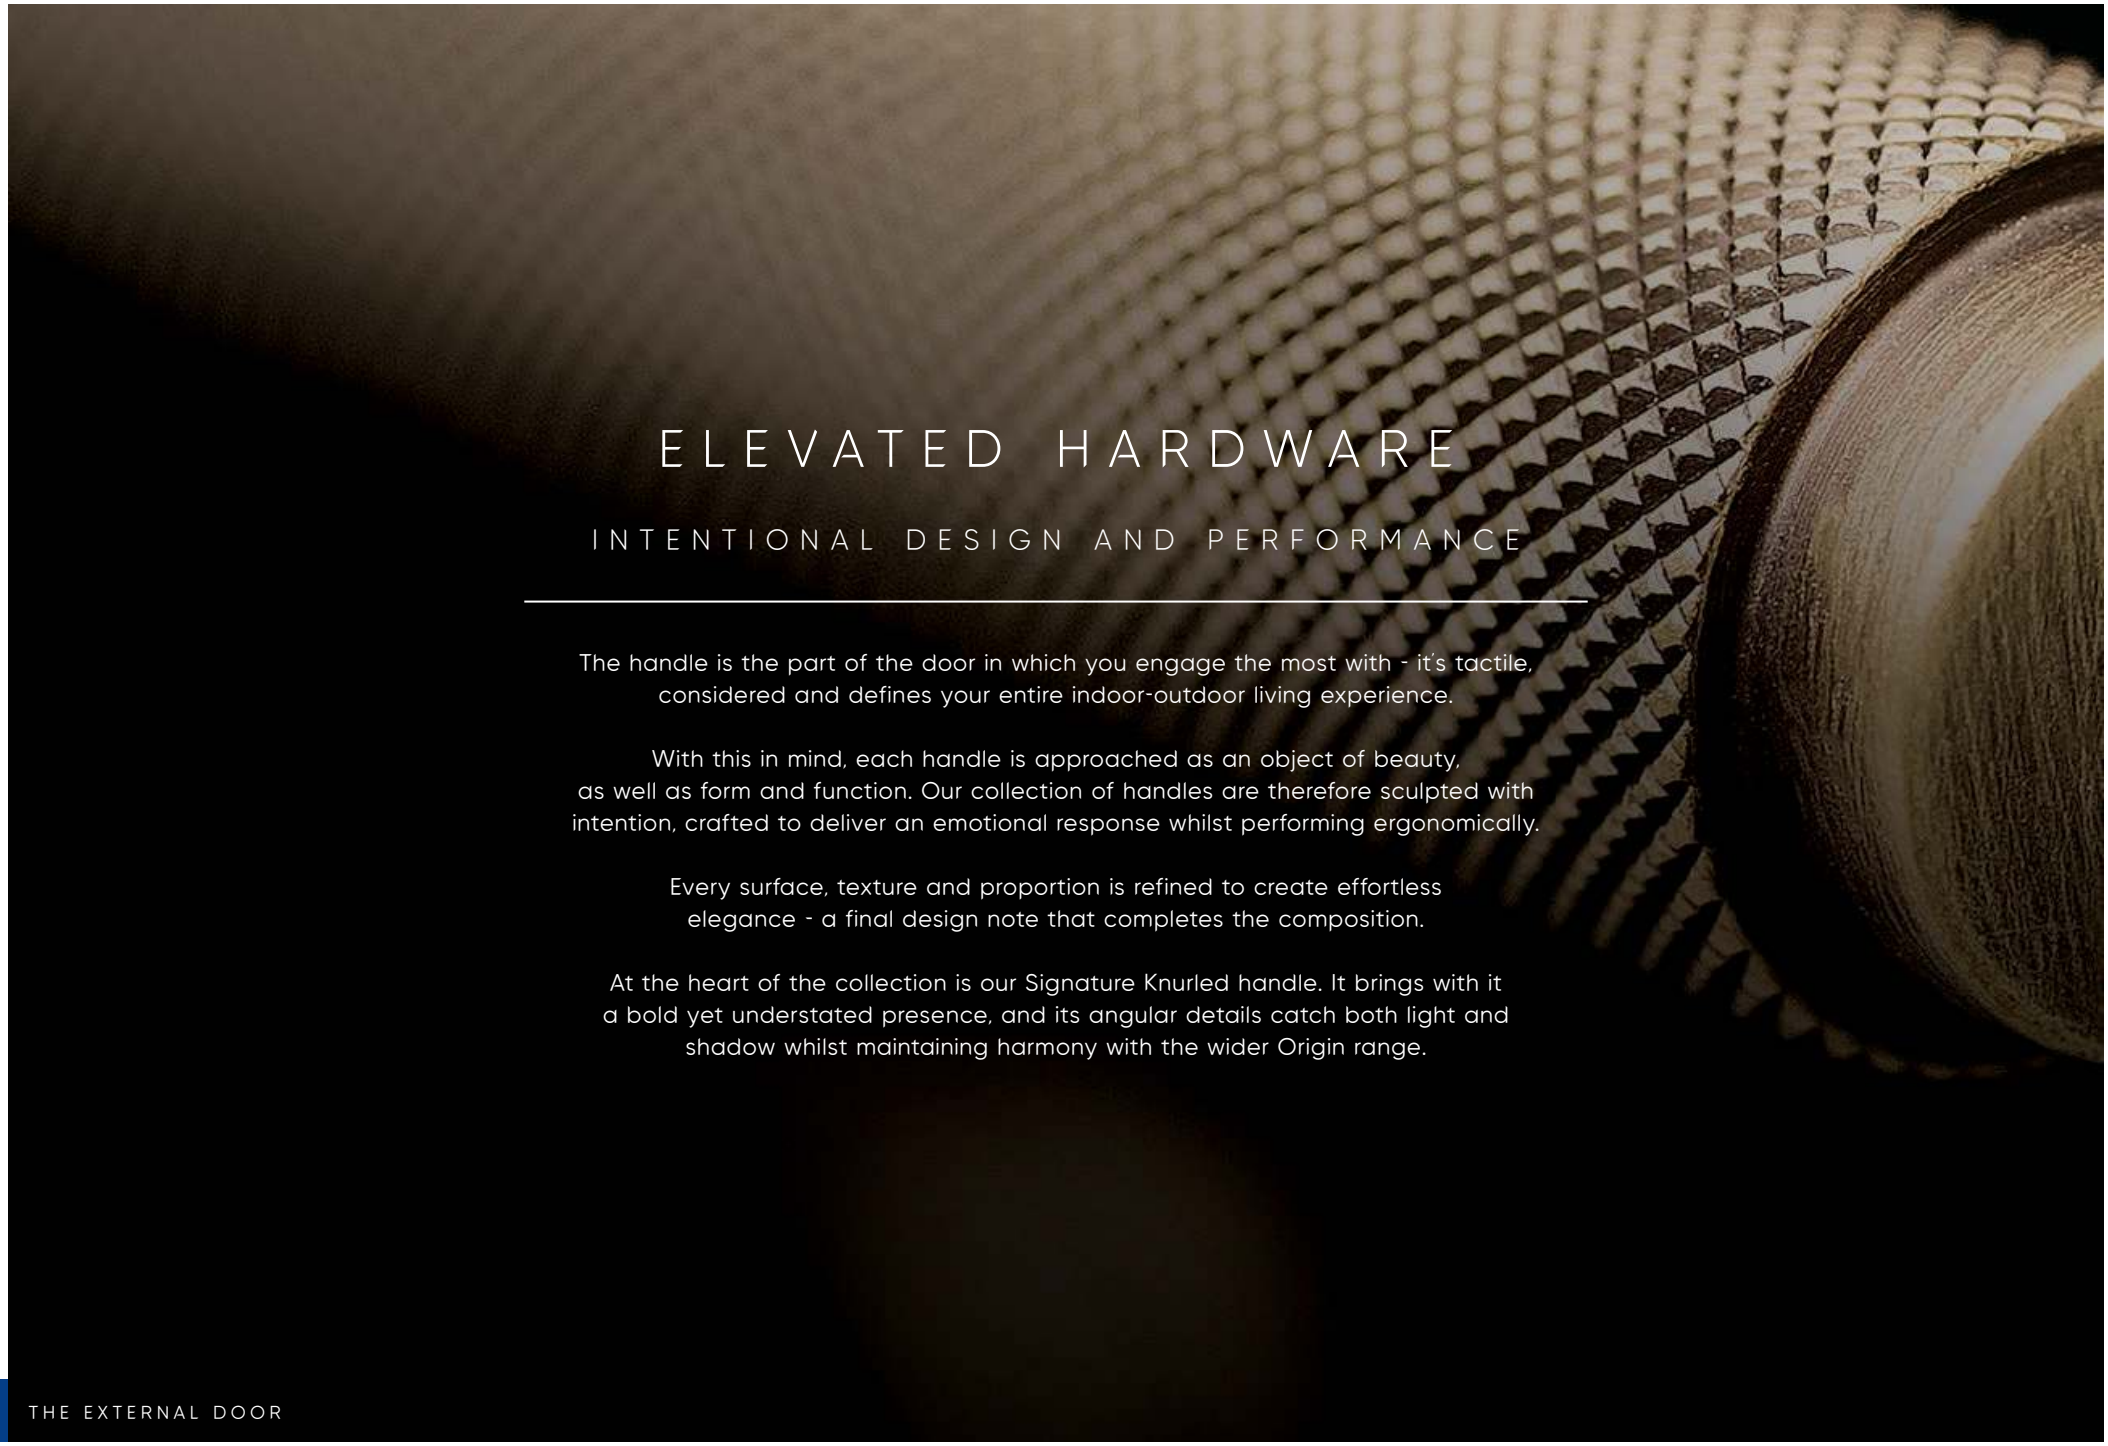

From subtle neutrals to bold metallic tones, each shade has been curated to help you build a look that's uniquely yours.

.

Here at Origin, we don't just meet industry standards - we redefine them. A demonstration of this is the design, investment and implementation of our purpose-built powder-coating facility in Bicester.

Through meticulous preparation, we ensure the aluminium is perfectly primed to be coated in your chosen colour. Where typical pre-treatment lines use between 5 and 7 cleaning stages, ours uses 10, and this provides a flawlessly consistent, long-lasting finish that stands the test of time.

We don't just meet industry
standards - we *redefine* them.

ELEVATED HARDWARE

INTENTIONAL DESIGN AND PERFORMANCE

The handle is the part of the door in which you engage the most with - it's tactile, considered and defines your entire indoor-outdoor living experience.

With this in mind, each handle is approached as an object of beauty, as well as form and function. Our collection of handles are therefore sculpted with intention, crafted to deliver an emotional response whilst performing ergonomically.

Every surface, texture and proportion is refined to create effortless elegance - a final design note that completes the composition.

At the heart of the collection is our Signature Knurled handle. It brings with it a bold yet understated presence, and its angular details catch both light and shadow whilst maintaining harmony with the wider Origin range.

A HOLISTIC APPROACH TO

QUALITY

At Origin, we take complete control of all of our processes and operations to ensure that every product we deliver is exceptional.

We exclusively design, powder-coat and manufacture our products in our Buckinghamshire and Oxfordshire-based facilities, and this allows us to set new standards for quality control.

Our approach is externally validated through the awarding of multiple ISO accreditations, showcasing excellence across quality management, environmental responsibility and health and safety.

Because we control every facet of the product lifecycle, it gives us complete confidence in our materials, components and construction. This is why we are able to offer an industry-leading guarantee of up to 20-years[1] on parts, reflecting our commitment to long-term reliability.

We specially design certain components to ensure their performance is optimised rather than procuring them off-the-shelf, and this means that when you're choosing Origin, you're not just picking a product - you're entrusting a brand built on decades of expertise with a holistic approach to quality.

MATERIALS THAT DELIVER

RESULTS THAT EXCEL

Doors that are beautiful and that offer elite levels of performance would not be possible without the strongest of foundations.

Using a perfect balance of precision engineering, expert craftsmanship and the highest-grade materials, we are able to manufacture doors that not only look good, but that will also offer tangible lifestyle benefits for decades to come.

Thanks to aluminium's inherent strength-to-weight ratio, our Doors and Windows can comfortably accommodate large and complex configurations whilst featuring slim sightlines.

As for the benefits you can see, our aluminium - of which is powder-coated in-house - offers a visually flawless surface and will maintain its pristine finish year after year.

SMOOTH

BY DESIGN

The flawless operation of our External Door is a thing of wonder.
Every movement feels effortless, and this is thanks to an intelligently designed
short wheelbase carriage assembly that guides the doors along the track.
This unique trolley ensures a quiet, fluid motion every time.

With a gentle push, your living space transforms - revealing a whole
new way to connect spaces.

Designed for longevity and ease, the slimline carriage ensures a reliable
performance year after year, with minimal maintenance required. Simply keep
the frames clean, the tracks clear and locks lubricated, and your doors
will continue to glide beautifully for decades to come.[1]

[1] More routine maintenance will be required in certain areas. Visit origin-global.com for full Terms and Conditions.

DOOR TYPES

The External Door is available in a number of configurations.

The most versatile door type of them all and available with up to 14 sashes.

Turn a dark corner into a light-filled sanctuary with this highly-customisable statement.

A modern take on a traditional patio door, they're perfect for a wide array of applications.

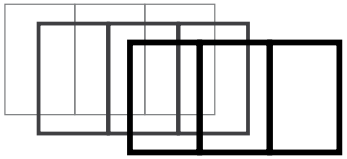

Simplistic yet elegant, it's perfect for a side entrance or utility door.

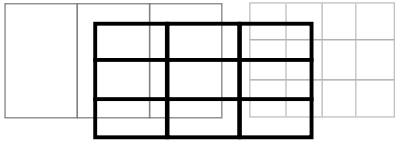

System displayed: OB36+
Configuration: Bi-fold
Colour shown: Jet Black - 9005T

TAILORED ENGINEERING AND NEXT STEPS

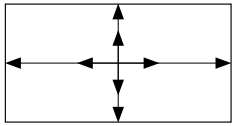

All Origin External Doors are made completely bespoke to your requirements.
Here, we cover the key elements of personalisation.

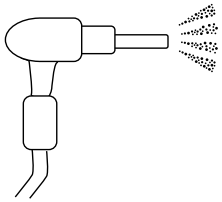

1. Choose your sightline -
36mm, 49mm or 72mm.

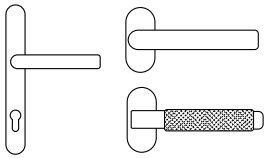

2. Choose your design inspiration -
Soho, Gallery or Georgian.

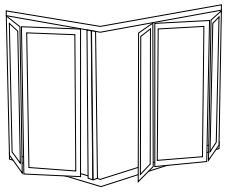

3. Choose your overall size -
up to 15m.

4. Choose your colour -
over 150 RAL shades are available,
as well as textured and
dual-coloured options.

5. Choose your preferred
handles and hardware.

6. Choose your configuration -
up to 14 sashes.

System displayed: OB36+
Configuration: Bi-fold 5+1
Colour shown: Khaki Grey - 7008M

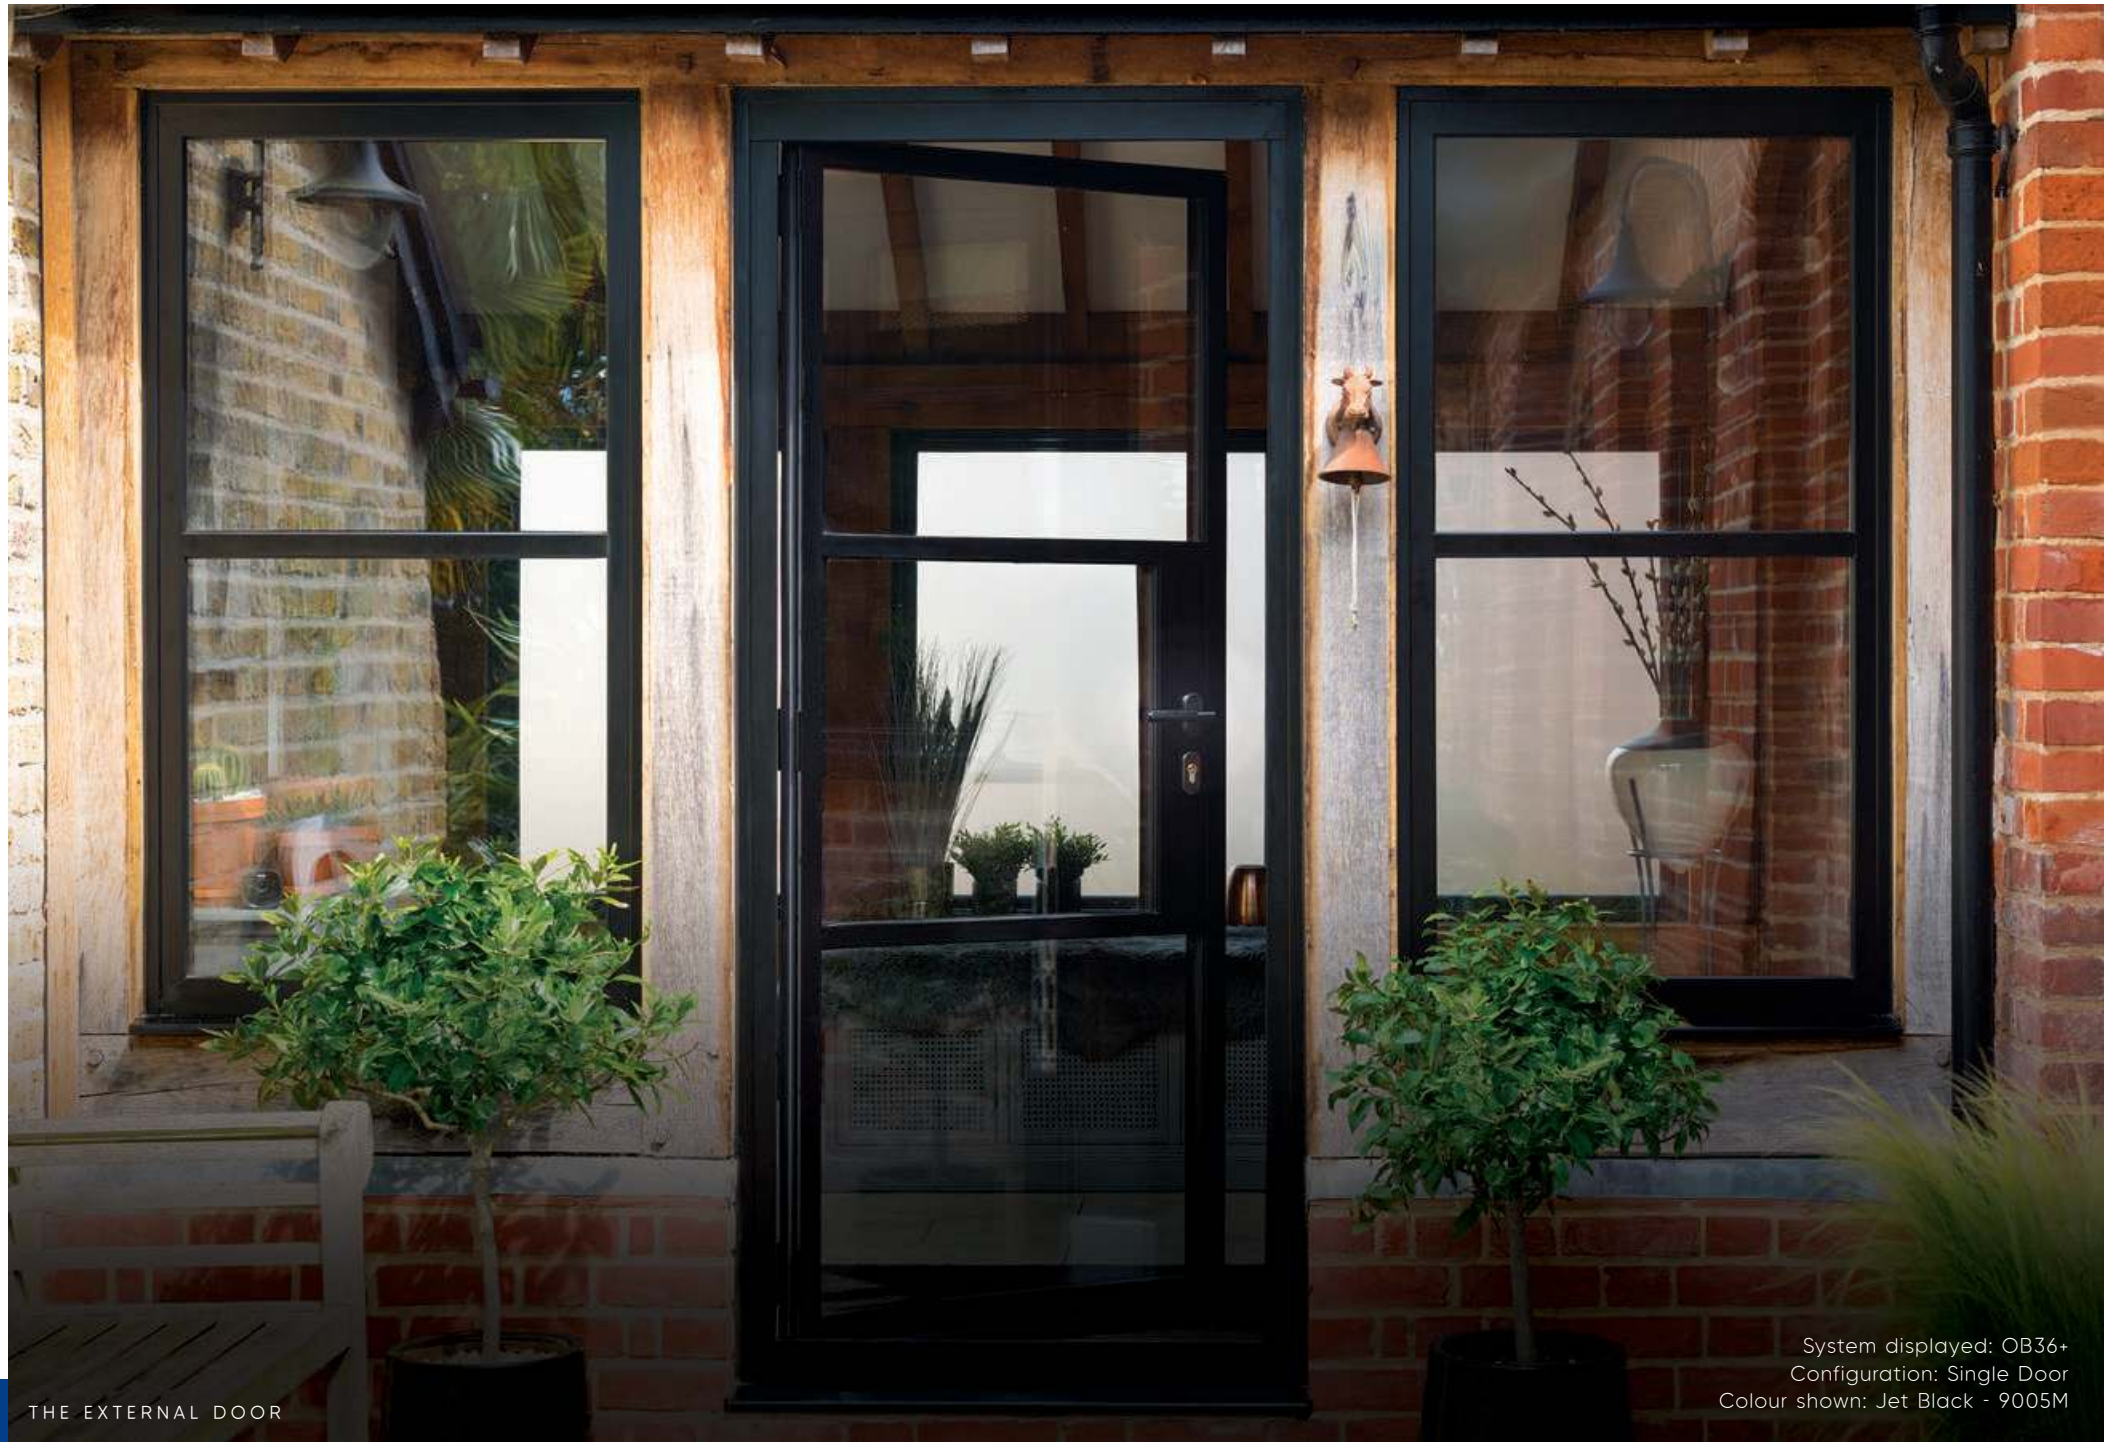

7.

Choose your Origin Partner at origin-global.com.

Wherever you are in your renovation journey, our independent Installation Partners are here to guide, support, enhance and refine your vision. They will talk through all of the options available, and if instructed by you, they will be undertaking your installation.

Whilst our Partners remain independent companies from Origin, they have been offered training to ensure you receive the highest quality product that's backed with a reliable and helpful service, ensuring your project is stress-free.

CONFIGURATIONS

Choosing your Origin Door has never been easier. Use the following guide to see what potential options are available to you, whether you're guided by number of sashes or aperture size.

1 Door

Single Door

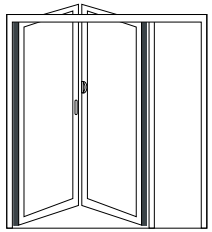

Suitable for apertures ranging from 465mm - 1,324mm.

Manufactured in the same high grade aluminium as every other door type, the single door is great for ensuring a matching, complementary style. It can be used for any purpose including side exit, utility or even back door.

2 Door

2+0

Suitable for apertures ranging from 1,352mm - 2,590mm.

Our 2 door sets work for small openings. This door type comes with a mullion and can be specified with a slave locking barrel.

French Door

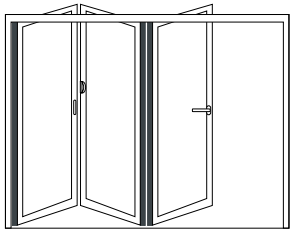

Suitable for apertures ranging from 803mm - 2,536mm.

The Origin French Door matches our bi-folding doors perfectly. It comes with our leading multi-point locking system.

3 Door

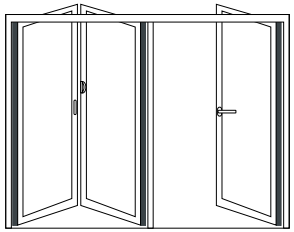

3+0

Suitable for apertures ranging from 1,200mm - 3,750mm.

We recommend the 3+0 configuration as it allows for all doors to be folded back in the same direction whilst incorporating an everyday access door.

2+1

Suitable for apertures ranging from 1,208mm - 3,810mm.

Key

Everyday access door

Multi-point lock

Mullion

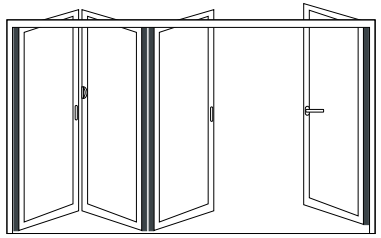

20 YEAR Up to a 20-year guarantee

Manufactured in the UK

Bespoke

4 Door

3+1

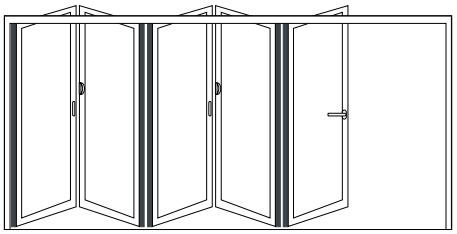

Suitable for apertures ranging
from 1,600mm - 4,960mm.

The 3+1 is a favourite because it will give an everyday access door, multi-point lock and no mullion. It can also offer a French Door effect one side, with the additional benefits of bi-folds on the remaining doors.

20 YEAR

5 Door

5+0

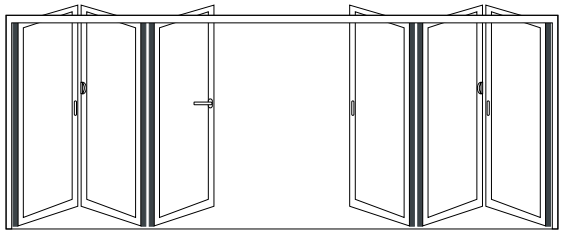

Suitable for apertures ranging
from 2,000mm - 6,175mm.

This configuration works almost identically to the 3+0 configuration, meaning it comes with an access door, multi-point lock and no mullion.

20 YEAR

6 Door

3+3

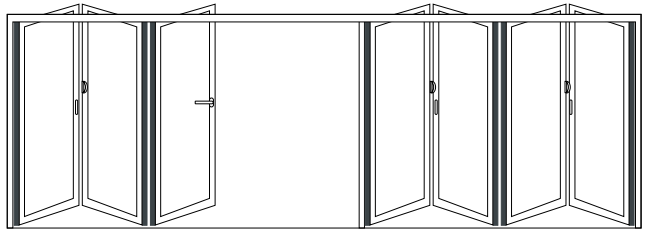

Suitable for apertures ranging
from 2,400mm - 7,385mm.

Ideal for larger apertures, the 3+3 is one of the most diverse configurations as it can operate as a French Door in the centre, have 3 doors opening one way whilst the other 3 remain closed, or they can be opened fully with 3 doors folding each way to offer complete symmetry.

20 YEAR

7 Door

3+4

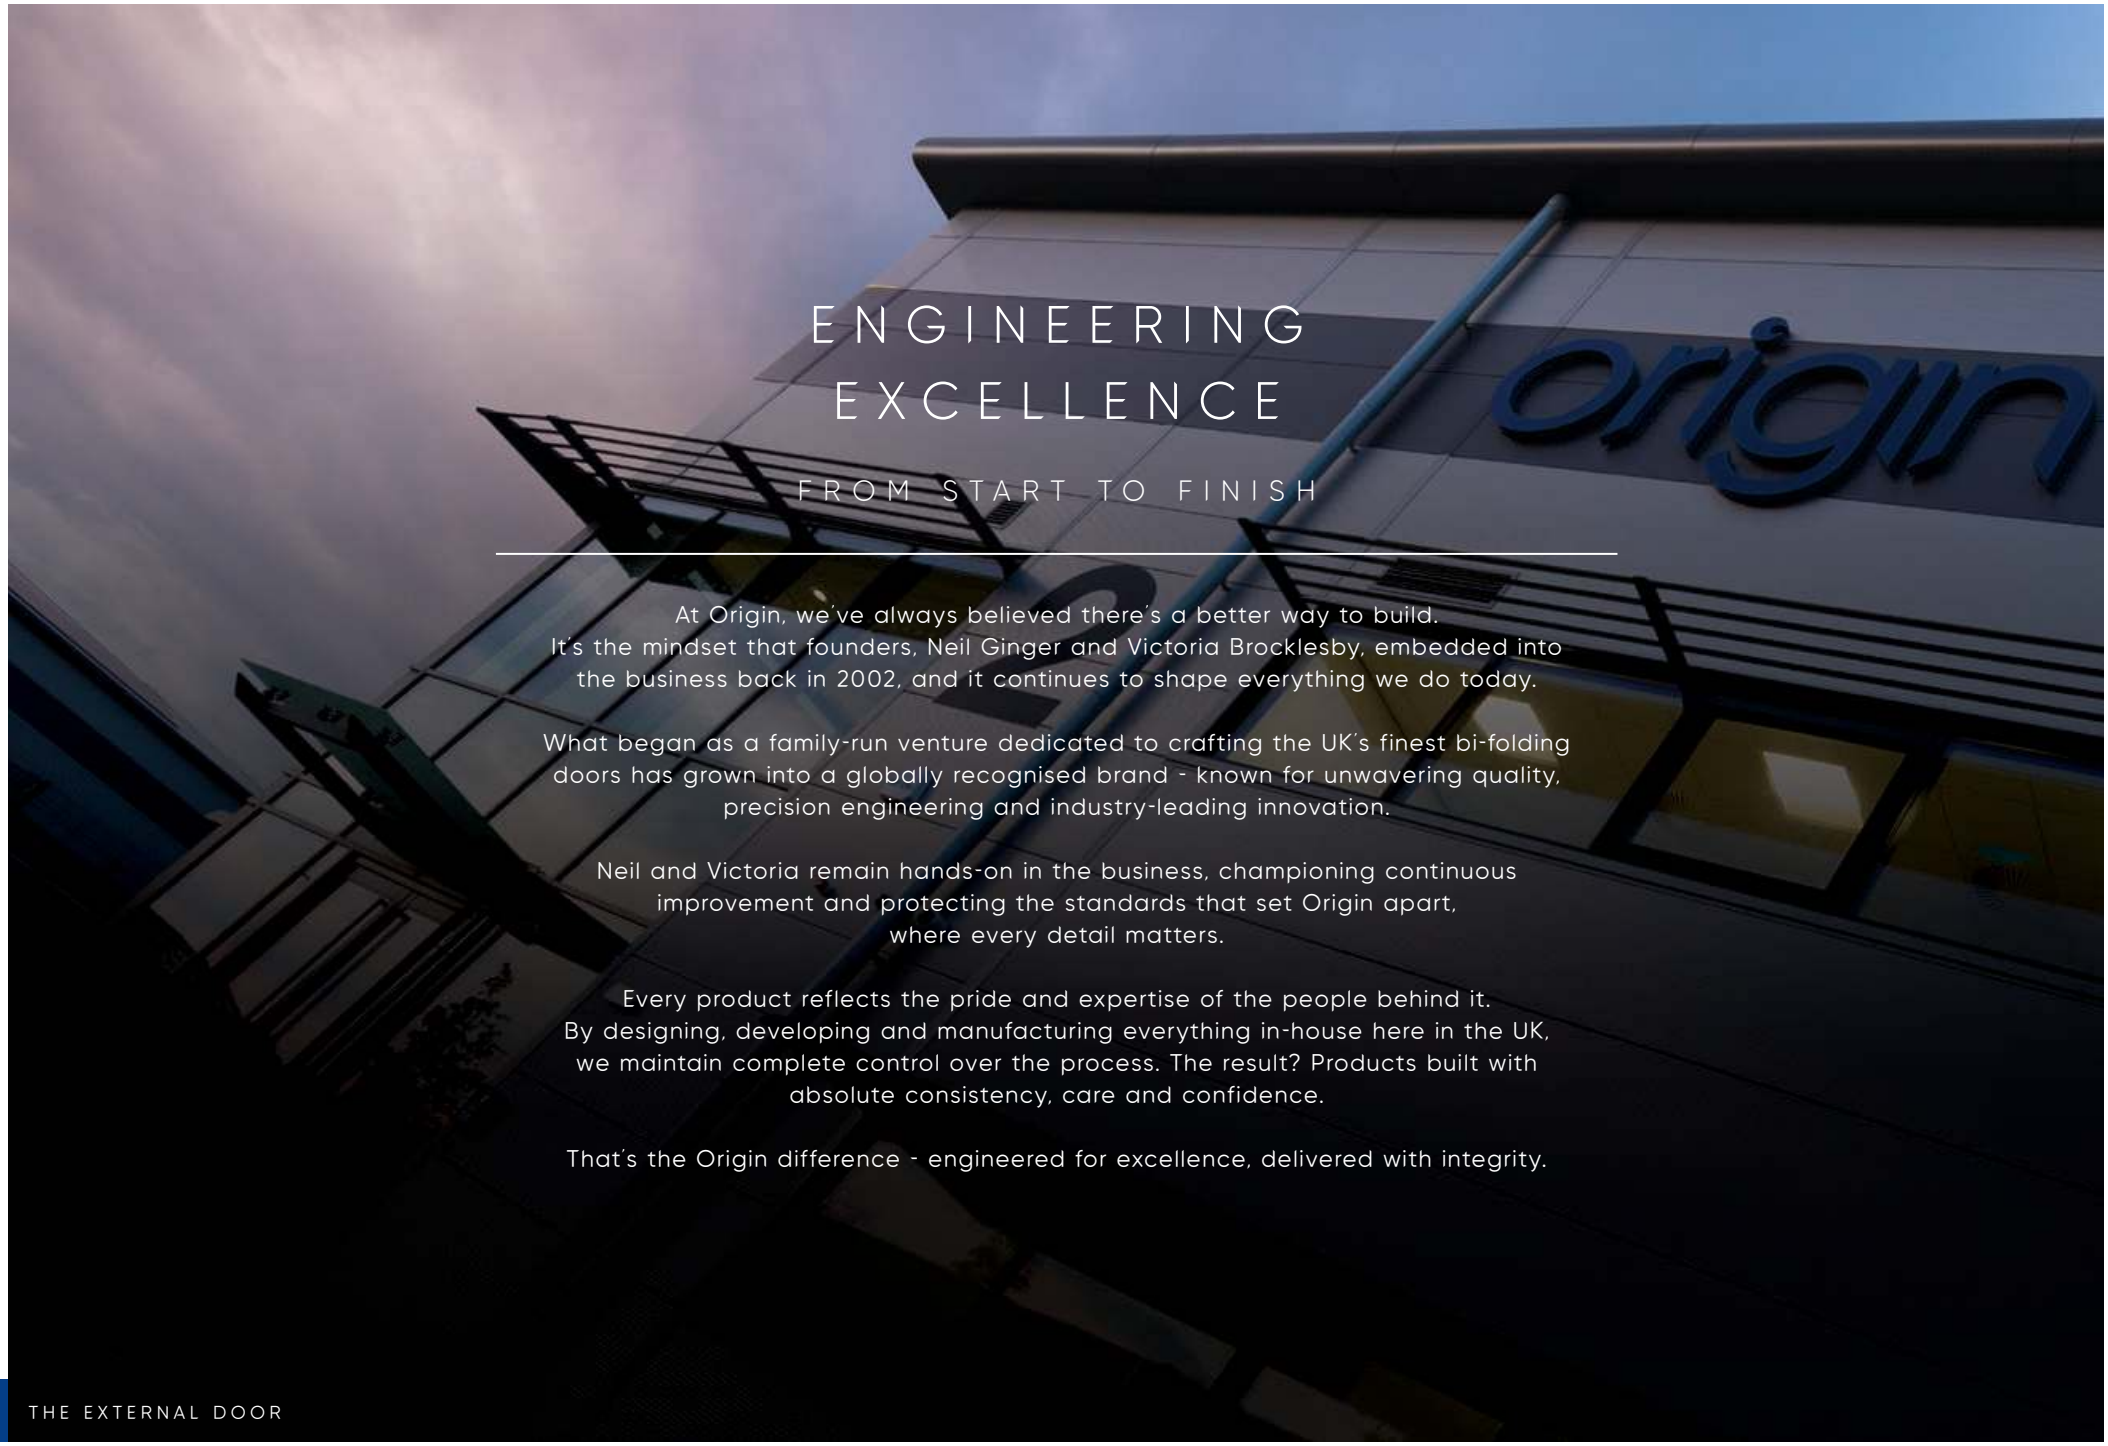

Suitable for apertures ranging
from 2,800mm - 8,636mm.

This door set will allow you to have an everyday access door, with our multi-point lock. We also recommend this configuration due to its ease of operation.

20 YEAR

ENGINEERING EXCELLENCE

FROM START TO FINISH

At Origin, we've always believed there's a better way to build.
It's the mindset that founders, Neil Ginger and Victoria Brocklesby, embedded into the business back in 2002, and it continues to shape everything we do today.

What began as a family-run venture dedicated to crafting the UK's finest bi-folding doors has grown into a globally recognised brand - known for unwavering quality, precision engineering and industry-leading innovation.

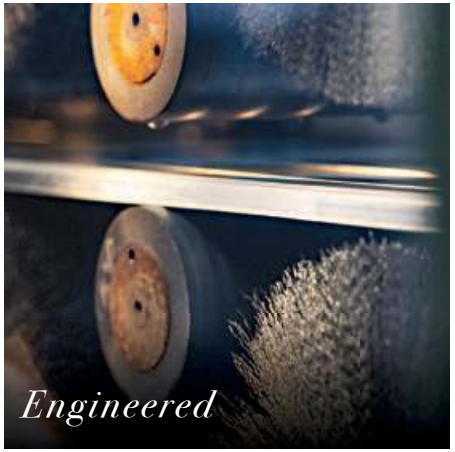

Neil and Victoria remain hands-on in the business, championing continuous improvement and protecting the standards that set Origin apart, where every detail matters.

Every product reflects the pride and expertise of the people behind it.
By designing, developing and manufacturing everything in-house here in the UK, we maintain complete control over the process. The result? Products built with absolute consistency, care and confidence.

That's the Origin difference - engineered for excellence, delivered with integrity.

WITH ORIGIN, ALL OF OUR PRODUCTS ARE EXCLUSIVELY:

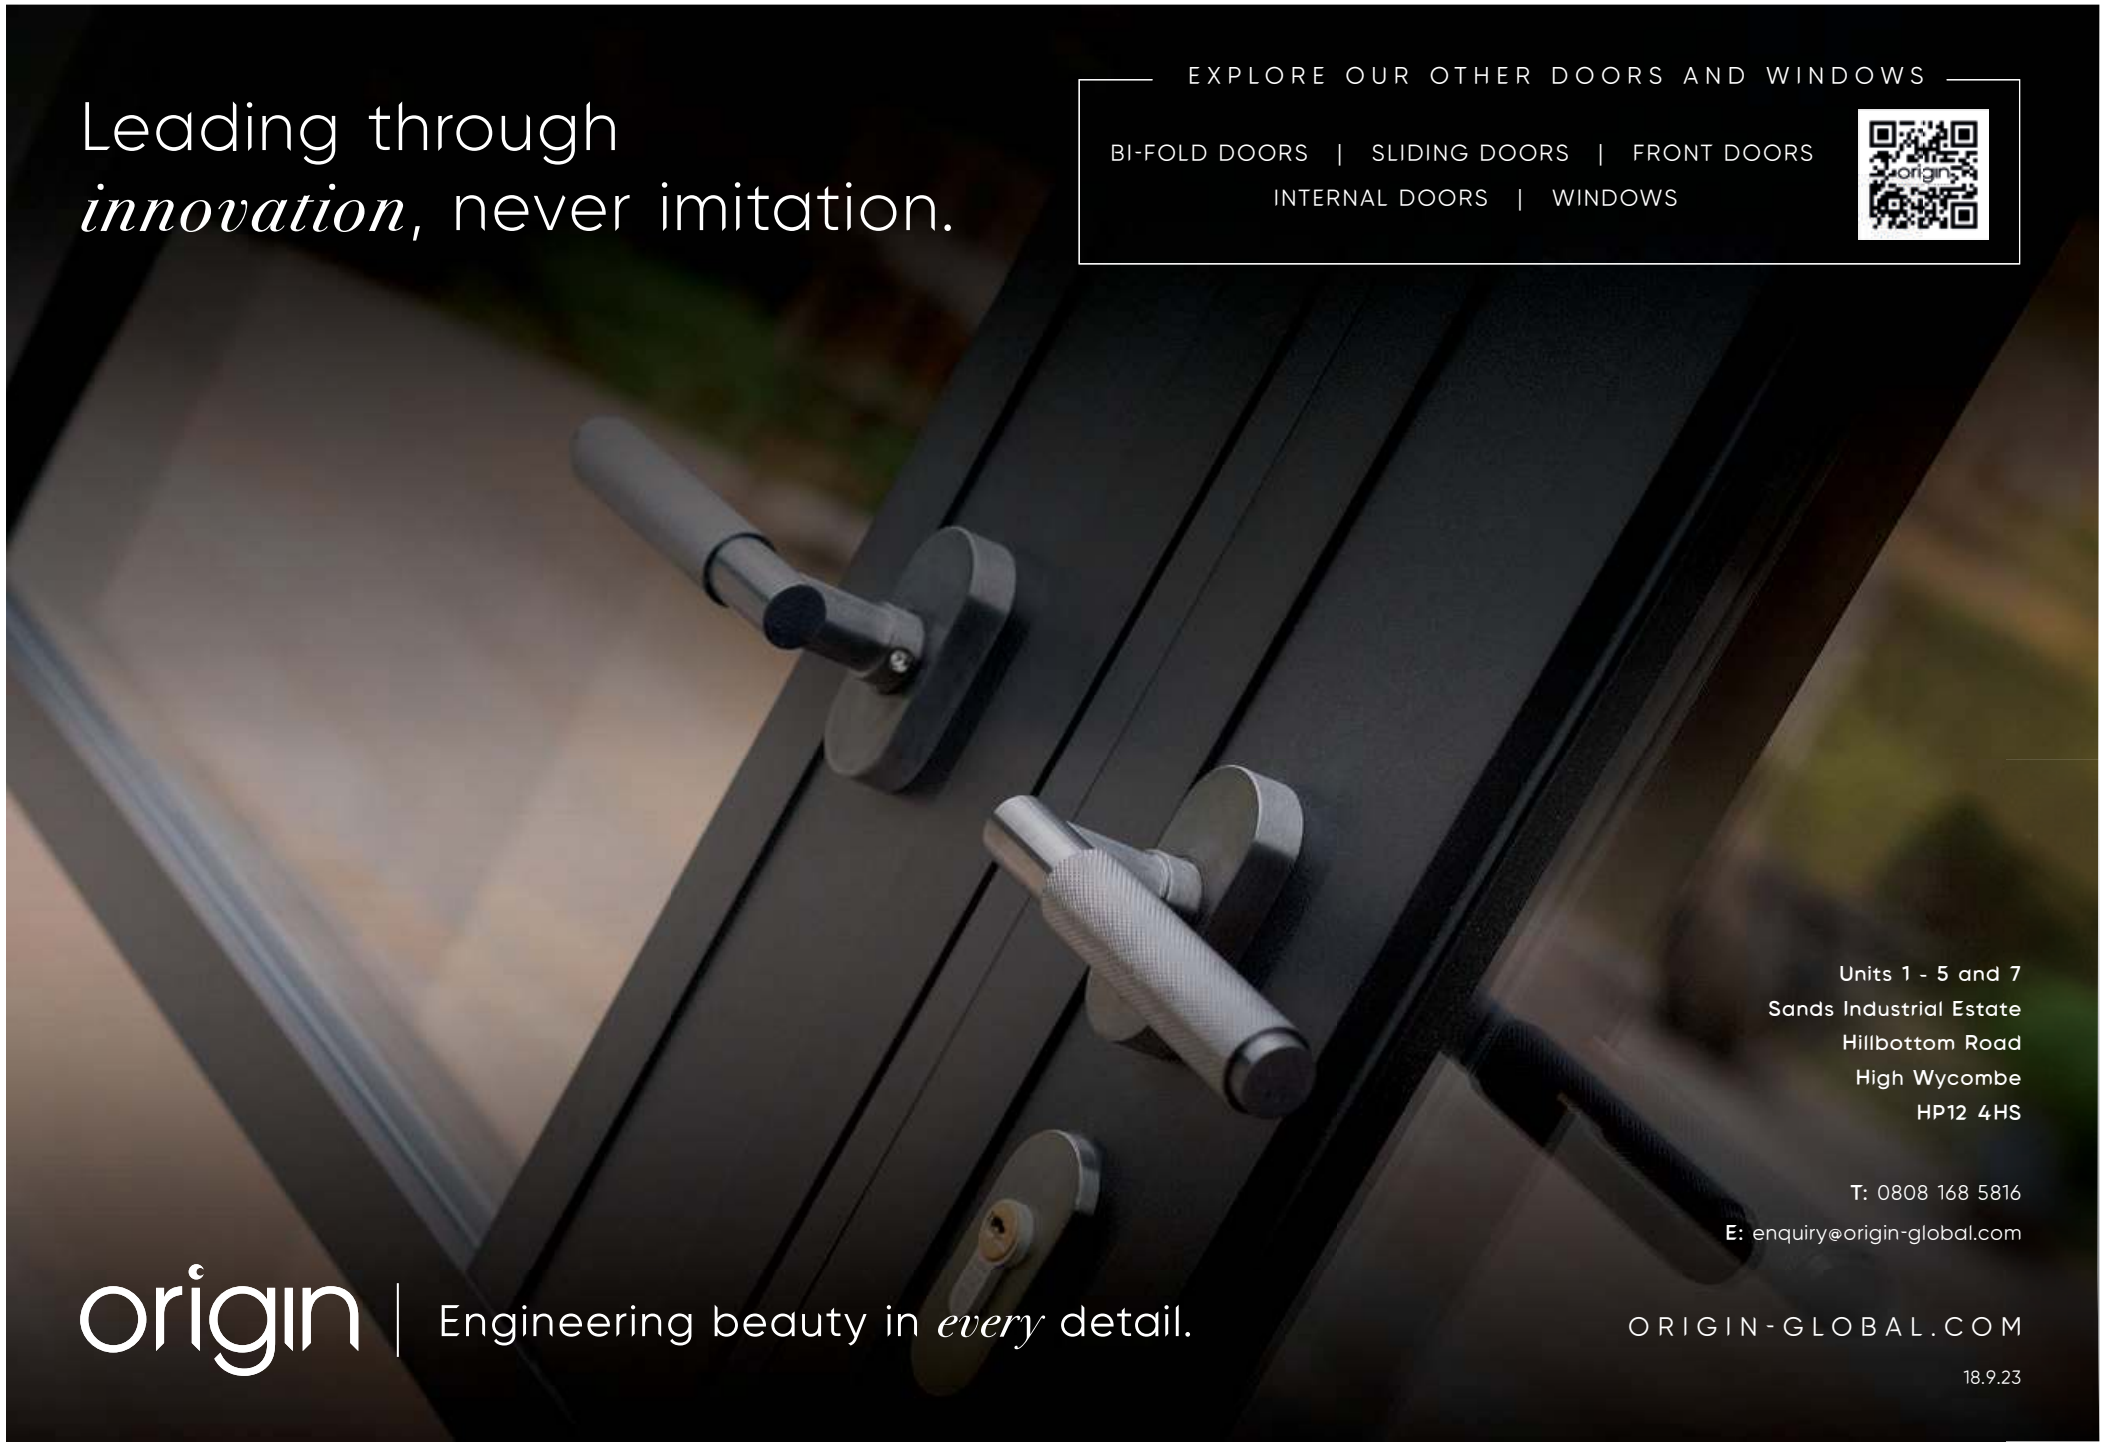

...IN THE UK, BY US.

Leading through
innovation, never imitation.
