SLIDING DOOR

A PERSONAL

# INTRODUCTION

Welcome to Origin - a long-standing family business dedicated to the curation of exceptional Doors and Windows.

Our lineage lies in engineering, and for over 20-years, we've embodied the artistry and innovation of British manufacturing. Our focus has been on refining our craft, and creating a deep understanding of what truly matters to families and their homes.

We design and manufacture for those who expect more: homeowners with a discerning taste, a passion for detail, and a desire for products that offer lifestyle, security and performance value.

At Origin, we pride ourselves in everything having a meaningful design and purpose and upholding rigorous standards. Every product is precision-engineered in-house, with continuous improvement built into our ethos.

We hope you enjoy discovering our Sliding Doors - and that your installation brings lasting elation for years to come.

SERENITY WITHIN

# SCENERY BEYOND

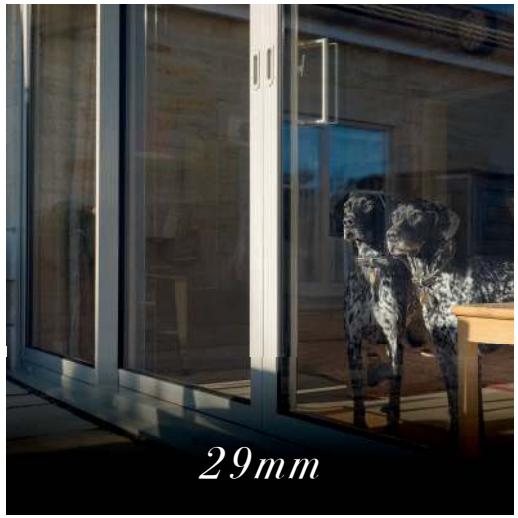

Blurring the boundaries between inside and out, our bespoke Sliding Door is designed to welcome maximum light, uninterrupted views, and a smooth and effortless operation.

With expansive glass panels, it creates a bright, open environment while delivering outstanding thermal efficiency.

System displayed: OS29+
Colour shown: Anthracite Grey - 7016M

THREE SIGHTLINES

# ENDLESS POSSIBILITIES

For maximum light and
panoramic views.

Offers a balanced design
for complete versatility.

Blends a classic styling with
modern performance.

# 29MM

## ULTRA-SLIM AND HIGH-PERFORMING

Our slimmest frame yet offers near panoramic views and a minimalist aesthetic, so is guaranteed to add a striking focal point to any modern home.

This award-winning system is engineered for today's way of living. It boasts exceptional thermal efficiency, a sleek flush-stacking option for a cleaner open position, and detailing that elevates every line and junction for a truly refined finish.

## *Additional Features:*

- PAS 24 security for advanced protection without compromise
- Vast panel sizes and suitable for apertures up to 13.1m
- Completely bespoke and available with exclusively curated hardware

System displayed: OS29+
Colour shown: Anthracite Grey - 7016M

System displayed: OS44
Colour shown: Anthracite Grey - 7016M

# 44MM

BALANCED BY DESIGN, VERSATILE BY NATURE

---

Harmoniously blending elegance and robustness, it's transformative
to any architectural style, from considered refurbishments to refined new builds.

## *Additional Features:*

- Smooth, quiet operation with specially designed running gear
- Works well in both modern and traditional properties
- Like all Origin products, it comes with a guarantee of up to 20-years

# 77MM

## CLASSIC, REASSURING, REFINED

---

With a traditional sightline but modern performance, its bold presence brings a design statement to any home.

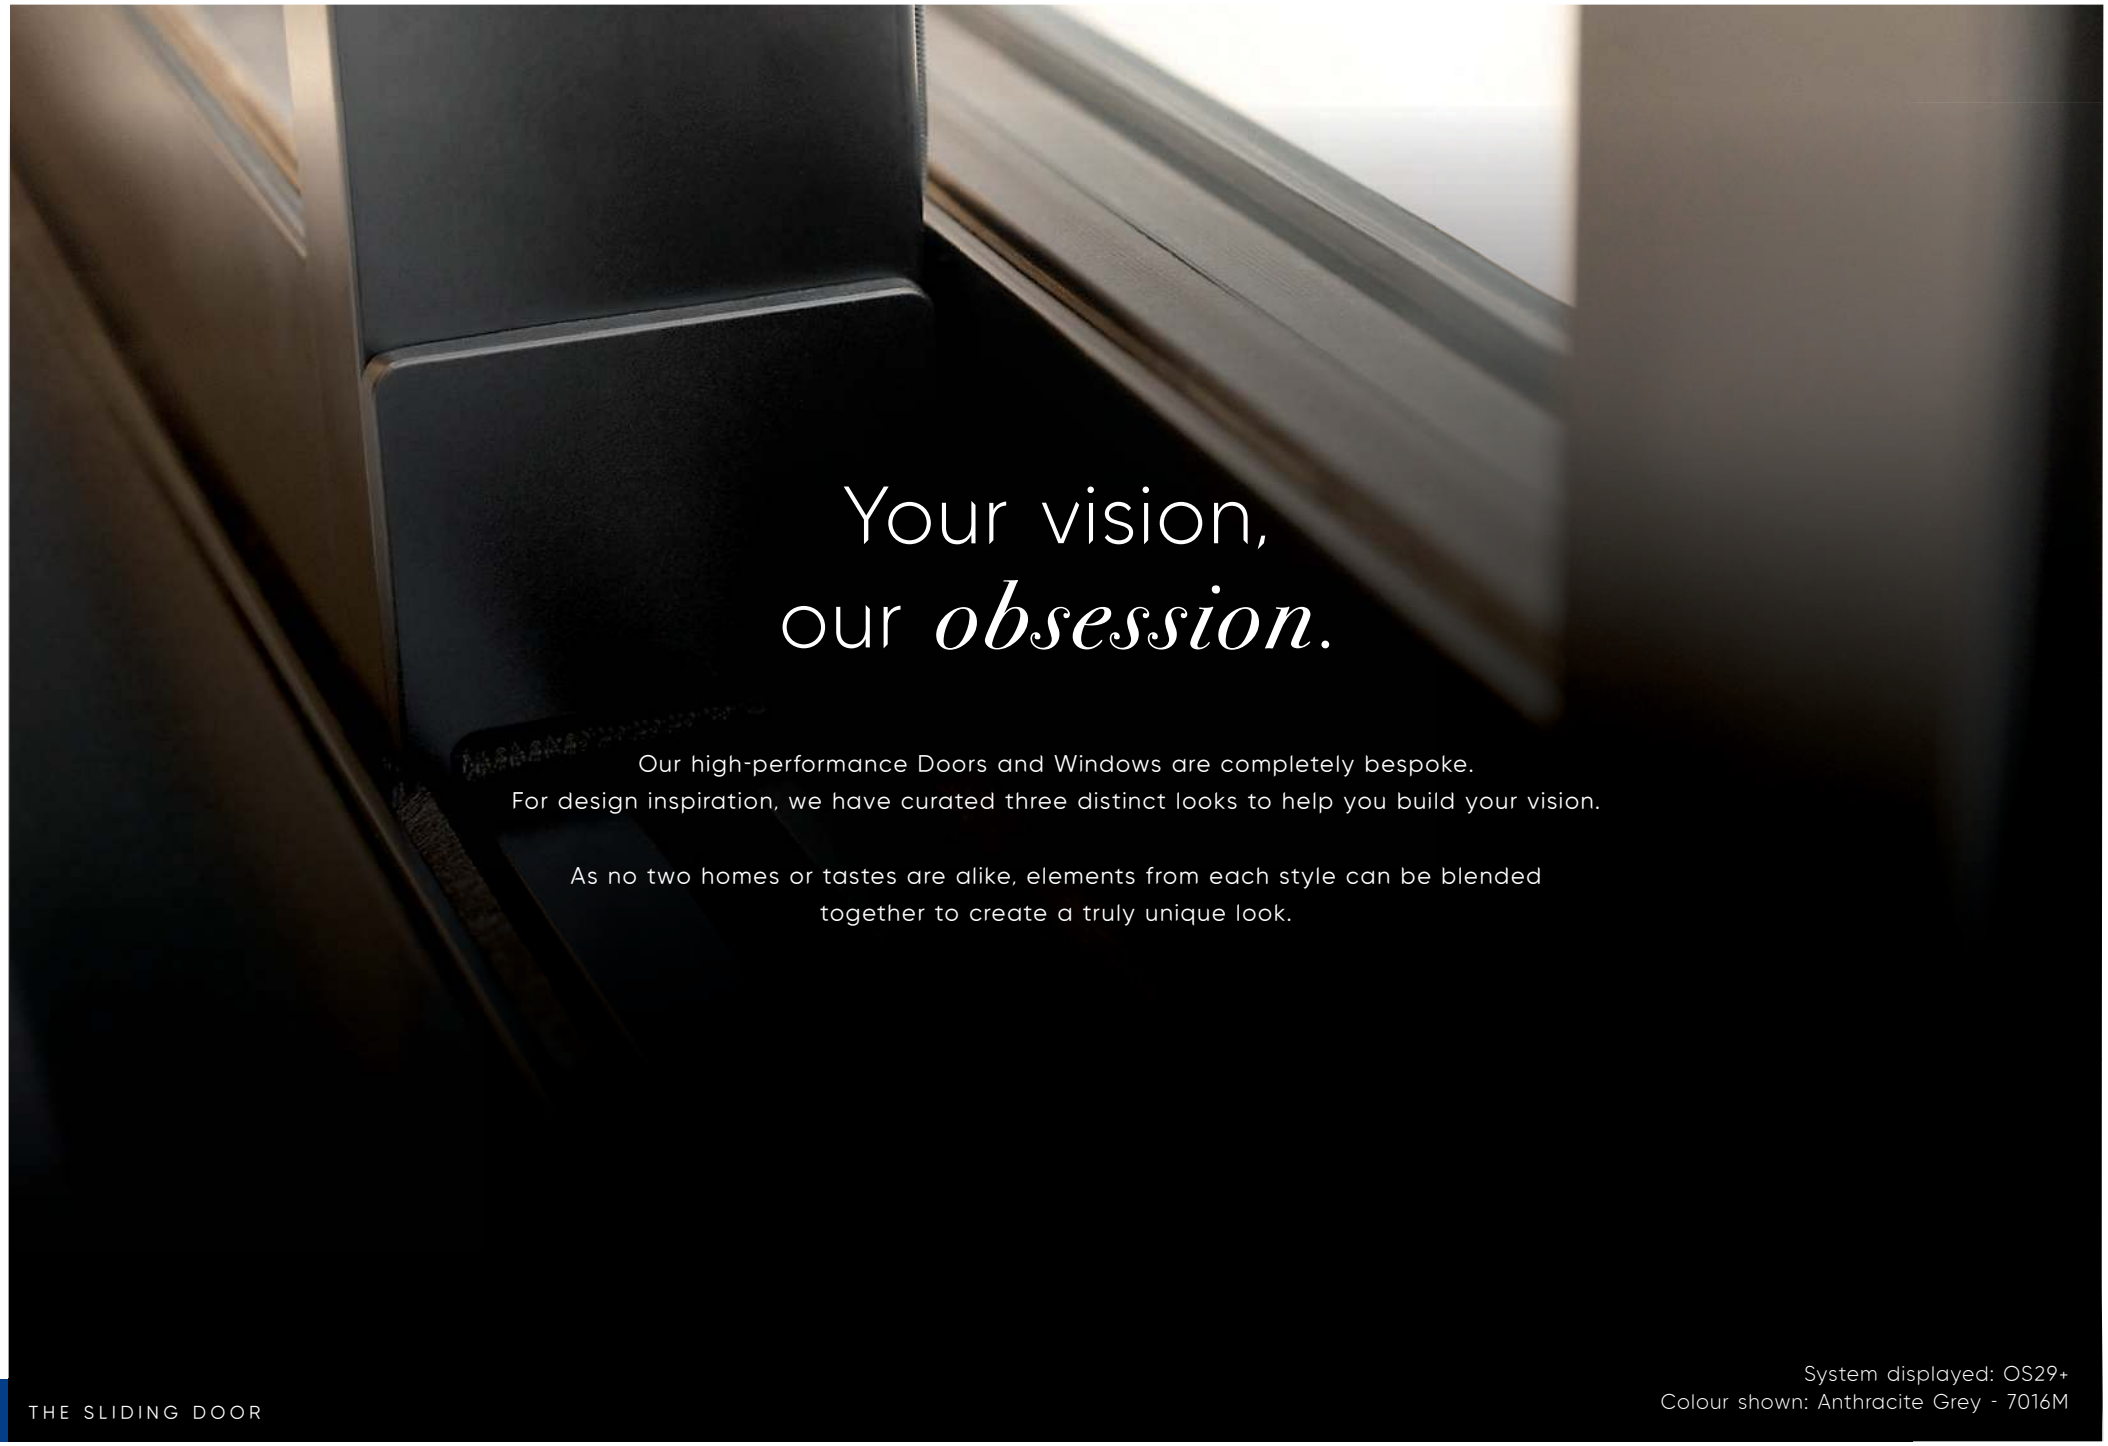

Adding character and a heritage edge, it fits cohesively alongside existing door and window materials, while maintaining Origin's trademark precision and ease of use.

## *Additional Features:*

- Balances a timeless elegance with advanced manfucturing techniques
- PAS 24 security to keep you and your family safe
- Designed to perform, built for living, engineered to last

System displayed: OS77
Colour shown: Anthracite Grey - 7016M

# Your vision, our *obsession*.

Our high-performance Doors and Windows are completely bespoke.
For design inspiration, we have curated three distinct looks to help you build your vision.

As no two homes or tastes are alike, elements from each style can be blended together to create a truly unique look.

System displayed: OS29+
Colour shown: Anthracite Grey - 7016M

Inspired by one of the world's most famous and architecturally striking neighbourhoods, it's bold, industrial and full of character.

Epitomised by large, glazed panels, an abundance of natural light and simplistic elegance, it's perfect for spaces with views that deserve to be admired.

Evoking romantic tones of the past, this style is ideal for those seeking a historical, artisanal charm to their home.

# SUPERIOR

## THERMAL EFFICIENCY ALL YEAR ROUND

In a world where energy matters more than ever, we believe a great design should do more than just look good.

Our Sliding Door has therefore been engineered with exceptional and cutting-edge thermal efficiency. With U-Values as low as 0.78 $W/m^2K$, it's market leading and far exceeds current and future British Building Regulation requirements.

Because our products connect your home to the natural world outside, we take our responsibility seriously - protecting both spaces for today and for generations to come.

This performance helps reduce energy bills while enhancing comfort all year round.

Colour shown: Jet Black - 9005M

Security and safety
at its *core*.

You can't put a price on safety, especially in your home. It's a design priority for our in-house R and D team, and they have therefore engineered the Origin Sliding Door with advanced locking systems and safety features to keep your home protected.

Multi-point locks that support the doors achieving PAS 24 certification, concealed tracks that reduce the risk of fingers and toes from accidentally getting caught, and handcrafted frames constructed using premium-grade aluminium all contribute to ensuring that your home remains ultra-secure.

# ENDLESS COLOURS

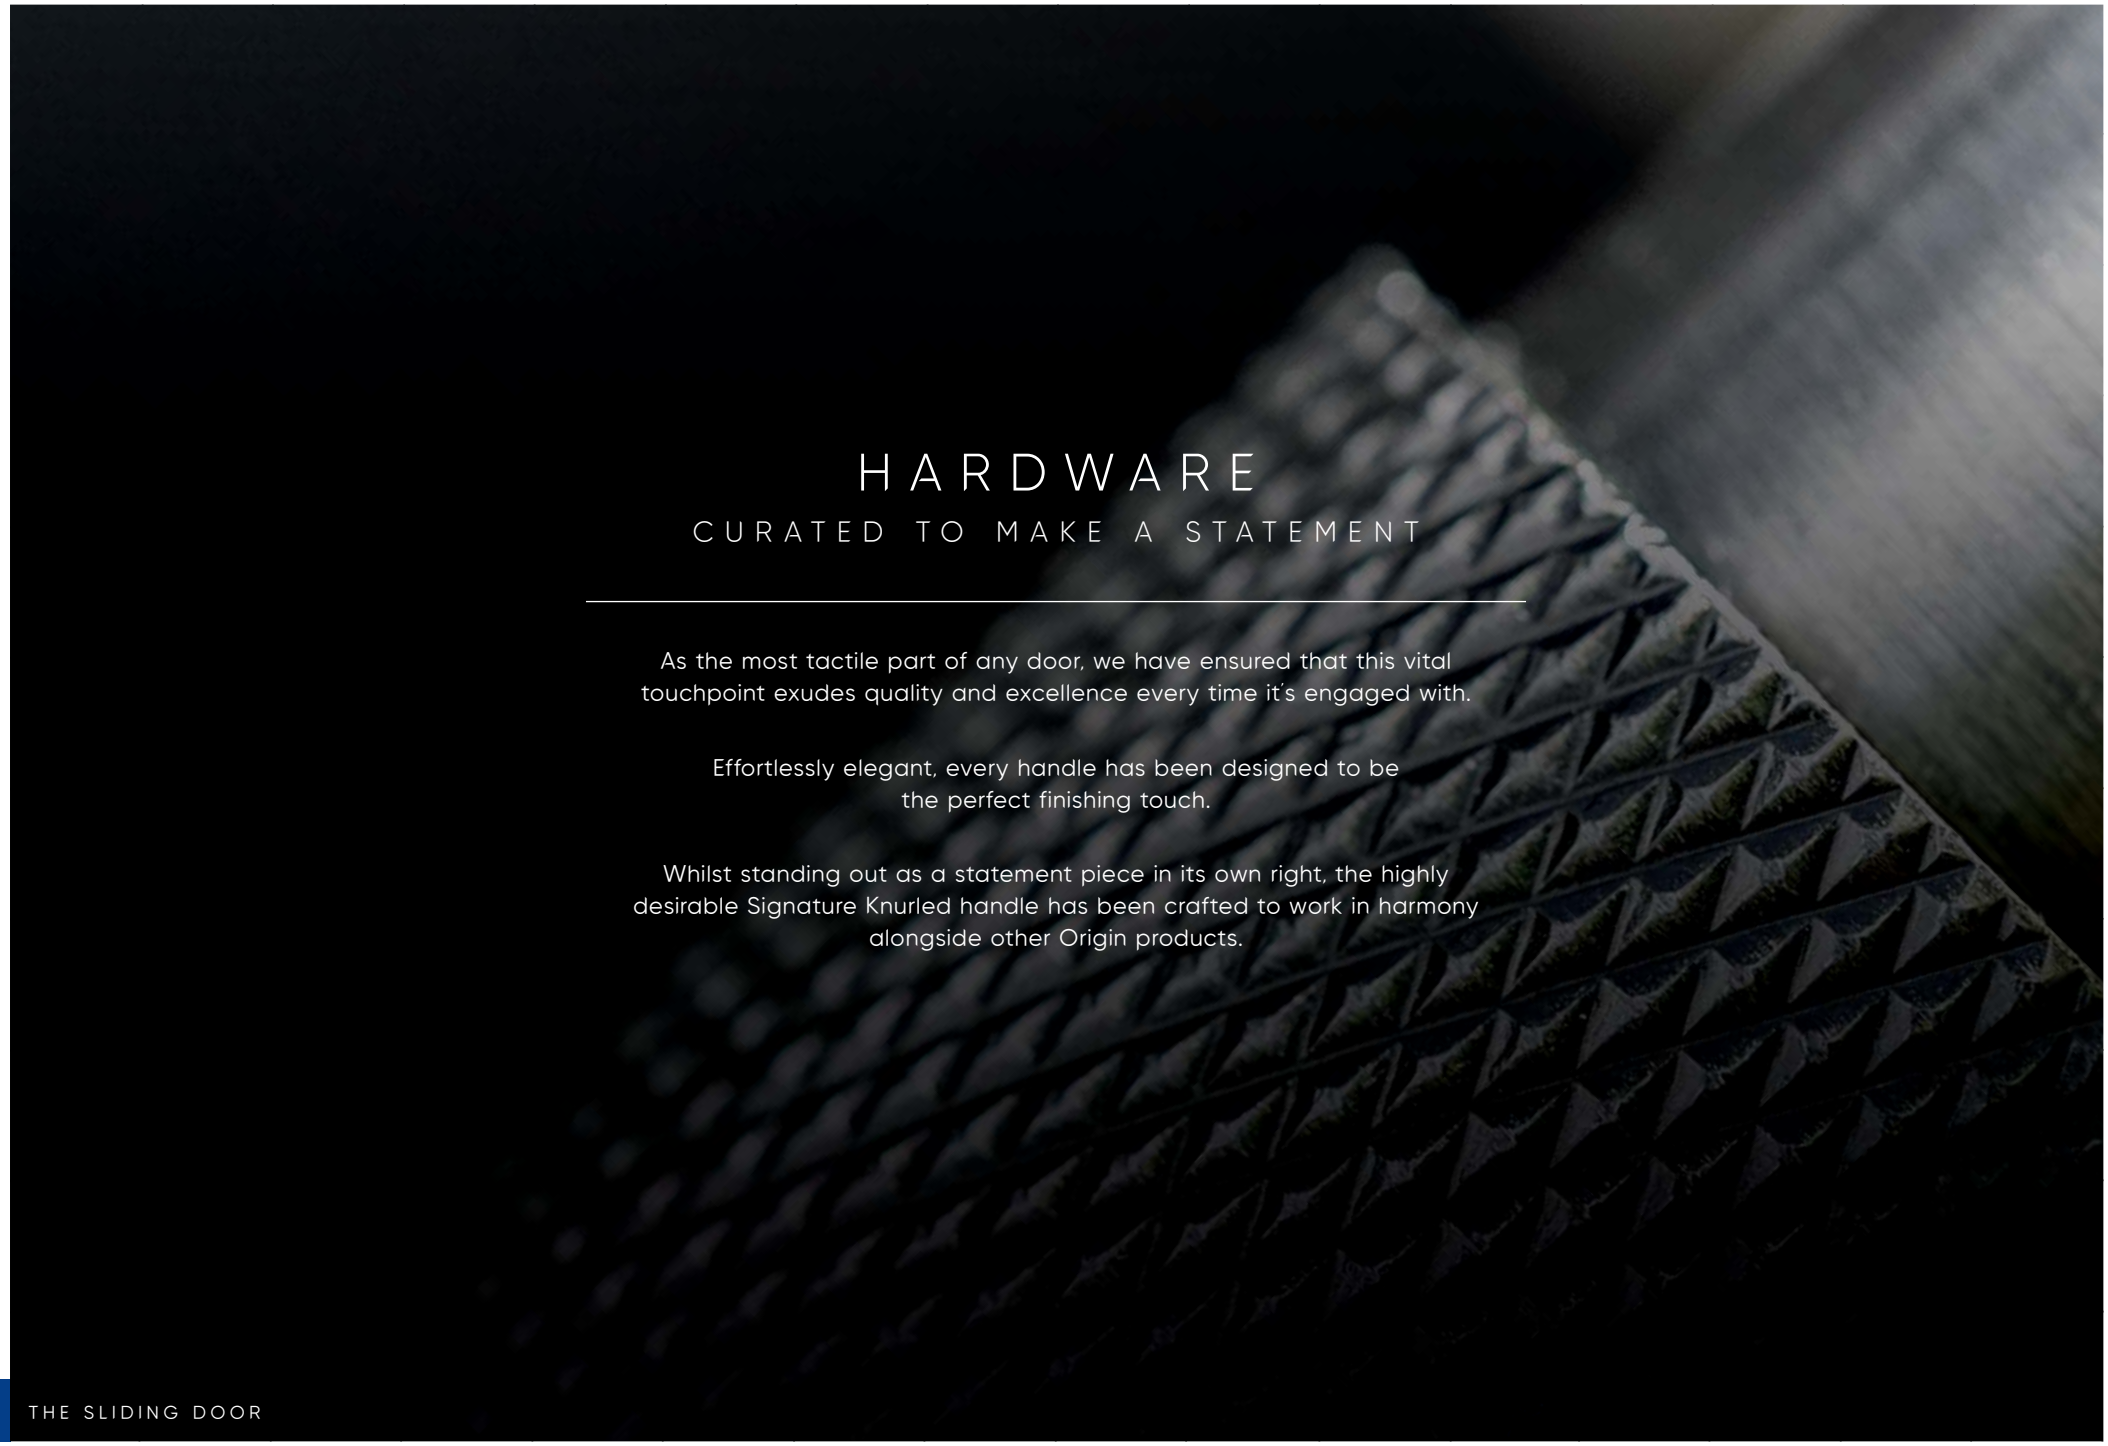

## UNMATCHED FINISHES

Each project is unique, and with over 150 different RAL colours to choose from, we have the perfect palette to help you express your home's personality.

We don't just follow industry standards, but instead, set our own. This allows us to take our product's quality to new levels, ensuring it meets the needs of your family today, tomorrow and for decades to come. One example of this is the design and implementation of our very own powder-coating facility in Bicester. Its operations are calculated specifically to elevate both the colour and the finish, resulting in superior longevity, aesthetics and durability.

The average number of pre-treatment cleaning stages in the industry is between 5 and 7, however, in our facility, our profile goes through 10-stages. This means the aluminium is far more primed and receptive to being powder-coated, making the end result simply flawless.

*Superior* longevity,
aesthetics and durability.

# HARDWARE

## CURATED TO MAKE A STATEMENT

As the most tactile part of any door, we have ensured that this vital touchpoint exudes quality and excellence every time it's engaged with.

Effortlessly elegant, every handle has been designed to be the perfect finishing touch.

Whilst standing out as a statement piece in its own right, the highly desirable Signature Knurled handle has been crafted to work in harmony alongside other Origin products.

CONFIDENCE

# BUILT IN

At Origin, we don't just claim or promise best practice - we prove it.

With complete confidence in our craft - the materials, the components and the construction - every Sliding Door is backed by a guarantee of up to 20-years[1] on parts. This reflects our commitment to long-term performance and reliability.

Additionally, with more ISO accreditations than any other UK manufacturer in our sector, we demonstrate excellence across quality, environmental responsibility and health and safety.

[1] Visit origin-global.com for full Terms and Conditions.

# MATERIALS

## THAT MAKE THE DIFFERENCE

At Origin, aluminium isn't just a material - it's a commitment.

While others may compromise with lower standards in material and grade, we only ever use premium aluminium because of its unrivalled combination of strength, weight and longevity.

It's this superior quality that allows us to craft ultra-slim profiles that are capable of supporting expansive panes of glass, as well as delivering outstanding thermal efficiency and ensuring a smooth and consistent operation.

Built to last, engineered to perform and responsibly made using infinitely recyclable aluminium - this is assurance you can see and feel.

EFFORTLESS

# OPERATION

Precision-engineered running gear ensures doors pass
each other smoothly and quietly, day after day, year after year.

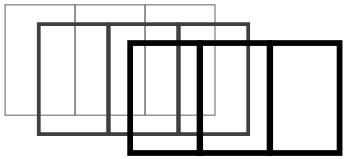

The beauty of sliding doors lies in their effortless versatility. Panels glide seamlessly
to the left, right, or from the centre, creating a flow that suits your space and lifestyle.
For the ultimate transition between spaces, tracks can be recessed into
the floor - delivering a flush, uninterrupted connection.[1]

To keep your Sliding Doors at their best in terms of looks and operation,
they have minimal maintenance requirements. All you need to do is give your
doors the occasional clean, keep the locks lubricated and the tracks clear,
and everything else will look after itself.[2]

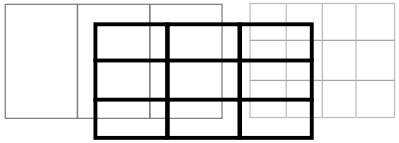

[1] Allowances will need to be made for drainage. Speak to your installer for details.
[2] More routine maintenance will be required in certain areas. Visit origin-global.com for full Terms and Conditions.

# TAILORED ENGINEERING AND NEXT STEPS

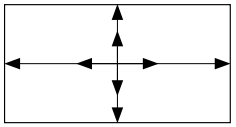

All Origin Sliding Doors are made completely bespoke to your requirements.
Here, we cover the key elements of personalisation.

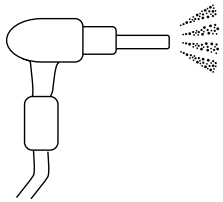

*1.* Choose your sightline -
29mm, 44mm or 77mm.

Choose your Origin Partner at origin-global.com.

Wherever you are in your renovation journey, our independent Installation Partners are here to guide, support, enhance and refine your vision. They will talk through all of the options available, and if instructed by you, they will be undertaking your installation.

Whilst our Partners remain independent companies from Origin, they have been offered training to ensure you receive the highest quality product that's backed with a reliable and helpful service, ensuring your project is stress-free.

Manufactured by Origin.
Installed by your Partner.
*Enjoyed by you.*

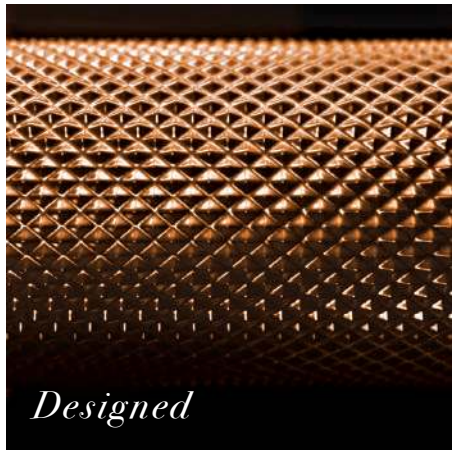

## DESIGNED, DEVELOPED AND DELIVERED DIFFERENTLY

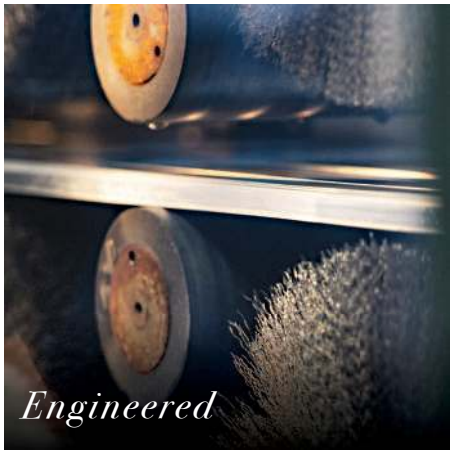

Everything we do at Origin is underpinned by a belief in doing things better - a mindset established by cousins, Neil Ginger and Victoria Brocklesby, when they founded the company in 2002. What began as a family business that was focused on crafting the UK's best quality bi-folding doors has now grown into an internationally recognised brand, known for precision engineering and industry-leading innovations.

To this day, Neil and Victoria remain closely involved in the business, driving continuous improvement and upholding the high standards Origin is known for. No detail is ever overlooked, which cumulatively comes together to create the Origin difference.

By designing, developing and manufacturing everything in-house here in the UK, we retain complete control - ensuring every product is built with consistency, care and pride.

WITH ORIGIN, ALL OF OUR PRODUCTS ARE EXCLUSIVELY:

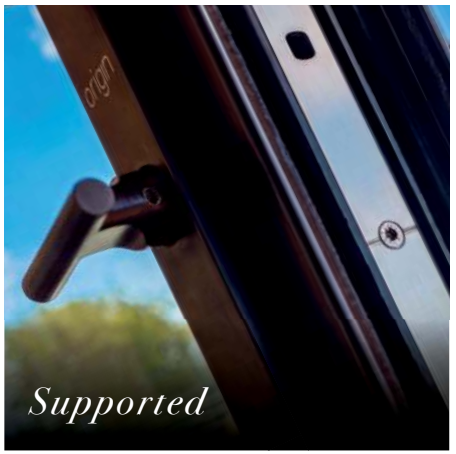

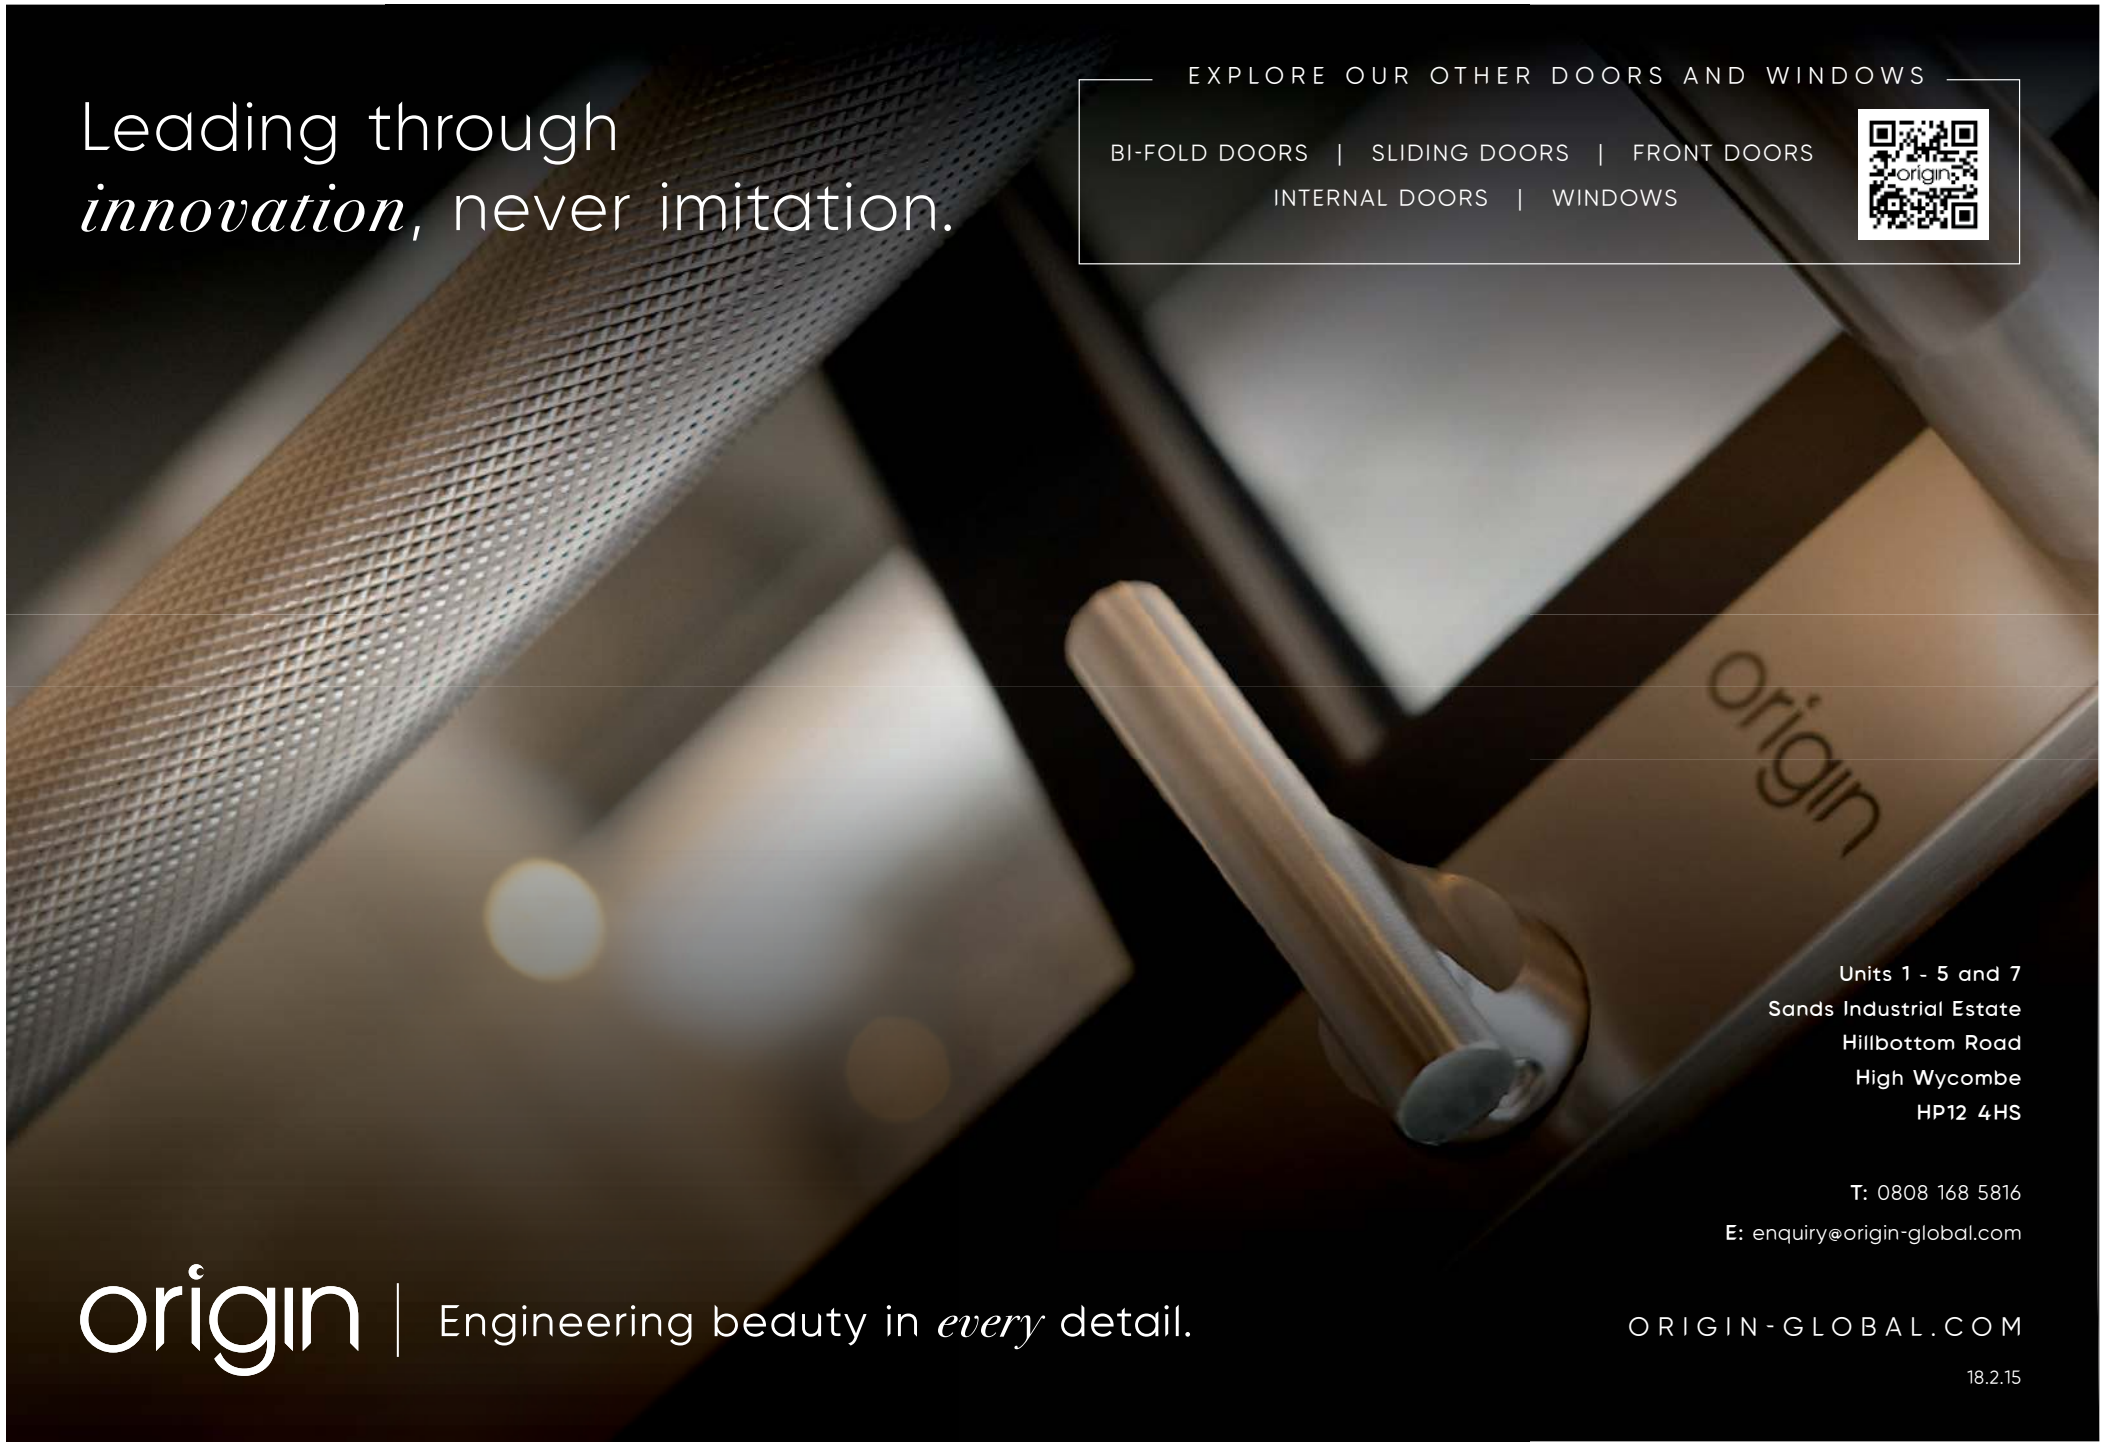

...IN THE UK, BY US.

Leading through
*innovation*, never imitation.
