RE: GEICO Labor Rate Survey

Dear Custodian of Records,

Attached please find a spreadsheet containing the information required by California Code of Regulations (CCR)2698.91 to document GEICO's (Group Number 31) recently completed Labor Rate Survey. The survey was completed on June 8, 2026.

The formula used to determine prevailing auto body rates reported for each geographic area is the median rate of all responding repair shops in each market area.

The total number of shops contacted for the survey was 5,879. Of that number, 1,474 returned a usable response.

The non-public information required by CCR 2698.91(g) was submitted separately through the CDI portal.

These rates will be effective July 2, 2026.

We certainly hope that the information contained in this letter and the spreadsheet are sufficient. If you have any other questions, please do not hesitate to contact us.

Thank you,

Karen De Mars
Senior Director, GEICO Physical Damage
