# REEF WITHIN REACH

Get face down, bottom up and check out some of our most accessible reef experiences...

REEF & ZONING MAPS

You don't have to paddle far from the sandy shores of Great Keppel Island to experience some of the best **snorkelling** and scuba **diving** in the world. The ability to snorkel directly from the beach is comforting for many who may feel uneasy about the deep ocean. Discover pristine and healthy coral of the Southern Great Barrier Reef.

**1 Shelving Point Reef** is the closest snorkel site to all accommodation on Great Keppel Island. The reef sits within a protected bay, known as Shelving Beach and lies right next to Monkey Reef. Shelving Point can be reached directly from Fisherman's Beach or by boat. This is an easy option for young families and there is always something to see.

**2 Monkey Beach Reef** is by far Great Keppel Island's most valuable tourist dive and snorkel site. It takes around 40 minutes to walk to this spot from Fisherman's Beach. Sitting within a protected bay, it is easy to access from the island. With exceptionally high coral cover and 38 coral species, you can access Monkey Beach Reef by boat or walk in directly from Fisherman's Beach.

**3 Clam Bay** is a coral trout breeding ground. Access Clam Bay reef by boat. Enter the water directly from the beach and swim out along the edge of the reef at mid-to-low tide. Conditions are best during northerly or easterly winds. Expect to see juvenile coral colonies, turtles and anemones on the edge of the reef slope.

**4 Wreck Beach** is hidden on the far side of Great Keppel Island, and offers a taste of being deserted on a stunning stretch of beach. The long trek there is well worth it as you're likely to see dolphins, turtles and a plethora of other marine life when you snorkel amongst this slice of paradise. If you are an ocean lover, this is a magical spot because you might be able to find the 'treasure' of the beach: an ancient brain coral, around 2m high and believed to be over 500 years old.

**5 Butterfish Bay** is a small cove on Great Keppel Island flanked by rocky outcrops and backed by large sand hills. Butterfish reef is a fantastic little spot to view hard corals. Snorkel here on low tide as the rocks are quite far from the beach. Best access is via boat.

**6 Passage Rocks** is located in a deep north-south channel and is a great snorkel site close to Great Keppel Island on the northern side. It is also a favourite spot for kayakers. It features more hard coral species than any other site in the Keppels due to the rocks offering a variety of habitats suiting many different species. Feather stars and fish are also abundant.

**7 Middle Island** is a national park with two main snorkel sites around the island. Olive Point to the north and the Underwater Observatory to the south. Once built for coral viewing, the observatory has now become a fish habitat as well as a safe and intriguing place to dive or snorkel.

**8 Keppel Bay Islands** boast many other dive and snorkel sites. These can all be accessed via private vessel, water taxi or numerous commercial charters. If you are interested in exploring further, be sure to check out the reef around Conical, Barren, North Keppel, Pumpkin, Miall and Humpy Islands.

#### BE SAFE & PROTECT OUR REEF

Enjoy snorkelling as long as you like but it's important to watch the tides and currents. Cover up, wear reef friendly sunscreen, always tell someone where you are going and snorkel with a 'buddy'. Never rest or stand on coral, remember it's a living creature. When snorkelling, find a patch of sand if you need to stand up. Be careful not to kick the coral with your fins. Look, but don't touch any sea creatures. [Scan the QR code to download GBRMPA Eye on the Reef App and share your discoveries.](#)

# ROCKHAMPTON'S MOUNTAIN BIKE TRAILS

If you are looking to plant your wheels in the dirt and find your happy place among mountain ranges, picturesque creeks and native bushland, look no further...

First Turkey, Rockhampton

Nestled in the foothills abutting Mount Archer National Park, **First Turkey** in Rockhampton is the Capricorn Coast Region's premier trail network, both recreational and competitive, and features over 25 kilometres of fun obstacles.

## HERE'S FIVE OF OUR FAVOURITE 'FIRST TURKEY' TRAILS

**1 Bush Chook Donut** forms a loop which runs off Horseshoe. This is a great trail for beginners and also a fun warm-up for more experienced riders.

**2 Finley's** Rising 93 metres over its 2.4 km length, Finley's is a great way to warm-up and get your day started. With plenty of tight switchbacks and single track through native bushland, this popular track also features the odd scrub turkey crossing the path to keep you on your toes!

**3 Hanging Rock** is named after the ominous boulder that hangs impossibly off the side of a turn in the trail, this track is a fast and twisty connector that links Horseshoe to the base of Jackhammer.

**4 Horseshoe** is a fun XC trail that runs above Moore's Creek. Arguably the best trail in the whole First Turkey reserve, Horseshoe serves as a connector trail and is one that you will find yourself crossing many times during your day at First Turkey.

**5 Scrub Turkey** has tight switchbacks, slippery corners and rocky outcrops which make it a fun filled ride. The two-way trail is accessible from Horseshoe at the bottom and Turkey's Nest at the top.

**For more information** on the trails and hubs weaving through First Turkey, visit [www.rockymtb.org.au](http://www.rockymtb.org.au) or **scan the QR code**.

Nearby **Mount Morgan** also boasts the region's newest MTB trails with 25 kilometres of exciting challenges weaving around the No.7 Dam.

# GREAT KEPPEL ISLAND

Virtual Tour

Great Keppel Island

**G**reat Keppel Island is only a 30 minute ferry transfer from the mainland and is the 'jewel in the crown' of Keppel Bay.

**WHAT TO SEE & DO** Take a snorkel or scuba dive tour or a leisurely kayak to one of the secluded beaches where you can snorkel amongst amazing varieties of tropical fish, magnificent hard and soft coral and friendly turtles. It arguably has the best beaches of any Great Barrier Reef island (Long Beach was voted #14 in 101 Best Beaches in Australia) and offers safe swimming all year round.

Great Keppel Island is approximately 1,454 hectares in size and is home to 17 pristine white-sand beaches and is rich with native flora, all waiting for you to explore. Ninety percent of the island is bushland and there are several bush walking tracks that disperse

trekkers around the island to untouched beaches, or spectacular lookouts. These range in duration and difficulty, from a leisurely stroll, to challenging hikes.

**WHERE TO STAY** From tents and cabins, through to private beach houses on the water's edge, staying on Great Keppel Island is always a relaxing escape. The island's Bar & Bistro is home to uncomplicated menus reflecting the relaxed atmosphere of Great Keppel.

**HOW TO GET THERE** Ferries depart every day to Great Keppel Island. A number of charters, full day cruises, whale watching (seasonal), sailing adventures, and extended tour options are also available from Keppel Bay Marina and Rosslyn Bay Harbour. Refer to Page 2 for airport transfer options.

# KEPPEL BAY ISLANDS

Halfway Island

**W**ith the protection of a fringing reef, the waters surrounding the Keppel Islands are amazingly calm.

**PUMPKIN ISLAND** is a hidden gem in the Keppel group of islands. Located just a 30 minute boat transfer from Keppel Bay Marina, this tiny island – just six hectares in total – offers you eco-friendly self-catering units that are powered by the wind and the sun! Book a stay in one of their beachfront cottages or rent the entire private island for up to 34 guests, and live like a millionaire at a fraction of the cost. Pumpkin Island offers private water transfers for their guests.

# EMU PARK

Centenary of ANZAC Memorial Walk

Once an exclusive beach resort at the turn of the 20th century, Emu Park is an idyllic seaside village.

**WHAT TO SEE & DO** Emu Park is home to the famous Singing Ship sculpture. Set against a spectacular coastal vista, the majestic monument commemorates the area's legacy of the historical explorations of Captain James Cook. A gentle sea breeze produces a musical sound through fluted pipes.

Just below the Singing Ship is a viewing deck and boardwalk that makes up part of the Centenary of ANZAC Memorial Walk. The impressive boardwalk is a must-do as it hugs the coastline and remembers our community's brave servicemen and women.

Emu Park Main Beach is a calm beach with a grassy picnic area and arguably one of Queensland's most picturesque playgrounds. The beach is patrolled during peak times.

One of Emu Park's popular attractions is the Emu Park Historical Trail. The trail commences at the School of Arts building in Hill Street and is spread across 20 locations. Each site is marked by an emu shaped art installation.

Another beloved icon, the historic Emu Park Jetty was originally built in 1924 and remains a favourite for locals. Stretching out from the boat ramp at the southern end of Fishermans Beach, it's especially photogenic at high tide.

If you have a boat or just like to wet a line, nearby Coorooman Creek is a popular local fishing spot with a quality boat ramp and pontoon.

**HOW TO GET THERE** Emu Park is 30 min drive north east of Rockhampton or 15 min drive south of Yeppoon along the Scenic Highway.

**WHERE TO STAY** Motels, caravan parks and holiday houses are all within walking distance of the beach.

# THE SCENIC DRIVE

Scenic Highway, Statue Bay

**W**ith 23 kilometres of coastline to explore, make sure you follow the Scenic Highway from Yeppoon to Emu Park and witness some of the best beaches the Capricorn Coast has to offer.

**COOEE BAY** offers a pretty little beach popular for swimming and stand up paddleboarders. The beach is just 500 metres long and best for swimming at high tide (it has some rocky platforms at low tide). Cooee Bay is also home to Wreck Point Scenic Lookout on Matthew Flinders Drive and is an undisputed "must see". The lookout depicts a ship's deck and boasts almost 360 degree views of the coastline and Keppel Bay.

**ENDLESS BEACHES** The coastal drive between Yeppoon and Emu Park also offers long stretches of beach and secluded bays

including Lammermoor, Kemp, Mulambin and Kinka Beaches. All beaches are ideal for swimming. Lammermoor offers beautiful sunsets for anyone who enjoys an afternoon stroll, whilst the southern end of Kemp Beach is **Bluff Point Walking Track**, a 2.3 km circuit that offers panoramic views of the coastline. You can climb the 600 metre track to Turtle Lookout where you can enjoy the spectacle of turtles swimming in the crystal clear waters below.

**ROSSLYN BAY** is home to Keppel Bay Marina and Rosslyn Bay Harbour. A must-do, whilst visiting the marina, is to take a stroll around the docks and marvel at the luxurious boats moored in the 500 floating marina berths. The marina also has a multi-award winning licensed restaurant where you can enjoy a meal overlooking the water. Located on the deck of Keppel Bay Marina, The Waterline

Restaurant offers stunning views and mouth-watering local beef, seafood and produce.

Rosslyn Bay is a man-made harbour and is a popular local fishing spot. The harbour has a public jetty, boat ramps, Yacht Club, Coast Guard and service station.

**THE CAUSEWAY LAKE** is nestled between Kinka and Mulambin Beaches and is the perfect place for a picnic lunch or sunset dinner. It is a very shallow and expansive lake which is popular for kayaking, fishing, family friendly watersports and also offers great photo opportunities at sunset. There is a kiosk, playground, caravan park and boat hire at the lake.

# KEPPEL SANDS & JOSKELEIGH

Keppel Sands Township

**K**eppel Sands has an idyllic village-style appeal that has changed very little in the last 20 years in comparison to many other coastal destinations.

**WHAT TO SEE & DO** Keppel Sands is separated from Zilzie and Emu Park by the mouth of Coorooman Creek which in turn makes it a popular fishing and crabbing location. A popular holiday spot for families, Keppel Sands boasts a pub, a newly renovated caravan park, motel, local store, two boat ramps, and a lovely picnic area by the beach.

## JOSKELEIGH

Nearby is the unique community of Joskeleigh which has a fascinating past. Joskeleigh has strong links with the South Sea Islanders who were brought to Queensland in the nineteenth century.

A great spot to learn more about the history is the small Joskeleigh South Pacific Museum. It highlights the role played by the Kanakas, brought out by the 'blackbirders' to work the sugar cane fields as indentured labour. The museum is run by volunteers and is believed to be the only museum of its kind in Queensland. To visit the museum, please call ahead on 07 4934 4854 to make a booking.

**HOW TO GET THERE** Access to Keppel Sands and Joskeleigh is by sealed road, the turn-off onto Keppel Sands Road is approximately 27 km from Rockhampton or 18 km from Emu Park. Keppel Sands also has an all-tide boat ramp at Coorooman Creek, and a tidal ramp at Pumpkin Creek. The Coast Guard is located at South Head with access via Pumpkin Creek.

# MOUNT MORGAN

VISITOR MAP

Mt Morgan Visitor Information Centre

**A** visit to Mount Morgan in the Capricorn Coast hinterland is a must. This historical gold mining town was established in 1882, and continued to produce gold, silver and copper for 99 years until the mine closed in 1981.

Mount Morgan was considered one of the most important gold discoveries in the world, and the mine was also believed to be the largest open cut gold mine in the Southern Hemisphere. The town was officially proclaimed in 1890 and in 1898 the railway reached the town.

Visit the Mount Morgan Railway Station which was established in 1898 and continued operating for 90 years. Today, the station is home to the town's Visitor Information Centre.

View the mine from Tipperary Point and see the "Big Stack". In 1905 the brick

chimney was built to distribute fumes from the mine smelters. It stands on a hillside behind the smelters and contains over 700,000 bricks.

Before departing Mount Morgan be sure to visit "The Big Dam", the last and largest of seven dams built on the Dee River. The Big Dam, as it is locally known, is restocked annually with native fish fingerlings and has always been a favourite picnic spot with a full undercover children's playground and BBQ area.

**HOW TO GET THERE** Mount Morgan is an easy 40min drive south west of Rockhampton. Enjoy the panoramic views of the surrounding countryside.

**WHERE TO STAY** Cabin and caravan park accommodation is available within the township.

# THE CAVES

## Mt Etna National Park

Located a short 30 minutes drive north of Rockhampton, The Caves township is home to some of the most spectacular caves in Queensland.

**WHAT TO SEE & DO** The township of The Caves is a friendly community and like all country towns has a great pub with loads of character. There is also a general store, service station and primary school.

The area is named after the many limestone caves that are scattered throughout the area. The most famous of these is the award winning Capricorn Caves, which are believed to be the state's oldest tourist attraction. A guided tour here is a must do when visiting the Capricorn Coast.

The nearby Mount Etna Caves National Park is home to eighty per cent of Australia's breeding population of female bent-wing

bats. From December to February ranger-guided tours are offered to see this spectacular nightly emergence of over 100,000 bats from their roost at feeding time (fees apply). This is one of the few places in the world where you can witness the incredible spectacle. The Archer Brothers, who settled in the Rockhampton area in the 1850s, named Mount Etna after the volcano in Sicily. Outside of bat breeding season, Mount Etna offers a good hiking trail with rewarding views.

**HOW TO GET THERE** From Rockhampton, drive north along the Pacific Coast Way for 23 km, then turn right into the Caves Township.

**WHERE TO STAY** Accommodation is available at the Capricorn Caves or nearby Hedlow Retreat.

# STANAGE BAY

Top 5 Tips

Stanage Bay

**N**estled on the coast, 2 hours drive north of Rockhampton, the fishing village of Stanage Bay really is a place to escape.

**WHAT TO SEE & DO** Easily accessible from the Pacific Coast Way, the unsealed drive to Stanage Bay takes you through diverse countryside, eucalypt forests, creeks, cattle stations with cows wandering casually over the track, and wetlands with enough birds to keep the keenest twitcher happy.

Stanage was Captain Cook's second landing in Queensland. He named the water ways here Thirsty Sound, because when he came to shore in search of fresh water none could be found, thus the name remains today.

Stanage has three suburbs, which have been affectionately renamed by the locals - **Alligator Point (Beverly Hills)** - great views and beach access, rentals, boat hire, tyre repair, day charter fishing trips;

**Alligator Bay (Happy Valley)** - pretty beach and rentals;

**Plumtree (Paradise)** - boat ramp, coastguard, rentals, beach, creeks, tackle shop, boat storage, store, pub, fuel, post outlet, public phone, public toilets, camping (BYO water).

**HOW TO GET THERE** From Rockhampton, drive along the Pacific Coast Way for 75 km, then turn right onto the Stanage Bay Road just past Kunwarara. Drive another 100 km along this mostly sealed road, which is accessible by 2WD except during very wet weather (check before you go). Limited mobile phone coverage is now available across the township of Stanage Bay.

**WHERE TO STAY** The local Plumtree Store can provide a range of accommodation options for visitors to the area. For more information contact them on 07 4937 3169.

# ROCKHAMPTON CITY

Fitzroy River, Rockhampton

**R**ockhampton is part of the Capricorn Coast hinterlands, the undisputed capital of Central Queensland, and the gateway to the reef. Reinventing itself as a city offering classy eateries, microbreweries, elegant streetscapes and family fun, this is a regional city worth exploring.

**THE RIVERFRONT PRECINCT** basks on the banks of the Fitzroy River 'Tunuba' and is presided over by the imposing Customs House and newly opened Rockhampton Museum of Art. The Riverfront is lined with elegantly restored Victorian buildings and buzzing with local events. You'll find yourself gravitating to this neck of the woods for dining and nightlife.

**STUNNING PUBLIC GARDENS** Discover two of Rockhampton's most loved green spaces. The historic Botanic Gardens feature lush plant life, picnic spots, an all-abilities

playground, and the Rockhampton Zoo. On the northern side of the city, Kershaw Gardens offers one kilometre of landscaped parkland with walking trails, a stunning waterfall, and kids' play areas. Both are perfect for relaxing, exploring, and soaking up nature—right in the heart of the city.

**THE FITZROY RIVER** is an angler's paradise. Try your luck solo, or hook up with one of the local guided fishing charters and catch yourself a trophy fish right in the city centre! Or if sightseeing and wildlife are more your style, why not book a local river cruise.

**FREE FAMILY FUN** is never far away in Rockhampton. Adventure playgrounds, water-parks, gardens and zoo's are all on offer.
