

Name: Agnieszka Bartnik
Therapy Assistant

Special Interest: Community rehabilitation in rehab unit or at client's home, Gym based rehab, working with clients with neurological conditions and supporting them with their rehab plan and Hydrotherapy

Base: South Yorkshire

Personal Statement, Experience and Employment:

Anna is an experienced Therapy Assistant who has worked in the private sector for nearly four years and has more than nine years of experience in the healthcare sector. She has a special interest in neurological rehabilitation and has worked with clients with Learning disabilities(including autism), brain injuries, spinal injuries, and GBS.

She is passionate about helping individuals to achieve their goals and maximise their independence. She currently works with a wide range of MDT, and her job involves supporting the delivery of rehab goals for the clients, working sometimes jointly with physio and OT, maintaining online treatment records of clients, and supporting clients out in the community, rehab unit or their home with their therapeutic activities. She works in clients' homes, helping them with exercise programmes and using appropriate equipment.

When she is not working, Anna is a busy mum who enjoys the outdoors and good food.

Training attended:

- Safeguarding
- Moving and handling
- Use of the International Classification of Function Disability and Health Framework (ICF)
- Hydrotherapy(in-service)
- Various in-service training around exercise prescription, client-specific training, cognition, and LD.

Professional Affiliations:

Health Care Professions Council (HCPC)

Chartered Society of Physiotherapy (MCSP)

Association of Paediatric Chartered Physiotherapists (APCP)

Association of Chartered Physiotherapists in Neurology (ACPIN)
