accelerate, unveil, master, eXceed

CAPABILITY STATEMENT
Empowering Innovation through AI, Cloud, and Engineering Excellence

aumX Solutions is a modern technology consulting firm focused on AI-driven transformation, Cloud enablement, data modernization, and enterprise software implementation. Backed by GSI veterans and a global talent network - we deliver outcome-based, scalable, cost-effective solutions to public and private sector clients helping modernize their business and client experiences

Corporate Profile

aumX Solutions delivers forward-looking technology services to accelerate digital transformation across public and private sectors. With deep expertise in Data & Analytics, AI/ML/Gen AI, Cloud, Software Engineering solutions and Enterprise systems, we help clients modernize securely and efficiently. Our leadership has over 35+ years in executing Data and AI transformations, 40+ years in Data warehousing, BI/Visualization implementations.

Core Service Areas:

- AI & Generative AI
- Cloud Engineering, DevOps, FinOps
- Data Analytics & Modernization
- Custom Software Development
- CRM & ERP Implementation
- IT Talent & Advisory Services

Differentiators

- Proven AI/GenAI expertise with MLOps, LLMs, and responsible AI practices.
- Cloud-first engineering across AWS, Azure, and GCP with DevOps automation.
- Full-spectrum data analytics using Snowflake, Databricks, MicroStrategy, Power BI, Tableau, and more.
- Scalable CRM, ERP, and software development with ADA-compliant UX.

Past Performance

Global Fast-food Company: Cloud Data Engineering & Workflow Automation

Migrated ETL workflows from IBM DataStage to Apache Airflow on AWS; improved pipeline performance and agility.

Leading Healthcare Provider: MLOps Platform Modernization

Refactored MLOps using Vertex AI and Terraform; enabled CI/CD and containerized deployment for faster analytics.

Leading Telecommunications Company: Field Operations Modernization

We modernized the Field Operations BI Datawarehouse and Dashboards, leveraging UI/UX design, and visualization tools like MicroStrategy, Tableau and Power BI.

Leading Multinational Pharmaceutical Company: Finance Decisions Transformation

Delivered data modernization and a Conversational BI solution to help Finance executives drive key decisions and achieve overall finance transformation

Primary NAICS Codes

- **541511 -** Custom Computer Programming Services
- **541512 -** Computer Systems Design Services
- **541519 -** Other Computer Related Services
- **541611 –** Administrative & General Management Consulting

Core Competencies

AI & Generative AI Solutions
Strategy, design, and implementation of AI/ML models, LLMs, and GenAI use cases including chatbots, AI copilots, and automation - delivered with a strong focus on governance and ethical AI.

Agile Engineering
Cross-functional teams delivering value through agile sprints - rapid prototyping, continuous integration, and iterative builds from MVP to full-scale deployment.

Cloud Architecture & DevOps
Cloud-native application development, containerization, CI/CD pipelines, IaC for AWS, Azure, and GCP - driving scalability, performance, and cost optimization. FinOps Assessment and Implementation

Modern Data Platforms
Design and implementation of modern data warehouses (Snowflake, Redshift, BigQuery), advanced analytics dashboards (MicroStrategy, Power BI, Tableau), and DataOps best practices.

Enterprise Application Services
Customization and integration of leading CRM and ERP platforms like Salesforce and Microsoft Dynamics 365 - optimized workflows, APIs, and end-user enablement.

Web & CMS Development
Custom web and mobile apps, ADA-compliant CMS solutions, and UX/UI design using Drupal and WordPress. Website Migrations and Multi-site design and development.

IT Staffing & Augmentation
Onshore, offshore, and hybrid resourcing models offering specialized talent in Cloud, Data & AI/ML, Software development, and DevOps - with flexible global engagement models.

Program & Change Management
Partnering with leadership to design transformation roadmaps, manage digital initiatives, and ensure stakeholder alignment and organizational readiness. Project management and training, certification.

Training & Upskilling
End-to-end learning solutions across AI, cloud, data, and DevOps - empowering teams through curated content, live sessions, and hands-on labs.

Security-First Delivery
Every solution is designed with compliance in mind - FedRAMP, HIPAA, SOC 2 - ensuring data integrity, privacy, and secure development lifecycle practices.
