FREEDOM IN A CAN

Shari and Hutch began their dream RV road trip in the fall of 2012 with their restored and solar powered vintage "canned ham" camper...and they aren't showing any signs of slowing down!

What began as a break from careers and home ownership transformed into a passion for simple sustainable living and exploring the natural world. For more than 13 years, they've been exploring all 50 U.S. states and 12 Canadian provinces and territories...all with solar power! As full-time digital nomads they work from the road, empowering people to get outside and turn their traveling dreams into reality. Join them for RV lifestyle seminars at RV shows across the country or online via their YouTube and social media. You can find out more about their incredible journey at freedominacan.com.
