

Therma Tech

3400

Formerly marketed as **Orion 3400**

Best value sandwich garage door in its class

**25 Gauge
1½" Sections**

Safety, Durability, Efficiency

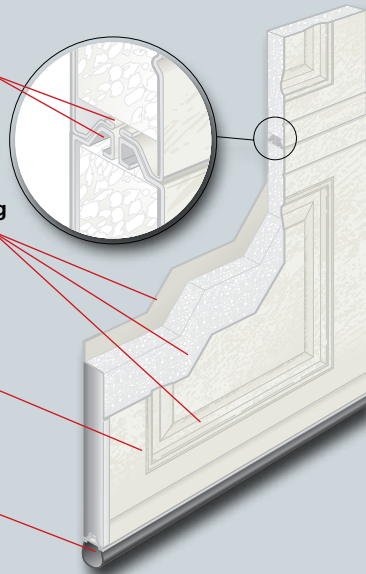

The Hörmann Therma Tech 3400 is the best choice if you are looking for an affordable insulated garage door. The virtually maintenance-free Therma Tech door features a steel front and back with a polystyrene core with an R-value of 7.4. The range of options gives you choices to beautify your home while increasing your savings on energy.

Precisely designed thermally broken **tongue and groove section joint** reduces air infiltration and creates weather-tight seal.

The steel front and back 3-layer sandwich construction with **insulating polystyrene core** increases energy savings and provides a very smooth and quiet door operation.

Well-defined panel embossments, easy to clean woodgrain texture, galvanized and **finish painted steel** provide years of trouble-free performance and beauty.

The bottom weather seal **keeps out wind, rain, debris and other elements** for added energy savings.

Hörmann Innovations

Safety Bottom Fixture

Hörmann Therma Tech 3400 doors utilize safety fixtures on their bottom sections for added safety for your peace of mind.

Superior and Safe Windows

Hörmann window insert frames are recessed to the panel surface to give your door a cleaner look. Tempered safety glass panes offer extra layer of safety in case of breakage.

The Therma Tech 3400 is now available in door heights up to 16' tall.
