Outer Burial Container Price List Effective August 26, 2026 and subject to change without notice

What is the purpose of an outer burial container?

An Outer Burial Container or "vault" provides a secure environment for the casket or urn and the physical remains contained within. Design, quality, and materials used in construction of an Outer Burial Container vary and are subsequently reflected in the manufacturer's warranty and the cost of the product.

In most areas of the country, state or local laws do not require that you buy a container to surround the casket or urn in the grave, however many cemeteries require that they have such a container so that the grave will not sink in. Either a grave liner or grave vault will satisfy these requirements.
