Who we are

Brazilian processor based in Bahia. Food-grade facility focused on frozen fruit pulps for industrial buyers. Consistent specs, export operations, responsive support.

Origin & location

Wenceslau Guimarães, Bahia - recognized as the world's largest soursop-producing municipality. Dense grower network within a short sourcing radius enables field-to-freeze in hours; proximity to Salvador/BA supports reliable reefer exports.

Portfolio

Frozen pulps: Soursop, Passion Fruit, Guava, Pitaya, Cupuacu, Cocoa, Mango.

Differentials

- 100% fruit (no added sugar).
- Standard drums 200 kg (other formats on request).
- Tight microbiological specs.
- COA available per lot.

Logistics & Formats

- Frozen cold chain $\leq -18^{\circ}\text{C}$.
- Export via reefer containers.
- MOQ: aligned per SKU & destination.
- Incoterms: FOB/CIF.

Technical Specs

Typical pH/°Brix ranges per pulp. Microbiological limits aligned with market expectations. Full normative references on request.
