MISSION OF
Hope®

HOPE

at the TABLE

Around the holidays, our tables are filled with warmth—laughter, love, and plenty to eat. But for many in Haiti and the Dominican Republic, the table looks very different—plates remain empty, and meals are scarce.

This season, you can help change that.

MAKE A DIFFERENCE

Through Hope at the Table, you have the opportunity to provide real nourishment—and real hope—to children and families in desperate need. Right now, 5.7 million people are struggling each day just to feed themselves and their loved ones. Together, we can help change their story.

It takes only 11 cents to provide one meal. That means every **\$1** you give provides **9 meals** for families who are hungry.

Hope at the Table is a powerful invitation to make an impact. It connects the abundance we experience with the urgent need our neighbors face, reminding us that generosity can fill empty plates with both food and hope.

This holiday season, we invite you to join us at the table. **Together, we can replace emptiness with provision, despair with joy, and hunger with hope.**

**FOR AS LITTLE AS 11 CENTS/MEAL,
YOU CAN HELP:**

Provide meals for children and families in desperate need.

Bring strength and dignity to communities that face food insecurity daily.

Share the hope of the Gospel as physical needs are met with spiritual truth.

STORIES OF HOPE

JEAN PIERRE - HAITI

Jean Pierre's world shifted overnight in 2024 when his mother suffered a severe stroke. Once the steady provider of their home, she was left paralyzed; unable to work, unable to care for herself, and suddenly dependent on her young son in ways no child should have to shoulder.

Everything the family had saved disappeared almost immediately due to medical bills. Most days, the question wasn't **what** they would eat, but **if** they would have anything at all.

That's why ***the meals Jean Pierre receives at school through Mission of Hope have become more than food; they are a lifeline.*** Each plate placed in front of him lifts a little of the weight he carries. It restores his strength, sharpens his focus, and gives him space to simply be a child again.

LILY - DOMINICAN REPUBLIC

While walking through a community in the Dominican Republic, our Women's Empowerment team met Lily, a pregnant mother just days from giving birth. Her husband had recently left, leaving her and her children alone in unsafe conditions **with no food in the house and no way to provide their next meal.** She was scared, exhausted, and unsure how she would care for her family.

Our team responded immediately. They connected Lily with a local pastor and provided her with medical care, prenatal vitamins, and the encouragement she desperately needed. ***Food and essential supplies were delivered promptly, bringing relief in the midst of her crisis.***

Today, our team continues to check in regularly, ensuring Lily and her children have the food, support, stability, and hope they need.
