

OA KNEE BRACING

BREG (USA) FREESTYLE OA KNEE BRACE

The Freestyle OA provides off-loading of the medial or lateral compartment for patients with mild to moderate unicompartmental osteoarthritis. The Simple wraparound design allows patients to apply and remove the brace with ease. Comfortable, breathable material provides focused compression around the knee joint. The single-sided low profile hinge encourages patient compliance, while the innovative thumbwheel dial allow precision unloading adjustment without the use of a tool.

Features

- Lightweight, low profile brace fits under most clothing.
- Soft, comfortable material promotes patient compliance.
- Simple, intuitive wraparound design provides compression.
- Adjustable off-loading-no tools required.
- Finger pockets aid in application.
- Medial or lateral options available.

SIZE#	SIZE	6" ABOVE MID PATELLA	6" BELOW MID PATELLA
X=2	Small	15" – 18" (38 – 46 cm)	12" – 14" (30 – 36 cm)

BREG (USA) LATITUDE OA KNEE BRACE

The Latitude OA knee brace offloads the medial or lateral compartment for patients with mild to moderate unicompartmental osteoarthritis of the knee. The universal design limits inventory needed to cover the patient size range and allows for the brace to be used for both medial and lateral osteoarthritis.

Common Examples of Use

- Moderate to mild unicompartmental osteoarthritis
- Osteochondral defects
- Articular cartilage defects/repairs

Product Features

- Single Upright OA brace
- Universal sizing (maximum thigh/calf circumference: 32"/21" or 81.2 cm/53.3 cm)
- Side specific (left or right)
- Offloads both medial and lateral compartments (with the use of a key)
- Lightweight, low profile, and only 14" tall (35.56 cm)
- Easy push button clips with numbered buckles for simple and quick application
- Pivoting straps for patient comfort

Benefits

- One Size Fits All
- Treats both medial and lateral unloading in one brace
- Easily adjustable unloading hinge
- Extremely low profile
- Lightweight
