

Agnus Dei Homeschool Co-op Update

This spring, our Farm School class participated in the Erie County Department of Environment & Planning's rain barrel painting contest. The theme focused on stormwater pollution prevention and recycling rainwater.

Our students were provided with a 55-gallon syrup barrel that they converted into a rain barrel and painted to reflect the contest theme. The rain barrels were judged according to three criteria: how well the design fits the theme, creativity, and neatness.

We are happy to announce that our Farm School class won the 2nd place prize! Congratulations to Mrs. Jessica Cain and her Farm School students: Kolbe, Gabriella, Allison, Avery, Lily, Onalee, Jacob, Louise, Gianna and Isabella.
