Creating Equality of Fracture Care Throughout the World

April 6, 2026

Dear Friends of SIGN,

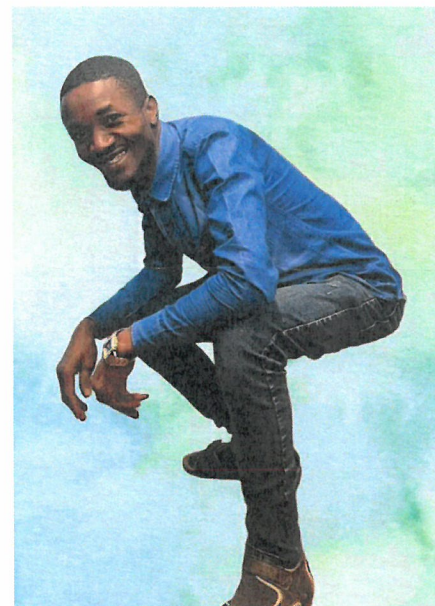

Thank you for your gift to SIGN Fracture Care. Because of you, hospitals around the world have the supplies surgeons need to heal broken bones.

Kibuye Hope Hospital is a key healthcare facility for those living in East Burundi. This hospital lies three hours away from the largest city in the country, Bujumbura, and offers a large range of services for patients in need of quick care.

Santos, 34, was heading home one day from work in Bujumbura, when his vehicle veered off the road and crashed. A piece of metal from the car struck his lower left leg. An ambulance quickly arrived to take him to Prince Regent Charles Hospital, where an x-ray showed that Santos' left tibia was broken. Doctors quickly stitched his wound and scheduled him for a follow-up appointment.

Unfortunately, his follow-up appointment was to take place a month after his initial visit. Because of this, Santos scheduled an appointment the next day at Kibuye Hope Hospital, where he was able to consult with SIGN Surgeon Dr. Dena Ferguson.

After meeting Santos, Dr. Ferguson knew SIGN Surgery would be the quickest and most effective form of treatment for his injury, and she performed surgery that day. Santos was able to return home and came back to Kibuye Hope Hospital six weeks later. At this appointment Santos was able to show that his range of motion had returned with a good squat and beaming smile.

Thank you for providing hospitals with the support they need to treat patients quickly.

*Thanks!!
