Luxury Brands Hospitality

This luxurious shampoo, body wash, and lotion collection comes in soft-touch preprinted tubes that feel considered, modern, and gift-ready.

Our Collection of Fine Amenities

We understand that a truly exceptional hotel stay is defined by the quality of the smallest details. To that end, we have curated a full personal care experience, selecting liquids for their texture, efficacy, and ability to hold a sophisticated, designer inspired scent.

We utilize fine, complex fragrance blends which are layered with top, heart, and base notes.

Instead of a simple, uniform aroma, your guests will experience:

- A Bright Opening: Crisp notes that refresh and clean.
- A Warm Heart: Notes that add depth and comfort.
- A Lingering Base: Rich, lasting notes that create a memory of luxury on the skin and hair.
