- 50ml white/clear

BLACK EXFOLIATING BODY SPONGE

A gentle, textured exfoliating sponge that boosts circulation, smooths texture, and helps keep skin looking firm, soft, and refreshed.

Tissue Oil

A lightweight, fast-absorbing blend of rosehip, sweet almond, and grapeseed oils that deeply hydrates, calms irritation, supports acne-prone skin without clogging pores, and helps fade scars and dark marks for smoother, brighter, more youthful-looking skin.

Room & Linen Mist

Light fragranced mists designed to freshen and scent both living spaces and fabrics such as bedsheets, curtains, and upholstery. Contains essential oils and fine fragrances. These sprays enhance ambience, promote relaxation, and eliminate unwanted odors, making them a simple and effective way to uplift home environments.

200ml Eau D Room & Linen spray

- Coconut water & lime
- Rose quarts
- Mandarin & leaf
- Cotton Flower
- Vanilla
- Lavender
- Sandalwood

Specialty Sprays

EAU D'LOO *Before you poo*

Eau d Loo: Your Freshness Solution

Eau d Loo forms a delicate, invisible layer of essential oils on the surface of the toilet water. This barrier is designed to trap unpleasant odors beneath the surface of the water, preventing escaping into the air.

Available in 50ml, 100ml & 200ml

- Orange Mint
- Vanilla Mint
- Luscious Lavender

Why you'll love it:

- Free from harsh chemicals
- Proudly made in South Africa
- Developed, tested, and approved in a laboratory

Certificate/Report
RESULTS REPORTED RELATED ONLY TO ITEMS TESTED

Ref. No :
Issued at : J
Date : 05
Page : 1 of

COMPANY NAME : MITRAS HOTEL COSMETICS
ADDRESS : VISION PARK- UNIT 7, 5 TOTTUM ROAD, CORNUBIA INDUSTRIAL ESTATE, OTTAWA, 4439
SUBJECT : QUANTITATIVE SUSPENSION TEST FOR THE EVALUATION OF BACTERICIDAL ACTIVITY OF CHEMICAL DISINFECTANTS
MARKED : SANS 5261:2009 (SANS 490:2013)
ACTIVE INGREDIENT : 70% ALCOHOL
INSTRUCTED BY : VAS DEMETRIOU
LAB NO. : P23909
RECEIVED ON : 20/03/2020
DATE ANALYSED : 09/04/2020

Results:

Bacterial Culture	Initial test suspension	Turbidity of sample after 48 hours	Pass/Fail
<i>P. aeruginosa</i> ATCC 15442	2.7×10^7	NEGATIVE	PASS
<i>S. aureus</i> ATCC 6538	1.2×10^7	NEGATIVE	PASS
<i>E. coli</i> ATCC 8739	2.5×10^7	NEGATIVE	PASS

Dilution: Neat
Contact Time : 60 seconds
Incubation Temperature: 37°C
Test Temperature : 20°C

There was no visible growth after the initial incubation period of 48 hours. Visible growth was observed after re-inoculation proving that the test sample killed the bacteria in the original test organism suspension.

Conclusion:
The product complied with the pass requirements of SANS 490:2013 as stipulated in SANS 5261:2009.

Paris Perfume Collection

The Paris Perfume Collection echoes the world's most luxury fragrances but at a fraction of the retail costs. These products represent a democratizing of luxury blending aspirational living with value-centric purchasing psychology. We import fine fragrance oils from traditional perfume capitals such as Grasse France and blend them locally with the highest grade perfumers ethanol available in the world. We include stabilizers, fixatives and UV additives to protect the longevity and enhance the fragrance on the skin.

Note - Reference to Name brand fragrances are purely for comparative purposes. All reference trademarks belong to their respective owners and are utilized strictly for identification and comparative purposes and the company is completely unaffiliated with any brand owner.
