ART BOOK 5 WORKS

RONNY SIMON

Five Mindstrokes

ABOUT THE ARTIST

I create expressive portraits and figurative works where intimate gestures, anatomy, and layered color explore connection, vulnerability, and quiet tension. Earthy ochres, deep blues, crimson, and textured marks give each piece a raw, human presence.

RONNY SIMON

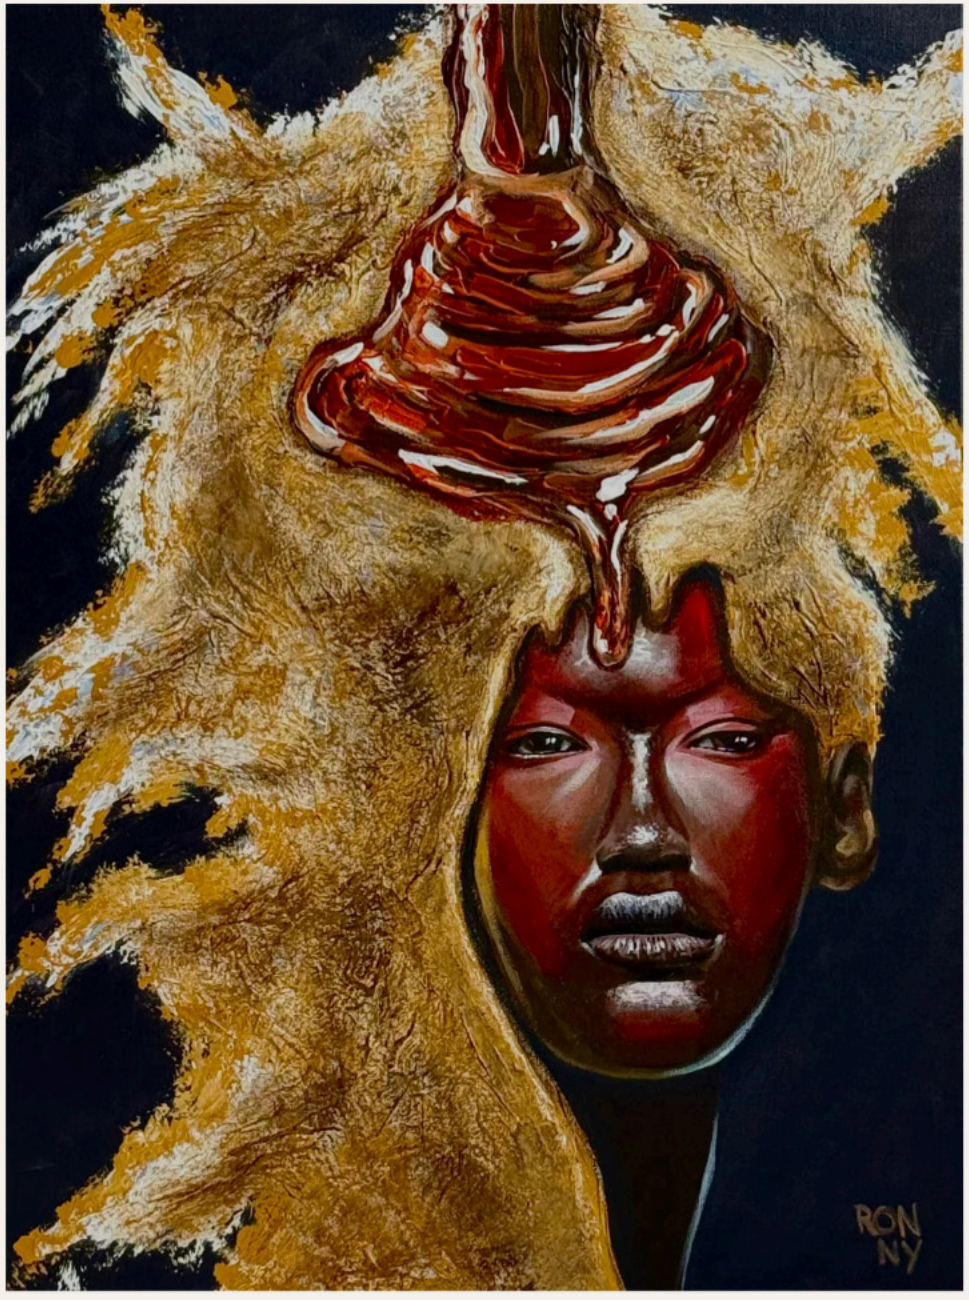

Between Worlds

60 × 80 CM

Golden Downpour presents a surreal portrait beneath a sweeping, gold-laden canopy, where liquid metallic forms cascade around the figure’s face. A pale blue opening reveals clouds overhead, creating a striking contrast against the deep, shadowed background. Rich gold, silver, and crimson details give the work a theatrical presence and expressive intensity. Its bold composition brings a distinctive focal point to a contemporary living space.

Silent protest

60 × 80 CM

A striking portrait pairs a calm, forward-facing gaze with a flowing crimson headdress that drips like molten lacquer. Textured gold and cream forms surround the figure against a deep navy background, creating a dramatic contrast of warmth and shadow. Its rich palette and commanding presence make it a distinctive addition to your space.

Thin Air

60 × 80 CM

A surreal portrait pairs a composed gaze and deep red lips with an oversized, sculptural sweep of red hair, accented by a small rose. A finely gathered ivory ruffle frames the face against a dark background, heightening the painting’s striking contrast. Its bold, offbeat presence can bring a distinctive focal point to your space.

Liquid

60 × 80 CM

This surreal portrait intertwines makeup bottles, brushes, and tubes with vivid ribbons of red, gold, and turquoise. Beneath the flowing color, an open mouth and partially hidden face give the composition a striking, theatrical tension against its dark background. Its bold imagery makes a distinctive addition to a creative living space or studio.

TNT

60 × 80 CM

A striking portrait set against a saturated red field, depicting a woman whose eyes are bound in dark, ribbon-like bands. Hands turn a device above her head as labeled wires fan outward, creating a tense, surreal composition. Its bold color and enigmatic imagery bring a distinctive focal point to a living room, studio, or gallery wall.
