

Town Hall Meeting - September 20, 2026

Father led us in prayer.

Three councils have been having discussions about facilities.

School:

- Has grown in attendance over the past few years. Stretching the limits of our space; we have had to move things around as far as classroom, band and music space. Will utilize the KC building this year.
- Office space is crowded and not adequate - office work, tutoring, testing, area for Father, and Lisa for PRE.
- Electrical upgrades for added need
- Safety needs - things that SHOULD be done
 - If we made updates, will be required as we will not be grandfathered in
 - Basement concerns - fire safety - we should be making necessary updates to keep kids safe

Ground Level Parish Center

- Accessibility
- Space for adult formation
- Weather related needs
- Concerts
- Band access
- Connect to school and church so there is a natural flow so we don't have to go outside or down stairs to gather

Rectory

- Challenging for visiting or elderly because it's multi-level
- Attached garage needed
- New build, renovate?

Other Changes

- Thinking about repurposing/renovating/adding if we agree upon starting a project
 - Angel wing
 - Adoration area
 - KC Hall
 - Parking
 - Offices
 - Church needs (paint chipping, general needs)
