Specialty Coffee

All of the coffee we serve is specialty grade, placing it among the top 5-10% of coffees in the world. This means it scores 80 points or higher on the Specialty Coffee Association's 100-point scale. Specialty coffee is defined by exceptional flavor, traceability, and ethical sourcing that supports farmers and sustainable practices.

Every cup is brewed with beans roasted within one month, ensuring peak freshness and character.

Organic & House-Made Syrups

To complement the coffee, we use Holy Kakow organic syrup in addition to our house-made specials.
