TO HOMEOWNERS AND
BUSINESSES FOR OVER
65 YEARS

Christchurch
ELECTRICAL

Introducing **CHRISTCHURCH ELECTRICAL**

From modest beginnings in the 1950's, Christchurch Electrical stands today as one of the longest established electrical companies in Christchurch, comprising of specialised departments and over 50 qualified electricians with a wealth of experience across all sectors of the electrical industry.

In April 1999, I purchased the company with the determination to continue building on our strong foundations by exceeding client expectations and providing outstanding electrical service to the Canterbury community.

The company structure of Christchurch Electrical allows us to be competitive, flexible and well equipped to take on any project, no matter how big or small. We are proud of our ability to complete installations to an exceptional standard within restricted time constraints.

With operational directors, we are focused on achieving our vision of being Canterbury's leading electrical solutions provider.
