

ABC NURSERY POLICIES AND PROCEDURES
POLICY 40: Intimate Care and Toileting Procedures

- 40.1 ABC Nursery aims to support children's care and welfare on a daily basis in line with their individual needs. All children need contact with familiar, consistent carers to ensure they can grow confidently and feel self-assured. At times children need to be cuddled, encouraged, held and offered physical reassurance.
- 40.2 Intimate care routines are essential throughout the day to ensure children's basic needs are met. This may include nappy changing, supporting children with toileting, changing clothes where required, first aid treatment and specialist medical support.
- 40.3 In order to maintain the child's privacy, the majority of these actions will take place on a one-to-one basis and when possible will be supported by the child's key carer, with the exception of the first aid treatment that will be conducted by a qualified first aider.
- 40.4 We wish to ensure the safety and welfare of the children involved in intimate care routines and safeguard against any potential harm as well as ensuring the staff member involved is fully supported and able to perform their duties safely and confidently. Through the following actions we will endeavour to support all parties:
- Promote consistent and caring relationships through the key carer system in the nursery and ensure all parents understand how this works
 - Ensure all staff undertaking intimate care routines have suitable Enhanced DBS checks
 - Train all staff in the appropriate methods for intimate care routines and access specialist training where required, i.e. first aid training, specialist medical support
 - Conduct thorough inductions for all new staff to ensure they are fully aware of all nursery procedures relating to intimate care routines
 - Follow up on these procedures through supervision meetings and appraisals to identify any areas for development or further training
 - Working closely with parents on all aspects of the child's care and education as laid out in the Parental Involvement Policy. This is essential for intimate care routines which require specialist training or support.
 - If a child requires specific support the nursery will arrange a meeting with the parent to discover all the relevant information relating to this to enable the staff to care for the child fully and meet their individual needs
 - Ensure all staff have an up-to-date understanding of safeguarding/child protection and how to protect children from harm. This will include

identifying signs and symptoms of abuse and how to raise these concerns in the most appropriate and speedy manner.

- We will NOT allow staff who are new to the position and do not know the children well to carry out intimate care routines. They will only be included in the rota when they have formed bonds with the children and they are trusted by the children.
- Agency staff and volunteers will NOT be allowed to be involved in intimate care routines and will be made aware of the nursery's mobile phone policy.
- Parents, visitors and volunteers will NOT be allowed to enter the toilet areas if other children are involved in intimate care routines.

40.5 The setting operates a whistleblowing policy as a means for staff to raise concerns relating to their peers. The management will support this by ensuring staff feel confident in raising worries as they arise in order to safeguard the children in the nursery

40.6 The management team regularly conducts working practice observations on all aspects of nursery operations to ensure that procedures are working in practice and all children are supported fully by the staff. This includes intimate care routines

40.7 The nursery conducts regular risk assessments on all aspects of the nursery operation and this area is no exception. The nursery has assessed all the risks relating to intimate care routines and has placed appropriate safeguards in place to ensure the safety of all involved.

40.8 If any parent or member of staff has concerns or questions about intimate care procedures or individual routines please see the manager at the earliest opportunity.
