

“Not Just an Air-Ride... *It's a Cush-Ride!*”

Cush Suspensions is a **Full Solution Provider** that combines
Innovation with **Quality** to give you a truly unique,
engineered-to-order suspension to perfectly fit your needs.

SUSPENSIONS

BigFOOT

The patented BigFOOT design is our premium air-ride offering with innovative features including the industry's widest axle connection footprint. This means much less axle flex with as much as a 20% increase in axle capacity.

Reduced axle flex also means better tire wear & roll stability:

Industry's Lightest Weight Available in 5" or 5.75" Round Most Advanced Air-Ride in the Industry Cush-Integrated Full-Wrap or Customer Installed Axles

Best Where Used: Standard & Heavy-Duty Van, Flatbed, Drop Deck, Tank, Grain, and Chip Van Trailers

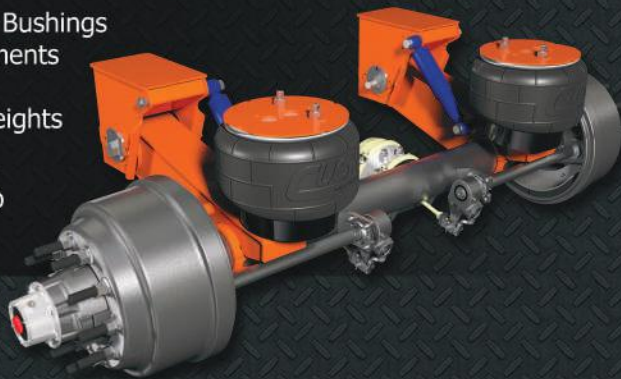

Roughneck

Engineered as the trailer industry's most durable air-ride product line for Severe-Duty applications. Readily available service parts assure maintenance is timely & cost-effective. Axles can be Cush-Integrated full-wrap or customer installed:

- Ultra Heavy-Duty Box Hangers with Wide Bushings
- 1-1/8" Pivot Bolt & Dual Eccentric Adjustments

Cush SuperTRAC Trailer Axles

- ✓ Competitive Price
- ✓ Single-Source Convenience
- ✓ Ensure Maximum Suspension Performance
- ✓ Manufactured to Cush Specifications

Who's Cush?

Launched in 2000 by a team of experts in suspension technologies, Cush is a heavy-duty suspension solution company that partners with Truck, Trailer, Bus & RV manufacturers.

We engineer, design and manufacture heavy-duty suspensions specifically to fit their unique application needs. Cush specializes in OEM and aftermarket suspensions to help drivers achieve optimized ride quality

How We Do It?

We ask questions, and then we listen. It's that simple. We could just throw you a quote to try and beat the price of your current supplier, but that's not us. We want to work with you to identify any issues or areas for improvement that will help your business **be more successful**.

If there aren't any real ways we can provide value above and beyond your current partner, that's ok.

We're happy to move on. Are we competitive on price? You bet we are, but we don't want to just give you the best price. We want to be the **best overall suspension solution for your business!**

Why CUSH?

Unlike other suspension companies who provide one-size fits-all suspensions, we felt the market calling for something different. We don't just give you a round peg for your square hole. As your suspensions solution consultant, we will:

Consult to provide a fully-integrated suspension solution **unique to your application**

Identify & resolve potential issues before they occur

Communicate ways to provide quality suspension solutions that will also help you **solve issues and streamline processes** on your end

Give you the best suspension solution **for the right price**

Create a track record of an unsurpassed level of customer service. **We succeed only when you succeed!**

By following this business model, we've gone from being a boutique suspension company to a full-line suspension manufacturing company providing thousands of suspensions every year to Truck, Trailer, Bus & RV manufacturing companies throughout North America.

- ✓ Top Notch Customer Service
- ✓ Industry's Most Innovative Suspensions
- ✓ Competitively Priced
- ✓ Engineered-to-Order Solutions
- ✓ A True Business Partner
