

# YUKON SERIES

## Natural in Texture

We're excited to announce the development and launch of our newest product line - the YUKON SERIES!

With a texture developed from natural slate and a linear look, all owners are going to love the modern design of the Yukon Series.

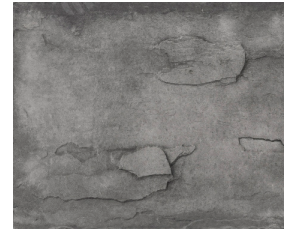

The Yukon wall block are finished on 5 sides and the 22", 32" and 38" have been slightly hollowed to reduce weight and simplify installation. Combine all the Yukon Series products in your project for that cohesive design and everlasting beauty.
