UST Delivery Prohibition and Temporarily Closed List as of 10/1/2026

Sites/Tanks on this list are not in compliance with the DNR and cannot receive fuel.

The previously separate "Delivery Prohibition" and "Temporarily Closed Sites" lists which the DNR previously published periodically have been combined for ease of use by the public. The "Active Red-Tagged" sites will appear on the list first, followed by the "Delivery Prohibition/Temporarily Closed Tanks" list. This list will be published on approximately the 1st business day of the month. An owner/operator and delivery transporter may face fines and/or disciplinary action for depositing fuel in tanks under either of these statuses. To verify a site status at any time, visit the Iowa DNR Tanks web application at programs.iowadnr.gov/tanks.

Tanks on this list may have a Delivery Prohibition Tag ("Red Tag") attached to the fill port.

Contact ustoperations@dnr.iowa.gov if you are asked to deliver fuel to a site with this tag. These sites/tanks have outstanding compliance violations with the DNR and cannot receive fuel.

Tanks may not have an Annual Compliance Tag attached to the fill port.

An annual tag listing "April 1, 2027" is required to receive fuel for tanks greater than 1100 gallons. The annual tag listing "April 1, 2027" must be on the UST fill port to receive fuel deliveries.

If asked to deliver fuel to UST without current tags, obtain a copy of the authorization for your record, or contact the DNR for assistance.

Added in last month:

Site Name	Address	City	Current Status	Start Date
