

Cutting Fleece for Swaddle Bathing/Positioning Aids

Use a self-healing mat that has a measurement grid on it to measure fabrics and then cut with a rotary cutter.

Sew TOL label onto item.

Swaddle Bathing: Cut fleece on the fold (just under 21 inches) by 24 inches.

Positioning Aids:

A. Square Positioner: Cut fleece 7x7 inches

B. Large Positioner: Cut fleece 7x21 inches

*Important note: On the long length of the positioner, 11 inches and 21 inches, it must be cut on the NON stretchy side of the fleece (tug on it lengthwise to check stretch).
