

# The NEW School Newsletter

ISSUE NO. 7

FALL 2024

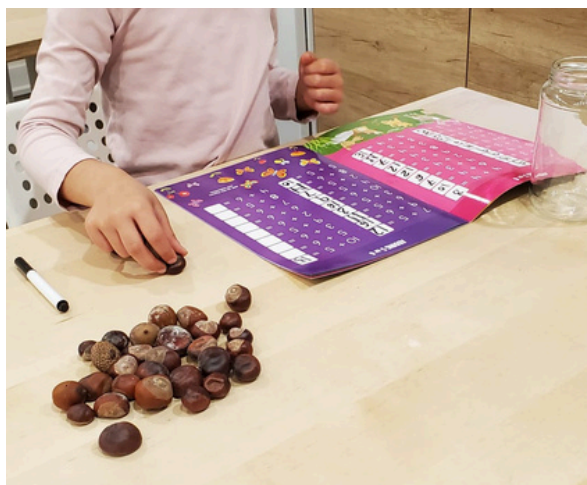

*We are standing in a miracle that we spent two years praying for...*

The NEW School year has been nothing short of miraculous since we opened the doors of our NEW Campus at 59 Kingdom Street on September 4th! We are thrilled to reflect on the incredible activities, field trips, workshops, and a beautiful community event we've hosted—all within the first 8 weeks of this exciting chapter. From hands-on fishing workshops that connect us with nature, to cutting-edge robotics and coding trips that nurture a Growth Mindset, our students have been thriving in a balanced blend of learning and exploration. We've shared moments of joy apple picking and giving back by feeding seniors in our community, cultivating love and kindness in the spirit of Christ. We were also blessed to host an inspiring community event, bridging faith with our God-given power and purpose. This Fall newsletter is packed with highlights from our first two months, and we're so grateful for the continued support from our community. Together, we are building a generation of trailblazers who will lead with faith and freedom.

*"The paradox of education is exactly this- that as one begins to become conscious, one begins to examine the society in which he is being educated."*  
~ James Baldwin

## *Ongoing Registration for 2024-2025 School Year*

We are delighted you are considering a NEW educational experience for your child(ren). New families can book a tour by visiting our website. Site visits must be booked before Registration forms can be accepted. We offer Free trials for potential NEW students. The trial classes will be an opportunity to attend our beautifully situated school on the Humber River trails and experience days immersed in alternative education surrounded by nature. During this time, future students will engage in meaningful interactions with our dedicated staff and peers, experiencing firsthand the sense of belonging within our inclusive school community.

# Fall field trips

## KIDS CODING SCHOOL

Kids spent the day coding and an creating their own V powered Art Robot at Kids Coding School. This opportunity aligned perfectly with our **Growth Mindset School Pillar** here at The NEW School. We are always seeking new ways to innovate, grow, and set our students up for success. Hands-on, real-world experiences like this workshop help our children gain the skills they need to tackle the future with confidence.

## ORGANICS FARM

Students visited Organics Farm, a locally grown and all organic apple and vegetable farm. The students were able to pick their own organic apples and wholesome veggies to take home. The following day they use these apples in a holistic math lesson, making homemade organic applesauce. This outing aligned with our **Experience Sustainability Pillar**, allowing children to understand the difference between nutritiously dense foods and the avoidance of toxic chemicals on their food.

# Real World Experiences

## SOUP FOR SENIORS

"Soup for Seniors" kicked off our first school Social Outreach for this year! As part of our mission to foster community and character, students planned, prepared, and delivered homemade soups to two seniors, Lisa and David, who needed some extra love this Thanksgiving season. This project aligns with our **Christ-Centeredness Pillar**, showing how real-world service strengthens both academics and character and allows children to operate in fruits of the spirit.

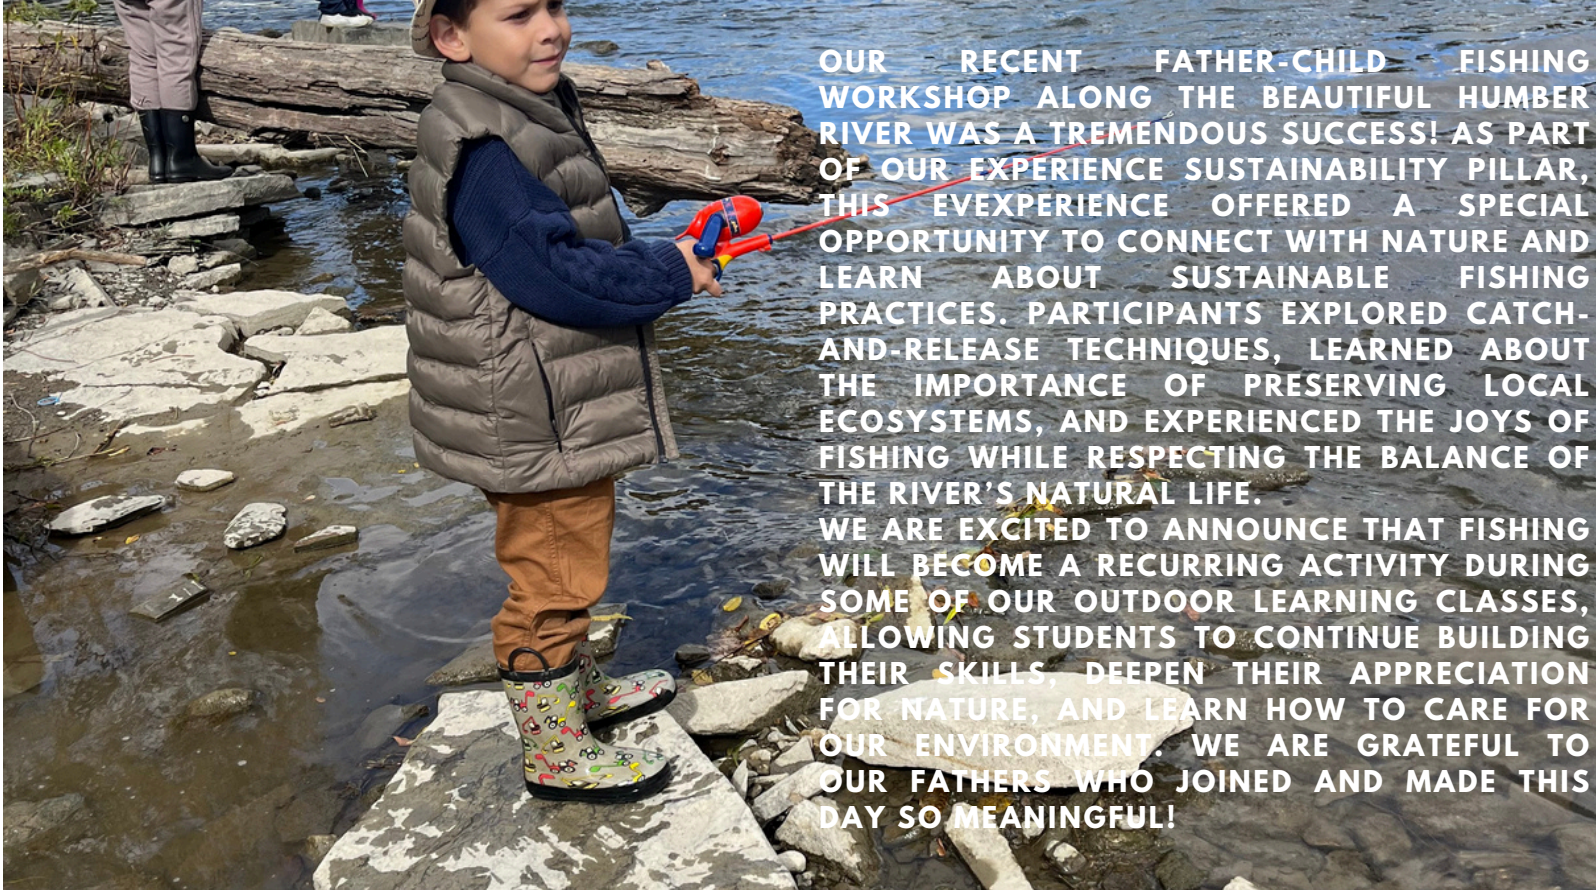

## THE WILD ROBOT CINEMA

Students in the middle grades have read both *The Wild Robot* as well the sequel as *The Wild Robot Escapes* as part of their Science Fiction Unit of Study. They were able to bring their novel study to life in 3D with a unique cinematic experience of The Wild Robot Movie. Watching The Wild Robot movie aligns with our **Rooted in Balance Pillar** by fostering an appreciation for the interconnectedness of nature and technology, encouraging students to reflect on the harmony between human innovation and the natural world. This balance enriches their understanding of how to live thoughtfully within both realms.

# *Fishing along the Humber River*

OUR RECENT FATHER-CHILD FISHING WORKSHOP ALONG THE BEAUTIFUL HUMBER RIVER WAS A TREMENDOUS SUCCESS! AS PART OF OUR EXPERIENCE SUSTAINABILITY PILLAR, THIS EXPERIENCE OFFERED A SPECIAL OPPORTUNITY TO CONNECT WITH NATURE AND LEARN ABOUT SUSTAINABLE FISHING PRACTICES. PARTICIPANTS EXPLORED CATCH-AND-RELEASE TECHNIQUES, LEARNED ABOUT THE IMPORTANCE OF PRESERVING LOCAL ECOSYSTEMS, AND EXPERIENCED THE JOYS OF FISHING WHILE RESPECTING THE BALANCE OF THE RIVER'S NATURAL LIFE. WE ARE EXCITED TO ANNOUNCE THAT FISHING WILL BECOME A RECURRING ACTIVITY DURING SOME OF OUR OUTDOOR LEARNING CLASSES, ALLOWING STUDENTS TO CONTINUE BUILDING THEIR SKILLS, DEEPEN THEIR APPRECIATION FOR NATURE, AND LEARN HOW TO CARE FOR OUR ENVIRONMENT. WE ARE GRATEFUL TO OUR FATHERS WHO JOINED AND MADE THIS DAY SO MEANINGFUL!

---

# Unlocking Musical Creativity in Our Students

---

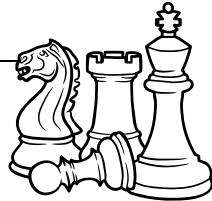

Our incredible Piano Teacher, Vladi, is truly bringing out the full potential of our students' creativity! Just a few weeks in, and our kids are confidently playing the piano, recognizing keys and notes, and even starting to compose their own music. We're so grateful for your support, Vladi—our master musician and beloved teacher! The students are drawn to your positive energy and enthusiasm for music.

At The NEW School, one of our core pillars is offering a balanced approach to educating the whole child. We believe that the arts are a vital outlet to nurture creativity and imagination. That's why our bi-weekly piano lessons are INCLUDED in our tuition—we understand the importance and value of providing this essential component of education. 🎵

## Expanding Horizons: Chess, French and Tennis lessons at The NEW School

At The NEW School, we believe in a well-rounded approach to education that nurtures both the mind and body. Our French lessons have already sparked a love for language learning, with students joyfully engaging in basic vocabulary, conversational skills, and exploring the rich culture of French-speaking countries.

Our chess lessons, meanwhile, are sharpening young minds as students learn strategy, problem-solving, and critical thinking through this timeless game. The enthusiasm for each new challenge is evident as they plan their moves and develop focus and patience.

On the tennis courts, students are embracing the opportunity to be active, refine their coordination, and enjoy the spirit of friendly competition. Guided by expert instructors, they're learning the basics of the game, improving their skills, and having a blast outdoors.

These enriching activities are all part of our commitment to fostering a love of learning in every child, with opportunities that go beyond the classroom. It's all about helping our students grow with confidence, creativity, and a passion for new experiences!

# BUBBLES & BITES: THE POWER WITHIN

## BE THE LIGHT FOR FUTURE GENERATIONS

The October 4th Bubbles & Bites: The Power Within Soirée was the kickoff of The NEW School Vision and Fundraising Campaign. An evening of inspiration and vision casting and many seeds were planted.

Creating Change for Generations to Come. "When you get behind a vision like this, you're not just supporting a school; you're investing in the future of our children." (Derrick Mueller)

"Meditation helps you realize that it's about your growth, your inner journey, and centering yourself. It's about helping others and shining as a beacon of light." (Joe Zamparo)

"We are planting seeds for change. To empower parents to BE the change their kids need by stepping into their God-given purpose." (Angela Anna Maria Sena)

Derrick Mueller, Executive Director of The Association of Christian Schools International (left); Angela Anna Maria Sena, Founder and Visionary Director of The NEW School & Joe Zamparo; Owner and CEO of International Fixtures, Master Stone and Mind Control Student (Right) were the featured guest speakers for the evening.

## "Stay inspired. Never stop creating."

In today's world, it's easy to feel like we fall short. But as Joe reminds us, it's about self-forgiveness and realizing that we are enough. We were born in God's likeness, and while we may have veered, we can always find the strength within to return to the path of love and purpose.

Join us as we help our students grow in wisdom, faith, and purpose, empowering them to shine in every part of their lives! Support our charity so we can create a ripple of change that will last for generations. A Kingdom Movement!

# THE NEW SCHOOL CHARITY

thenewschoolcharity@gmail.com

## A Christian alternative to a Broken System

We know more families than ever are opting to leave the system of institutionalized learning. The New Earth Wonders School started as a solution to a broken education system. It currently offers a loving and intentional learning space rooted in Christian values that supports students K-8 and their families. Guiding students to embody the fruits of the Spirit; The NEW School is a place where families can thrive and grow- a place that stands for Freedom!

### Our Solution-driven Mission.

Our mission is to help families seeking ultimate freedom to access this educational community. We aspire to create bursaries for families with financial needs as well as continue to grow and enrich our incredible school and the resources available to our students.

### How you can help.

Creating a parallel learning system for our children is a big goal. It requires support from individuals in our community — like you!

### Donate to our Charity.

Donating to our NEW School Charity will directly impact our goal of expanding our mission to reach more families and children. Contributions will also be used to build a fund to help students access this type of education and also to elevate the educational paradigm for generations to come.

Note: Charitable tax receipts will be issued for all donations.

## Final Stretch

Year-end fundraiser at a local public school park featuring lemonade stand, popsicles and other cool treats served by our students, engaging them in the fundraising efforts.

“And Jesus looked up, and saw the rich men casting their gifts into the treasury. And he saw a certain poor widow casting in thither two mites. And he said, Of a truth I say unto you, that this poor widow hath cast in more than they all: For all these have of their abundance cast in unto the offerings of God: but she of her penury hath cast in all the living that she had”. (Luke 21)

# The **GOD** Broadcast

## — *Kingdom Stories* —

The GOD Broadcast was born out of a deep desire to share how God transforms lives in powerful ways. From personal stories to global connections, we're creating a central hub where people from all walks of life can see God at work.

Whether you're young, old, a different nationality, or background—God is reaching you in a unique way, and we're here to showcase that!

We believe in making God cool and relatable. Jesus was bold, confident, and connected—He transformed lives then, and He's doing it now.

Follow us for real Kingdom Stories that will inspire and uplift and share the account with friends and family!

And... if you have a story you wish to share about how God has transformed your life, email [newearthwonders@gmail.com](mailto:newearthwonders@gmail.com)

# A KINGDOM VISION

To build a world-changing, history-making, God-sized vision, you must align your time, talent, and treasure with the Kingdom Constitution. At The NEW School, we are taking courageous steps of faith because we are here for LEGACY and generational FREEDOM. Our children will hold the torch for future generations to champion freedom, and they will break all chains and bondages because WE, the adults, are intentionally choosing to upgrade.

The NEW School is set on a path of purpose, guided by our four pillars: being Christ-centered, Rooted in Balance, Experiencing Sustainability, and fostering a Growth Mindset. Our vision is to nurture resilient, virtuous leaders who are equipped to navigate the challenges of tomorrow. Through our dynamic curriculum and commitment to outdoor experiences, we inspire a love for learning, a pursuit of truth, and a deep connection to God and nature.

We believe that by investing in the holistic development of our students, we are building a foundation for their growth and success. The journey ahead is one of faith, dedication, and transformation. We are excited about the path forward and look to the future with hope, knowing that our children are being prepared to be the change-makers of tomorrow. Let's continue this journey together, aligned in vision and purpose, as we build a legacy that will bless generations to come.
