

Door Masters of Texas

FOR ALL FINISHES INCLUDING CATALYZED URETHANE

YOUR INSTALLATION RESPONSIBILITIES

- ❖ *Provide us a 15 foot radius clear area for work.*
- ❖ *Move all nicknacks, tables, lamps, and furniture, etc.*
- ❖ *Suspend use of door or door set to all persons.*
- ❖ *Stay clear of the work area.*
- ❖ *Allow our crews to concentrate on their work without idle talk. Give them the opportunity to work.*
- ❖ *You are required to remain at your home while we are working. If you must leave, we also must leave!*
- ❖ *Remove all pictures, etc. from your walls for a distance of 15 feet from the work area. We will not be responsible for any item which was left in the work area.*
- ❖ *Do not attempt to clean any installed glass for 3 days.*
- ❖ *Handle the door gently, the finish takes up to 30 days to fully cure. It is possible during this period to peel the finish if the door was damaged or sustained trauma.*

DOOR CARE

- ❖ *Use a damp microfiber cloth with warm water and lite dishwashing soap and wipe down your door or door set every 6 months.*
- ❖ *After the door is clean, use a clean microfiber cloth to dry the door.*
- ❖ *No pledge or furniture polish is necessary.*
- ❖ *DO NOT use lemon oil or any oil on the finish. It will produce a gummy haze on top of the finish.*

For All Doors Produced After 9/01/2026
