

NEW SWEEP FOR LARGE OPERATIONS

RAPTOR II

■ **6,000**
Bushels Per Hour
Maximum Capacity

■ **ZERO
ENTRY**
Grain Bin Unload

■ **UP TO
180'**
Grain Bin
Diameters

Features & Benefits:

ZERO ENTRY

- Achieve an ultimate clean without entering the bin!
- No floor track or parking pads.
- Capable of starting under load.
- Avalanche-proof.

INTELLIGENT DRIVE CONTROLS

- All-weather touchscreen display & tactile button control.
- Integrated diagnostics and maintenance.
- Standard VFD for fine-tuning throughput.
- Local or remote operation.
- Independent electric motor for each drive.

PATENTED ANGLED SWEEP DESIGN

- Allows for easier startup and protection from grain avalanches.
- Leading edge agitates out of conditioned grain and foreign material.
- Induces en-masse grain flow.

CURVED PADDLES

- Curved paddles with claw-type supports move more grain with less friction.
