Current Experience

Bronwen is an experienced Case Manager working with adults who have sustained an acquired brain injury. Her caseload consists of clients with complex needs requiring tailored rehabilitation programmes and close multidisciplinary involvement.

She is actively involved in the recruitment and ongoing management of support staff, ensuring that high standards of care are consistently maintained. Bronwen has a strong understanding of capacity and the Mental Capacity Act and works collaboratively with Local Authorities and Independent Advocates to support clients through the DoLS process, ensuring their rights and needs are fully upheld.

Bronwen recognises the vital role that families play in the rehabilitation process and offers consistent support to help them navigate the emotional and practical impact of catastrophic injury. In addition to her clinical role, Bronwen is also the Quality Manager for N-able Services. She is instrumental in developing and reviewing governance systems to maintain service quality and uphold best practice across the organisation.

Previous Experience

Neurological Rehabilitation Nurse – Working in a residential rehabilitation unit, supporting clients with catastrophic injuries through tailored rehabilitation programmes and emotional adjustment.

Artificial Limb Centre Nurse – Developing a counselling service and providing wound care to patients. She established satellite clinics across regional hospitals and worked closely with Surgical Consultants and treating Clinicians to develop referrals prior to surgery.

Catastrophic Injury Case Management – Managing a large caseload of adult clients with complex injuries, facilitating their engagement in long-term rehabilitation and recovery planning.

Bereavement Support Volunteer – Volunteered with Cruse Bereavement Care for over 15 years; currently leads two supervision groups for bereavement support volunteers, offering guidance and peer support.
